BW Supplies, LLC
401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2013 and 2012

1. DESCRIPTION OF PLAN

The BW Supplies, LLC 401(k) Profit Sharing Plan (the Plan) was formed on June 1, 1997. The following description of the Plan is for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of BW Supplies, LLC, and employees of Burke Williams and its affiliates. Employees who have completed six consecutive months of service and attained age 18 or older are eligible. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Employee and Employer Contributions - Each year, participants may contribute from 1% to 100% of their pre-tax annual compensation up to the amount that is limited by the Internal Revenue Service. The IRS limit for 2013 is $17,500 and the catch up contribution limit for age 50 or older is $5,500. The Company may make matching and discretionary contributions on behalf of each eligible participant at a certain percentage or a dollar amount determined by the Company each year. There were no company matching contributions made during the year.

Participant Accounts - Each participant account is credited with the participant's contributions and allocations of the Company's contribution and plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the employer's contribution portion of the participants' accounts and actual earnings in the Plan is based on the following schedule:

Years of service completed	Vesting Percentage
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

Participants become fully vested, regardless of the vesting table, upon reaching the normal retirement age of 65, and also upon death or disability prior to termination of employment.

Withdrawals – Participants may withdraw funds in the event of termination of their employment, retirement, death, or permanent disability. Participants may also receive a distribution from the Plan prior to their termination of employment and they can withdraw from the Plan in the event of financial hardship if they satisfy certain conditions. Generally, participants may request a pre-retirement withdrawal or a hardship distribution from their fully vested accounts in the Plan. The amount of hardship distribution cannot exceed the amount needed to meet the immediate financial hardship. In addition, the distribution will be limited to the amount of a participant's contributions. Participants may be entitled to receive a pre-retirement distribution if he or she has reached age 59½. There were three hardship distributions during the year.

Notes Receivable from Participants - The Plan has adopted a loan program to provide loans to plan participants. Loans are available to all participants on a reasonable, equivalent basis. They also bear reasonable rates of interest and are adequately secured. The maximum amount of which a loan may be made is the lesser of $50,000 or 50% of vested interest of the participant in the Plan. The maximum amount of $50,000 will be reduced by a participant's highest outstanding loan balance in the previous twelve months even if amounts have been repaid. The minimum amount of any loan is $1,000. All loans are required to be repaid within 5 years of the date of the loan. However, if a loan is for the purchase of a principal residence, a longer repayment period may be permitted.

Payment of Benefits - On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments over a ten-year period. For termination of service for other reasons, a participant will receive the value of the vested interest in his or her account greater than $5,000 as a lump-sum distribution as soon as administratively feasible.

In the event of a mandatory non-consensual cash-out distribution greater than $1,000, if the participant does not elect to have such distribution paid directly to an eligible retirement plan specified by the participant in a direct rollover or to receive the distribution directly, then the plan administrator will pay the distribution in a direct rollover to an individual retirement plan designated by the plan administrator. A vested interest in his or her account less than $1,000 will be cashed out as soon as administratively feasible.

Tax Status - The Internal Revenue Service has determined and informed the Company by a letter that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and the plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdiction; however, there are currently no audits for any tax periods in progress. The plan has been audited by the Department of Labor for the years 2009 through 2012. The Department of Labor audit of the plan was concluded in February, 2013.

Plan Termination - Although the Company has not expressed any intention to do so, the employer has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of any termination of the Plan, or upon complete or partial discontinuance of contributions, the accounts of each participant shall become fully vested and non-forfeitable.

Forfeited Accounts – Forfeited non-vested amounts may be used to reduce administrative expenses of the Plan, then any remaining forfeitures shall be applied to reduce employer contributions. As of December 31, 2013 and 2012 the ending balances were $12,139 and $4,122 respectively. For the year ended December 31, 2013, forfeitures in the amount of $8,001 were used to reduce the plan administration fees, which were charged to the employer outside the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. Securities traded on the national securities exchange are valued at the last reported sales price on the last business day of the plan year. Investments traded in the over-the-counter market and listed securities for which no sale was reported in on that date are valued at the average of the last reported bid and asked prices. The Custodian reports interest, dividends, and the related fees and charges in the net appreciation or depreciation in fair value of investments. Purchases and sales of securities are recorded on a trade-date basis.

