ORVILLE'S APPLIANCE, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

1. Description of plan

The following description of the Orville's Appliance, Inc. ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who have completed one year of service with 1,000 hours. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The trustee of the Plan's assets is Fidelity Management Trust Company.

Contributions

An employee of the Company becomes eligible to participate after such employee has completed one year of service with 1,000 hours and has reached their "Entry Date". Their Entry Date will be the first day of the Plan Year or the first day of the fourth, seventh or tenth months.

In addition, employees who are eligible to participate may elect to contribute any amount up to the annual dollar limit set by the Internal Revenue Service regulations through regular deferral contributions, additional deferrals or bonus contributions. In accordance with Internal Revenue Service regulations, the maximum employee contribution was $17,500 for 2013, and $17,000 for 2012; participants age 50 years and older were also eligible to defer a "catch-up contribution" of up to $5,500. Participants may also contribute rollovers of other eligible retirement plans.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants.

The Company contributes 100% of the first 4% of eligible compensation that a participant contributes to the Plan.

The Company may make a discretionary non-elective contribution in an amount to be determined by the Board of Directors each Plan Year. However, any salary deferrals that are "catch-up contributions" will not be matched. For the years ended December 31, 2013 and 2012, the Company did not make a discretionary non-elective contribution.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings (losses). Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service, as follows:

Years of Service	Nonforfeitable Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of (a) $50,000 reduced by their highest outstanding loan balance during the prior twelve month period or (b) 50% of their vested account balance. Loans are secured by the participants' accounts and bear interest at a reasonable rate as determined by the Plan Administrator based on prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. Principal and interest are paid ratably through payroll deductions.

Payment of benefits

On termination of service due to death, disability, or retirement, a participant may request the Plan administrator to distribute their vested account balance. Additionally, participants, at their election, may request the Plan administrator to distribute their vested account balance upon termination of employment.

Participants undergoing certain types of financial hardship, as defined by the Plan, may request the Plan administrator to distribute all or a portion of the vested balance of their account. Distributions to participants are available upon the attainment of age 59 ½. Such events are more fully outlined in the Plan document.

Net assets available for benefits included benefits of approximately $158,000 and $173,000 due to participants who have terminated employment with the plan sponsor as of December 31, 2013 and 2012, respectively.

Forfeited accounts

At December 31, 2013 and 2012, forfeited non-vested accounts totaled $-0- and $695, respectively. These accounts are first used to pay administrative expenses. Any remaining amounts are used to reduce future Employer contributions for the Plan year.

2. Summary of significant accounting policies

Date of management's review

Subsequent events were evaluated through August 6, 2014, which is the date the financial statements were available to be issued.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Operating expenses

All expenses of maintaining the Plan are paid by the Company.

3. Summary of trustee information

The following is a summary of unaudited information regarding the Plan, included in the Plan's financial statements. The information was prepared by Fidelity Management Trust Company, the Plan's trustee, and furnished to the Plan Administrator. The trustee has certified that the information is complete and accurate:

a. Current value of investments held by trustee at December 31, 2013 and 2012:

	December 31, 2013	2012
Investments in registered investment companies	$ 5,041,653	$ 3,940,684
Investments in common/collective trusts	995,457	805,604
Total investments	$ 6,037,110	$ 4,746,288

b. Additions to net assets available during the year ended December 31, 2013:

Net appreciation in fair value of investments	$ 658,482
Dividend income	$ 261,848
Interest income	$ 13,904

4. Fair value measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority; Level 2 inputs generally involve quoted market prices for similar assets or liabilities in active markets; Level 3 inputs to the valuation methodology are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were

available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 - The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stocks, corporate bonds, and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded.

Level 3 - The fair value of participant loans approximates the amortized cost of the loans. The loans are secured by each participants account balance.

As discussed in Note 3, the fair value of the Plan's investments has been certified by Fidelity Management Trust Company. The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012 are as follows:

December 31, 2013	Level 1	Level 2	Level 3
Investments in registered investment companies	$ 5,041,653	-	$ -
Investments in common/collective trusts	995,457	-	-

Investments in common/collective trusts	805,604	-	-

6. Related party transactions

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

7. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

8. Tax status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable

requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to December 31, 2010.

9. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. Reconciliation of Financial Statements to Schedule H of Form 5500

Investments in common/collective trusts and their net appreciation on the financial statements are presented at fair market value. The trustee reports the value of common/collective trusts at contract value on Form 5500. Therefore, there is a contract/fair value adjustment that needs to be calculated as a reconciling item.

The following is a reconciliation of investments in common/collective trusts per the financial statements to Schedule H of Form 5500:
