INDEPENDENT AUDITORS' REPORT

Administrative Committee
Rainey Construction Company 401(k) Plan
Leesburg, FL

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Rainey Construction Company 401(k) Plan (the "Plan") which comprise the statement of Net Assets Available for Benefits as of December 31, 2013 and the related statement of Changes in Net Assets Available for Benefits for the year then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financials statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based upon conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis of opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information cited in Note 4, which was certified by AXA Equitable Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan Administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the custodian as of and for the year then ended December 31, 2013, that the information provided to the Plan Administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis of Disclaimer paragraph, we have not been able to obtain sufficient audit evidence to provide a basis for an audit opinion. Accordingly we do not express an opinion on the financial statements referred to in the first paragraph.

Emphasis of a Matter

The accompanying financial statements have been prepared assuming that the Plan will continue as a going concern. As discussed in Note 6 to the financial statements, the management of Rainey Construction Company, the Plan's sponsor have elected to terminate the Plan, which indicates that the Plan is not a going concern. The financial statements do not include any adjustments that might be necessary upon termination. Our opinion is not modified with respect to that matter.

Other Matter

The supplemental schedule of the Schedule of Assets, are required in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Other Matter

The accompanying statement of Plan Assets Available for Benefits as of December 31, 2012, and the related statement of Changes in Net Assets Available for Benefits for the year then ended were not audited, reviewed or compiled by us and, accordingly we do not express an opinion or any form of assurance on them.

RAINEY CONSTRUCTION COMPANY
401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2013 (Audited) and December 31, 2012 (Unaudited)

NOTE 1 DESCRIPTION OF PLAN

The following description of the Rainey Construction Company 401(k) Plan (the Plan) provides general information only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan originally effective January 1, 2007. The Plan is in the process of being amended to comply with recent tax legislation. The Plan covers all eligible employees of Rainey Construction Company. All employees of the Company are eligible to become participants in the Plan when they turn age 21 and complete 1 year of service. Participation in the plan is voluntary.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Under the Plan, eligible participants may contribute a percentage of their compensation up to the maximum allowed by the Internal Revenue Code (IRC). The Company does not provide any contributions to the plan. Participants direct the investment of contributions into various investment options offered by the plan. Contributions are subject to limitations. Participants may change their investment options on a daily basis.

Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans or conduit IRA's.

Participant Accounts

Each participant's account is credited with his or her contribution. Each participant's account is allocated earnings, gains, expenses and losses with respect to the investments of the participant's account. Allocations of Plan earnings or losses are based on each participant's fund balance in proportion to the total investment fund balance for the year. Each participant's account is charged with their respective portion of any administrative expenses charged to the participants in the Plan. Accounts are valued on a daily basis.

Vesting

Participants are fully vested immediately for their deferral contributions. Thus there are no forfeitures.

Participant Loans

Participants may, subject to certain conditions, borrow from their account, an amount not less than $1000. The maximum amount a participant is allowed to borrow is the lesser of 50 percent of the participant's vested balance, or $50,000. Interest rates on participant loans are determined based on a reasonable rate of interest, approximating prevailing interest rates on bank loans of similar length of time and repayment terms. The interest rate on all loans outstanding as of December 31, 2013 was 4.25% percent. Loans are collateralized by a security interest in the borrowers vested account balance and are repayable over periods up to 5 years, unless the proceeds are used for the purchase of a primary residence, in which case the loan must be repaid within a reasonable amount of time as determined by the plan administrator.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Benefit Payments
Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum payment equal to the value of the participant's vested interest in his or her account, or a series of installments over time. Hardship withdrawals may be requested, and are paid in one lump-sum upon approval. For termination of service due to other reasons, a participant will receive the value of the vested interest in his or her account as a lump-sum distribution. If a participant terminates employment and the participant's account balance does not exceed $1,000, the Plan Administrator will authorize the benefit payment without the participant's consent.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the plan are prepared under the accrual method of accounting.

Use of Estimates
The preparation of financial statements in conformity with the U.S. generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Participant Loans
Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Loans that are in default as determined by the plan administrator are considered plan benefit payments.

Date of Management's Review
Subsequent events were evaluated through October 6, 2014, which is the date the financial statements were available to be issued.

Fair Value of Financial Instruments
On January 1, 2008, the Plan adopted Statement of Financial Accounting Standard No. 157, *Fair Value Measurements* (SFAS 157). SFAS 157 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for individual assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the Fair value hierarchy under FASB Statement No. 157 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value of Financial Instruments (Continued)

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets
- inputs other than quoted prices that are observable for the asset or liability
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the valuation methodologies used at December 31, 2013 and 2012.

Reporting of Guaranteed Investment Option Contracts

As described in Financial Accounting Standards Board Staff Position, FSB AAG INV-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Audit Guide and Defined-Contribution Health and Welfare and Pension Plans (the "FSP"), the investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the FSP, the Statements of Net Assets Available for Benefits must present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The guaranteed investment option contracts of the Plan, which hold fully benefit-responsive investment contracts, are valued at contract value which approximates fair value. Therefore, there are no adjustments from fair value to contract value for the guaranteed investment contracts reflected in the statements of Net Assets Available for Benefits. In addition these contracts bear interest at a guaranteed rate which is the same as shown in the schedule below. Such interest rates are viewed periodically for resetting.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Reporting of Guaranteed Investment Option Contracts (Continued)
Certain events limit the Plan's ability to transact at contract value with AXA Equitable. Such events include the following: (a) amendments to the plan documents, (b) changes to the plan prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events that cause significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The plan administrator does not believe that the occurrence of any such value event is probable that would hinder the Plan's ability to transact at contract value with the participants.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average Yields:	2013	2012
Based on actual earnings	2.5	2.5
Based on interest rate credited to Participants	2.5	2.5

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts represent investments with various investment managers. The fair values of pooled separate accounts are determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in pooled separate accounts traded on national securities exchanges are valued at the net asset value. Participant loans are valued at cost which approximates fair value. The guaranteed investment contracts are valued at contract value which approximates fair value. Contract value represents contributions made under the contract, plus interest at the contract rate, less withdrawals and less funds used to pay administrative expenses.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (Continued)
Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses
The Company pays part of the administrative expenses of the Plan.

Benefit Payment
Benefit payments are recorded when paid.

NOTE 3 CERTIFICATION OF INVESTMENT INFORMATION

AXA Equitable Life Insurance Company, the custodian of the Plan, has supplied the Plan Administrator with a certification as to the completeness and accuracy of all investment information reflected on the accompanying statements of net assets available for benefits for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2013.

NOTE 4 INVESTMENTS

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Investment Assets at Fair Value as of December 31, 2013

EQ / Equity 500 Index	41,686	34,396
Fidelity VIP Contrafund Portfolio	-	15,035

During 2013 and 2012, the Plan's Investments in pooled separate accounts (including investments bought, sold and held during the year) appreciated by $56,844 and $23,325 respectively.

NOTE 5 RISKS AND UNCERTAINTIES

The Plan provides for investment in a variety of investment funds. In general, investments are exposed to various risks, such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 6 PLAN TERMINATION

The company has decided to terminate the plan effective June 30, 2014.

NOTE 7 PLAN TAX STATUS

The Plan is operating under a prototype plan designed by the Custodian. The Custodian has received a determination letter from the Internal Revenue Service dated April 18, 2008, which indicates that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has not been amended since the Custodian received the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

NOTE 8 PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are managed by the Custodian, AXA Equitable Life Insurance Company, and, therefore, these transactions qualify as party-in-interest. Total fees paid to the custodian in 2013 and 2012 were $2,823 and $2,419, respectively.