The Plan has insurance contracts with John Hancock Life Insurance Company, the Custodian, and they are not fully benefit-responsive investment contracts. The Custodian maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The Custodian is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan.

Notes Receivable from participants – Notes receivable from participants are measured at their unpaid principle balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the Plan documents.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses – Investment expenses and transaction fees such as withdrawal fees and annual loan maintenance fees are paid by the Plan, which are netted against investment earnings. During the year, total administrative expenses paid by the Plan were $25,890.

Annual administration fees and compliance fees for $8,001 were also paid by the Plan. The amount was paid out of the Company's forfeiture account.

Loan origination fees are charged to the participants who are receiving the loan payments and are netted against the loan payments made to the participants.

Investment Options – The assets of the Plan, both employee and employer, are allocated to the various funds at the direction of the participants. The following investment options are available for the investment of participants' elective and employer matching and discretionary contributions: Mutual funds and Insurance contracts.

3. RELATED-PARTY TRANSACTIONS

Certain plan investments are invested in shares of mutual funds and in insurance annuity contracts managed by the Custodian. Therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the plan for the investment management services amounted to $25,890.

4. INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN (UNAUDITED)

At December 31, 2013 and 2012, the Plan's investments were held by the Custodian. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Custodian as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

6. FAIR VALUE MEASUREMENTS

Fair Value Measurements and Disclosures provide the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2013 and 2012.

Mutual funds: These investments are valued at the net asset value (NAV) of shares held by the Plan at year end.

Insurance contracts (guaranteed accounts): Fair value of this investment contract, prior to contract termination, equals the contract value. Contract value is determined using a discounted cash flow valuation methodology where the interest rate for this portfolio investment contract is reset at least as frequently as annually.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	Assets at Fair Value as of December 31, 2013			
	Level 1	Level 2	Level 3	Total
Mutual funds:				
Large growth fund	$ 2,921,034			$ 2,921,034

Guaranteed Insurance contracts			$105,481	105,481
	$ 4,167,634		$105,481	$ 4,273,115

7. INVESTMENT IN GUARANTEED INSURANCE CONTRACTS

The Plan has guaranteed insurance contracts and they are not fully benefit-responsive investment contracts. The Custodian maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The Custodian is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but not less than 0%. Such interest rates are reviewed on a quarterly basis for resetting. The crediting rate of the contract will track current market yields on a trailing basis.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. REFUNDS OF EXCESS CONTRIBUTIONS

At December 31, 2013 and 2012, payables of none and $1,691, respectively, are recorded for amounts refundable by the Plan to participants for contributions made in excess of amounts allowed by the Internal Revenue Service.

10. PROHIBITED TRANSACTIONS

As required by ERISA section 2510-102, the plan sponsor is required to segregate and remit employee contributions and loan repayments to the Plan as soon as practicable, but not more than 5 business days following the date the payroll checks were issued. Employee contributions and loan repayments for all 26 pay periods were not transferred to the Plan in a timely manner.

The Department of Labor audit of the plan was for the period of December 31, 2009 through December 31, 2012. The lost earnings assessed by the Department of Labor for 2009 through November 19, 2012 late deposits were $40,040, and included in this amount is the lost earnings for 2012 up to November 23, 2012 in the amount of $280, and were remitted to the plan in February 2013. The lost earnings for November 23, 2012 through December 31, 2012 late deposits were $79 and were remitted to the Plan in August, 2013.

11. SUBSEQUENT EVENTS

For the year-ended December 31, 2013, the Plan has evaluated subsequent events for potential recognition and disclosure through July 23, 2014, the date the financial statements were available to be issued.
