PERRY HOMES, LLC 401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF THE PLAN

The following description of the Perry Homes, LLC 401(k) Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The original Plan was adopted by Perry Homes, A Joint Venture, and subsidiaries (the Employer) on January 1, 1994. The name of the Plan was changed to Perry Homes, LLC 401(k) Profit Sharing Plan during 2007 as a result of a change in the Employer's name. The Plan is a defined contribution plan covering all employees who are 21 years of age or older and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). An independent service organization serves as the recordkeeper of the Plan. During 2008, Wilmington Trust Retirement and Institutional Services Company (the Trustee) became the trustee of the Plan as a result of acquiring UBS Fiduciary Trust Company (the Trustee) which was previously the trustee of the Plan. The Plan was restated retroactively effective January 1, 2008 and was further amended effective January 1, 2009. The provisions of the Plan are discussed below.

Contributions

Participants may contribute between 1 and 25 percent of pretax compensation per payroll period as defined in the Plan and shall not exceed the deferral limitations as specified in section 402(g) of the Internal Revenue Code (IRC). The annual deferral limitation is $16,500 for 2009 and $15,500 for 2008.

The Economic Growth and Tax Relief Reconciliation Act of 2001 includes a "catch up" provision for employee benefit plans. This provision became effective as of January 1, 2002, and allows employees who are 50 years old or older and who contributed the maximum amount allowed by law to their account to contribute an additional $5,500 and $5,000 for years 2009 and 2008, respectively.

Effective January 1, 2009, the Plan was amended to incorporate changes in Plan provisions related to employer matching contributions and the use of forfeitures. Employer matching contributions shall be discretionary and forfeitures may be used to pay Plan administrative expenses before applying towards employer contributions. Participants who are employed on the last day of the Plan year and complete at least 1,000 hours of service during the Plan year are eligible to receive Employer matching contributions. For the 2008 Plan year, the Plan provided for the Employer to match $0.50 for each $1 contributed by each participant up to the lesser of 5 percent of the participant's annual compensation, or $1,000. There was no Employer contribution for the 2009 Plan year.

NOTE 1. DESCRIPTION OF THE PLAN – CONTINUED

Participant Accounts

Each participant's account is credited with the participant's and the employer's contributions, if any, and an allocation of investment earnings and losses. Contributions are deposited into a trust account, which is invested by the Trustee based on various investment options determined by each participant. A participant may change his or her investment options at any time via a telephone service or the internet, once enrolled.

Vesting

Employees are 100 percent vested at all times with respect to their contributions and earnings and losses thereon. Matching contributions and earnings and losses thereon vest based on their full years of active service with the Employer as follows (except that upon death, total permanent disability, or retirement at the age of 65, the employee becomes 100 percent vested):

Less than two years	0%
Two years but less than three years	20%
Three years but less than four years	40%
Four years but less than five years	60%
Five years but less than six years	80%
Six years or more	100%

For employer contribution vesting purposes, a year of service is defined as having worked at least 1,000 hours during the Plan year. All years of service are counted, regardless of whether or not they are continuous.

Payment of Benefits

On termination of service due to death, disability or retirement, or any other reason, a participant, or beneficiary in the case of death, may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount or request a rollover into another qualified plan.

Forfeitures

Nonvested benefits of terminated participants are forfeited. Forfeitures are applied to pay Plan administrative costs before applying towards the Employer's matching contribution to the Plan. During 2008, the Plan allowed forfeitures to be applied towards the Employer's matching contribution only. As of December 31, 2009, forfeited nonvested accounts totaled $91,756, of which $34,742 were applied to pay Plan administrative expenses. As of December 31, 2008, forfeited nonvested accounts totaled $73,660 and were used to reduce employer contributions.

NOTE 1. DESCRIPTION OF THE PLAN – CONTINUED

Participant Loans

A participant may borrow up to the lesser of 50 percent of his or her total account balance, or $50,000. A participant may have only one loan outstanding at a time. The minimum loan amount is $1,000.

The interest rate charged on the loan is a reasonable rate of interest based on the prevailing interest rate charged on similar loans under like circumstances by professional lenders. Loan payments are made through payroll deductions. Each payment, including interest, is credited to the participant's loan account.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are based on information provided by the Trustees. Certain adjustments have been made to the information provided by the Trustees in order for the financial statements to conform to the accrual basis of accounting and accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that could affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements and disclosures associated with the investments held by the Plan.

All investments in the Plan are participant-directed. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Risks and Uncertainty

The Plan invests in various investment securities. Such investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Payments of Benefits

Benefits are recorded when paid.

Administrative Expenses

Asset management fees and all other administrative costs are paid by the Plan. Loan fees are paid by the borrowing participant. Administrative costs were paid by the Employer during the year 2008.

