ColorDynamics, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements
December 31, 2009 and 2008

Note 1. Description of the Plan

The following description of the ColorDynamics, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document and *Summary Plan Description*, which are available from the plan administrator, for a more complete description of the Plan's provisions.

General

ColorDynamics, Inc. (the "Company") sponsors the Plan which is administered by the Plan trustees and the Administrative Committee as appointed by the Company.

The Plan is a defined contribution plan under the provisions of Section 401(a) of the Internal Revenue Code (the "IRC" or Code), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the Code, for the benefit of eligible employees of the Company. The Plan was amended in 2009 to comply with final regulations under Sections 401(k) and 401(m) of the Code. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Reliance Trust Company serves as Plan custodian.

Eligibility

Employees become eligible to participate in the Plan when they have completed a minimum of three consecutive months of service or one year of service, if earlier.

Contributions

Participants may make contributions to the Plan by deferring compensation up to the maximum amount allowable by the IRC. Participants may designate all or a portion of their contributions as Roth (after-tax) contributions. Participants age 50 and over can make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make matching contributions equal to a discretionary percentage of salary deferrals up to 3% of compensation, as defined in the Plan document, subject to certain limitations. The Company did not make any matching contributions to the Plan during 2009 and 2008. Participants direct the investment of their contributions and any Company contributions into various investment options offered by the Plan. Participants can change their allocations daily.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions, (b) forfeitures in excess of administrative expenses, and (c) Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are immediately vested in their contributions, plus earnings thereon. Vesting in Company contributions, forfeitures, and earnings thereon is based on years of service. Each participant vests 33% after the second and third year of credited service. A participant becomes 100% vested in their entire account balance after four years of service.

Note 1. Description of the Plan (Continued)

Forfeitures

Forfeitures of terminated participants' non-vested accounts may first be used to pay any administrative expenses of the Plan. Any remaining forfeitures will be added to any Company matching contribution as an additional matching contribution. At December 31, 2009 and 2008, unallocated forfeitures totaled $1,910 and $5,455, respectively.

Payment of Benefits

In the event of death, disability, retirement, or termination of employment, a participant or beneficiary will receive the value of the participant's vested account balance. If a participant is employed by the Company at the time of death or disability, or upon meeting the retirement requirements, he or she will automatically become 100% vested. Also, upon attainment of age 59½, a participant may request a distribution from his or her vested account balance. If a participant's vested account balance exceeds $5,000, the participant or beneficiary may elect to defer distributions in accordance with the Internal Revenue Code. In addition, a participant may receive a distribution of his or her salary reduction contributions for a financial hardship meeting the requirements of the Internal Revenue Code regulations. All distributions from the Plan are made in single lump-sum payments.

Participant Loans

The Plan document includes provisions authorizing loans from the Plan to active eligible participants. A participant may borrow a minimum of $1,000 up to a maximum equal to the lesser of one-half of the participant's vested account balance or $50,000. A participant may have a maximum of one loan outstanding at any time unless the second loan is for the purchase of the principal residence of the participant. A loan is secured by the balance in the participant's account and bears a rate of interest determined by the Plan administrator based on prevailing rates at the time of the loan. Principal and interest are repaid through payroll deductions.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become fully vested in their account balances.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. The Statements of Net Assets Available for Benefits present the fair value of the investment in the collective trust, as well as the adjustment of the investment in the collective trust from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Note 2. Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investment and Income Recognition

Quoted market prices, if available, are used to value investments. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end. Participant loans are valued at amortized cost, which approximates fair value. The Plan's interest in the collective trust is valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payments of Benefits

Benefits payments to participants are recorded upon distribution.

Plan Tax Status

The Plan operates under an adoption agreement in connection with a volume submitter plan sponsored by Standard Retirement Services, Inc. The volume submitter plan document has been filed with the appropriate agency and has obtained an opinion letter from the Internal Revenue Service stating that the form of the volume submitter plan is acceptable under Section 401 of the Internal Revenue Code. The Plan has been amended subsequent to the issuance of the letter. However, the plan administrator and the Plan's tax counsel believe that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Administrative Expenses

Administrative costs of the Plan which are paid by the Company are not reflected in the accompanying financial statements.

Reclassifications

Certain reclassifications have been made to the 2008 financial statements to conform to the 2009 financial statement presentation. These reclassifications had no effect on changes in net assets available for benefits.

Subsequent Events

Subsequent events have been evaluated through September 21, 2010, which is the date the financial statements were available to be issued.

The Company provides certain administrative services at no cost to the Plan.

Note 5. Fair Value Measurements

ASC Topic 820, *Fair Value Measurements*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also specifies a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value on a recurring basis and recognized in the accompanying statement of net assets available for benefits, as well as the general classification of such assets and liabilities pursuant to the valuation hierarchy.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include mutual funds. Level 2 securities include a common collective trust fund. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy and include participant loans.

Note 5. Fair Value Measurements (Continued)

Investments (Continued)

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2009 and 2008.

	Participant Loans
Balance, January 1, 2008	$ 465,852
Issuances	232,311
Settlements	(239,260)
Balance, December 31, 2008	458,903
Issuances	235,884
Settlements	(237,456)
Balance, December 31, 2009	$ 457,331

Note 6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 7. Significant Estimates and Concentrations

The current protracted economic decline continues to present employee benefit plans with difficult circumstances and challenges, which in some cases have resulted in large and unanticipated declines in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan.

Given the volatility of current economic conditions, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.
