A. Description of Plan:

The following description of the Employee Benefit Plan of ComCor, Inc. provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all employees of ComCor, Inc. (ComCor) who have at least one year of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions:

ComCor contributes five percent of a participant's eligible compensation as of September 1, 2009 to the Plan monthly. Contributions before September 1, 2009 were made at seven percent. Voluntary employee contributions are not permitted. ComCor's monthly contributions are made to Mutual of America Life Insurance Company (Mutual) under a Group Annuity Contract (the Contract) between Mutual and ComCor. Participants direct the investment of their contributions into various investment options sponsored by the Plan.

Participant Accounts:

Each participant's account is credited with an allocation of ComCor's contributions and Plan earnings and is charged with any expenses attributable to the account. Allocations are based on each participant's compensation or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are vested 25 percent after two years of service, 50 percent after three years of service, 75 percent after four years of service, and 100 percent after five years of service. Participants who reach retirement age are fully vested regardless of years of service.

Forfeitures:

ComCor uses forfeitures to reduce subsequent contributions. During the years 2013 and 2012, employer contributions were reduced by $6,921 and $4,637, respectively, from forfeited nonvested accounts of terminated employees.

Payment of Benefits:

Upon termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her vested account or a nontransferable annuity contract that provides the participant or beneficiaries with periodic benefits. Benefits provided by the Plan are not insured by the Pension Benefit Guaranty Corporation.

A. Description of Plan (Continued):

Notes Receivable from Participants:

Participants may borrow from their accounts from $1,000 up to a maximum of $50,000 or 50 percent of their account balance. The loans require a repayment agreement and are secured by the participant's vested account balance and bear interest at 4.0 to 4.15 percent. All loans have terms of no greater than five years, except for loans that are to be used for the purchase of a principal residence, which have terms of no greater than ten years. Loan repayment is made through level, periodic payments, generally quarterly. For active employees, payment is made through payroll deduction.

B. Summary of Significant Accounting and Reporting Policies:

Basis of Accounting:

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrator determines the Plan's valuation policies utilizing information provided by the custodian. See Note D for discussion of fair value measurements.

The Contract with Mutual provides participants with the option to invest in a general account cash fund and other pooled separate accounts. The general account fund consists of unallocated deposit funds maintained under agreement with Mutual. The agreement guarantees an effective annual rate of return on the funds of 1.0 percent as of December 31, 2013 and 2012. The contract is stated at fair value.

The other pooled separate accounts consist solely of investments in mutual funds registered with the Securities and Exchange Commission and are carried at the net asset value at which the mutual funds are actively traded. Net appreciation (depreciation) of investments includes dividend and interest income and unrealized gains and losses due to changes in fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

B. Summary of Significant Accounting and Reporting Policies (Continued):

Certified Investments:

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2013 and 2012 and net appreciation in fair value of investments, interest and dividends for the years ended December 31, 2013 and 2012, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Mutual (the trustee of the Plan).

Notes Receivable from Participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Payment of Benefits:

Benefits are recorded when paid.

Administration Expenses:

ComCor pays certain accounting and legal expenses related to the Plan. Other administrative fees are paid by the Plan and are included in administrative expenses on the statement of changes in net assets available for plan benefits.

C. Information Certified by the Plan's Trustee (Unaudited):

Investments held as of December 31, 2013 and 2012 are as follows:

	2013	2012
Investments at fair value:		
General account funds **	**$ 1,872,731 ***	$ 1,890,570 *
Pooled separate accounts	**1,820,761 ***	1,429,466 *
Total investments	**$ 3,693,492**	$ 3,320,036

***** Mutual is a party-in-interest to the Plan. The Pooled Separate Accounts category includes $1,361,342 and $1,036,258 with Mutual at December 31, 2013 and 2012, respectively.

** Represents five percent or more of the Plan's net assets.

C. Information Certified by the Plan's Trustee (Unaudited) (Continued):

The Plan's investments, including gains and losses on investments bought, sold and held during the year, appreciated in value by $349,383 and $175,098 for the years ended December 31, 2013 and 2012, respectively, as follows:

	2013	2012
General account funds	**$ 15,696**	$ 25,498
Pooled separate accounts	**333,687**	149,600
Net change in fair value	**$ 349,383**	$ 175,098

D. Fair Value Measurements:

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for identical or similar assets or liabilities in active or inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability or that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts: Valued at the closing price reported on the active market on which the individual securities are traded.

D. Fair Value Measurements (Continued):

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

		Fair Value Measurements at December 31, 2013		
Description	Total	Level 1	Level 2	Level 3
Money market funds	$ 1,993,815	$ 1,993,815	$ -	$ -

Total investments at fair value	$ 3,693,492	$ 3,693,492	$ -	$ -

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

		Fair Value Measurements at December 31, 2012		
Description	Total	Level 1	Level 2	Level 3
Money market funds	$ 1,966,438	$ 1,966,438	$ -	$ -

Total investments at fair value	$ 3,320,036	$ 3,320,036	$ -	$ -

E. Related Party Transactions:

The Plan invests in shares of funds managed by an affiliate of Mutual and pays processing fees on amounts that are forfeited by the participants. Transactions in such investments and these processing fees qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. Fees paid by the Plan for the processing fees were $400 and $373 for the years ended December 31, 2013 and 2012, respectively.

F. Plan Tax Status:

The Plan obtained its latest determination letter on July 7, 2010 under 501(c) of the Internal Revenue Code (IRC) in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Management performs an annual analysis of the Plan's various tax positions, assessing the likelihood of those positions being upheld upon examination by relevant taxing authorities. Management believes the Plan has conducted its operations in accordance with applicable income tax reporting requirements, and has properly maintained its tax-exempt status, and has taken no material uncertain tax positions that qualify for recognition or disclosure in the financial statements. The Plan is no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for years before 2008.

G. Plan Termination:

Although it has not expressed any intent to do so, ComCor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts.

H. Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

I. Subsequent Events:

The Plan did not have any subsequent events through September 18, 2014, which is the date the financial statements were available to be issued, for events requiring recording or disclosure in the financial statements for the year ended December 31, 2013.
