NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Trenton Technology 401(k) Plan provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Trenton Terminals, Inc., the Plan sponsor, who have completed twelve months of service and are at least 21 years of age or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants who meet the eligibility requirements may contribute up to 15% of eligible compensation, as defined in the Plan. These participants are also eligible to receive matching contributions made by Trenton Terminals, Inc. The matching provisions allow for a 40% match on the first 3% of deferrals. Participants may direct their own contributions and related company contributions into any of the Plan's fund options. Participants may change their elections and transfer balances between funds at anytime.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (*a*) the Company's contribution and (*b*) Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in both their elective deferrals into the Plan and also the employer's matching contribution plus actual earnings thereon.

Participant Loans

Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through weekly payroll deductions.

NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 1 – DESCRIPTION OF PLAN – Continued

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive a lump sum distribution equal to the vested balance in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. A participant of at least 59-1/2 years of age may also be eligible to receive in-service distributions subject to other requirements.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net Appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES – Continued

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events

Management has evaluated subsequent events through July 21, 2010, which is the date the financial statements were available to be issued.

NOTE 3 – INVESTMENTS

The Plan's investments consist of a family of funds held by State Street Bank and Trust Co.

At December 31, 2009 and 2008, the fair market value of the Plan's investments that represent 5% or more of the Plan's net assets consisted of the following:

	2009	2008
State Street Stable Value Fund	$ 366,833	$ 288,570
State Street Large Cap Core Equity Fund	157,376	136,001
State Street Government Money Market Fund	241,961	238,763

George Putnam Fund of Boston	142,959	131,177
State Street International Index Fund	130,545	100,694
State Street S&P 400 Mid Cap Index Fund	361,133	244,475
Neuberger Berman Partners	148,200	102,242
T. Rowe Price Mid Cap Value	109,289	62,988

NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 4 – FAIR VALUE MEASUREMENTS

Fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The Plan reports fair value measurements using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 4 – FAIR VALUE MEASUREMENTS – Continued

Following is a description of the valuation methodologies used for assets measured at fair value.

Interest-Bearing Cash: Valued at cost plus interest.

Mutual Funds: Valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end.

Common/Collective Trusts: Valued at the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, divided by the number of units outstanding.

Participant Loans: Valued at outstanding balance, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the fair value of the Plan's assets recorded at fair value on a recurring basis, as of December 31, 2009 and 2008:

Assets at Fair Value as of December 31, 2009

	Level 1	Level 2	Level 3	Total
Non-Interest Bearing Cash	$ 241,961	$ 0	$ 0	$ 241,961

NOTE 5 – INFORMATION CERTIFIED BY TRUSTEE

All investment information disclosed in the accompanying financial statements and schedule including investments held at December 31, 2009 and 2008 and net appreciation (depreciation) in fair value of investments, interest, dividends and investment expenses for the years ended December 31, 2009 and 2008 were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee.

NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 6 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 7 – TAX STATUS

The Internal Revenue Service has ruled that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan utilizes the ADP Non-Standardized Prototype Profit Sharing Plan updated and approved on September 29, 1999. The Plan Administrator and the Plan's tax counsel believe that the Plan is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 8 – PARTY-IN-INTEREST TRANSACTIONS

State Street Bank and Trust Co. is the Trustee of the Plan's assets. As such, transactions between State Street Bank and Trust Co. and the Plan qualify as party-in-interest transactions. Transactions involving participant loans also qualify as party-in-interest transactions.

NOTE 9 – UPCOMING PRONOUNCEMENTS

In January 2010, the FASB issued "Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements," which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1, 2 and 3. The pronouncement also clarifies that fair value measurement disclosures are required for each class of financial asset and liability, and those disclosures should include a discussion of inputs and valuation techniques. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the pronouncement will be effective for the year ending December 31, 2010 for the Plan. New guidance related to Level 3 measurements will be effective for the year ending December 31, 2011 for the Plan. The Plan management is currently evaluating the impact of the pronouncement on the Plan's financial statements.

NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Trenton Technology 401(k) Plan provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Trenton Terminals, Inc., the Plan sponsor, who have completed twelve months of service and are at least 21 years of age or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants who meet the eligibility requirements may contribute up to 15% of eligible compensation, as defined in the Plan. These participants are also eligible to receive matching contributions made by Trenton Terminals, Inc. The matching provisions allow for a 40% match on the first 3% of deferrals. Participants may direct their own contributions and related company contributions into any of the Plan's fund options. Participants may change their elections and transfer balances between funds at anytime.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (*a*) the Company's contribution and (*b*) Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in both their elective deferrals into the Plan and also the employer's matching contribution plus actual earnings thereon.

Participant Loans

Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through weekly payroll deductions.

NOTE 1 – DESCRIPTION OF PLAN – Continued

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive a lump sum distribution equal to the vested balance in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. A participant of at least 59-1/2 years of age may also be eligible to receive in-service distributions subject to other requirements.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net Appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES – Continued

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events

Management has evaluated subsequent events through July 21, 2010, which is the date the financial statements were available to be issued.

NOTE 3 – INVESTMENTS

The Plan's investments consist of a family of funds held by State Street Bank and Trust Co.

At December 31, 2009 and 2008, the fair market value of the Plan's investments that represent 5% or more of the Plan's net assets consisted of the following:

	2009	2008
State Street Stable Value Fund	$ 366,833	$ 288,570
State Street Large Cap Core Equity Fund	157,376	136,001

T. Rowe Price Mid Cap Value	109,289	62,988

NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 4 – FAIR VALUE MEASUREMENTS

Fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The Plan reports fair value measurements using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

December 31, 2009 and 2008

NOTE 4 – FAIR VALUE MEASUREMENTS – Continued

Following is a description of the valuation methodologies used for assets measured at fair value.

Interest-Bearing Cash: Valued at cost plus interest.

Mutual Funds: Valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end.

Common/Collective Trusts: Valued at the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, divided by the number of units outstanding.

Participant Loans: Valued at outstanding balance, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the fair value of the Plan's assets recorded at fair value on a recurring basis, as of December 31, 2009 and 2008:

Assets at Fair Value as of December 31, 2009

	Level 1	Level 2	Level 3	Total

NOTE 5 – INFORMATION CERTIFIED BY TRUSTEE

All investment information disclosed in the accompanying financial statements and schedule including investments held at December 31, 2009 and 2008 and net appreciation (depreciation) in fair value of investments, interest, dividends and investment expenses for the years ended December 31, 2009 and 2008 were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee.

NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 6 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 7 – TAX STATUS

The Internal Revenue Service has ruled that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan utilizes the ADP Non-Standardized Prototype Profit Sharing Plan updated and approved on September 29, 1999. The Plan Administrator and the Plan's tax counsel believe that the Plan is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 8 – PARTY-IN-INTEREST TRANSACTIONS

State Street Bank and Trust Co. is the Trustee of the Plan's assets. As such, transactions between State Street Bank and Trust Co. and the Plan qualify as party-in-interest transactions. Transactions involving participant loans also qualify as party-in-interest transactions.

NOTE 9 – UPCOMING PRONOUNCEMENTS

In January 2010, the FASB issued "Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements," which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1, 2 and 3. The pronouncement also clarifies that fair value measurement disclosures are required for each class of financial asset and liability, and those disclosures should include a discussion of inputs and valuation techniques. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the pronouncement will be effective for the year ending December 31, 2010 for the Plan. New guidance related to Level 3 measurements will be effective for the year ending December 31, 2011 for the Plan. The Plan management is currently evaluating the impact of the pronouncement on the Plan's financial statements.