Excess Contributions Refundable to Participants

To satisfy the relevant non-discrimination provisions of the Plan, the Plan recorded a liability of $71,210 as of December 31, 2008, with a corresponding reduction to contributions from participants. The Plan refunded the above amount to Plan participants within 2 ½ months of year-end. No contributions were refundable at December 31, 2009.

NOTE 3. RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In April 2009, the Financial Accounting Standards Board (FASB) issued FASB Staff Position (FSP) 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*. FSP 157-4 amended Statement of Financial Accounting Standard No. (SFAS) 157 (codified as FASB Accounting Standards Codification Topic (ASC) 820, *Fair Value Measurements and Disclosures*) to provide additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to its normal market activity. FSP 157-4 also provided additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities to comply with the disclosure requirements of FASB ASC 820. The Plan adopted the guidance in FSP 157-4 for the reporting period ended December 31, 2009. The adoption of FSP 157-4 did not have a material effect on the Plan's Net Assets Available for Benefits or its Changes in Net Assets Available for Benefits.

NOTE 3. RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS – CONTINUED

In May 2009, the FASB issued SFAS 165, *Subsequent Events,* which was codified into FASB ASC 855, *Subsequent Events*, to provide general standards of accounting for and disclosure of events that occur after a balance sheet date, but before the corresponding financial statements are issued or are available to be issued. FASB ASC 855 was amended in February 2010. The Plan has adopted ASC 855, as amended.

In June 2009, the FASB issued ASC 105, *Generally Accepted Accounting Principles,* which establishes the FASB ASC as the sole source of authoritative generally accepted accounting principles. Pursuant to the provisions of FASB ASC 105, the Plan has updated references to generally accepted accounting principles in its financial statements issued for the year ended December 31, 2009. The adoption of FASB ASC 105 did not impact the Plan's Statements of Net Assets Available for Benefits or Statements of Changes in Net Assets Available for Benefits.

In January 2010, the FASB issued Accounting Standards Update No. (ASU) 2010-06, *Improving Disclosures about Fair Value Measurements*, which provides amendments to ASC Subtopic No. 820-10, *Fair Value Measurements and Disclosures - Overall.* ASU 2010-06 requires additional disclosures about the different classes of assets and liabilities measured at fair value, the valuation techniques and inputs used, the activity in level 3 fair value measurements, and the transfers in and out of levels 1 and 2 of the fair value hierarchy and the reasons for those transfers. The Plan will adopt the guidance in ASU 2010-06 for the Plan year ending December 31, 2010, except for the provisions that will be effective for the Plan year ending December 31, 2011. Plan management is currently evaluating the impact on the Plan's financial statements of adopting ASU 2010-06.

NOTE 5. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are unobservable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 5. FAIR VALUE MEASUREMENTS – CONTINUED

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

- *Common Collective Trust Funds*

  Common collective trust funds are valued at the fair values of the underlying assets of the funds, minus their liabilities, as determined by the funds' Trustee. Investment in the GIC Portfolio Fund, a common collective trust fund, is valued based on quoted prices, replacement cost, present value of projected future cash flows, contractually obligated payments, valuation models etc. for underlying investment contracts, minus liabilities, as determined by the fund's Trustee.

  Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The GIC Portfolio Fund is a fully benefit-responsive investment contract. The Plan invests in investment contracts through a collective trust. Contract value for this collective trust is based on the net asset value of the fund as reported by the investment advisor. The Statements of Net Assets Available for Benefits present the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

- *Participant Loans*

  Participant loans are valued at cost plus accrued interest, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5. FAIR VALUE MEASUREMENTS – CONTINUED

The following table presents by level within the fair value hierarchy, the Plan's financial assets measured at fair value on a recurring basis as of December 31, 2009:

	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total

Balance, December 31, 2009	$ 3,345,885	$ 443,061

NOTE 6. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are interests in common collective trust funds managed by the Trustees or an affiliate of the Trustees. Therefore, the Plan's investment transactions in these funds qualify as party-in-interest transactions. These transactions are covered by an exemption from the "prohibited transactions" provisions of ERISA and the IRC.

NOTE 7. DUE TO EMPLOYER

As of December 31, 2009, balance due to Employer totaling $34,742 represents administrative expenses paid by the Employer on behalf of the Plan to be reimbursed to the Employer. The balance was reimbursed to the Employer in February 2010. No amounts were due to the Employer as of December 31, 2008.

NOTE 8. INCOME TAX STATUS

The Plan uses the third party administrator's (TPA) Prototype Non-Standardized Profit Sharing Plan with CODA (Prototype Plan). The Prototype Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Prototype Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has since been amended. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 9. PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination and after receipt of a determination letter from the IRS regarding such termination, the Plan's Trustee would distribute to each participant the amount certified by the Plan's Administrative Committee representing the balance of the participant's account.

NOTE 10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

Under accounting principles generally accepted in the United States of America, excess contributions refunded within 2 ½ months subsequent to the Plan's year-end are required to be netted against contributions and recorded as a liability on the financial statements of the Plan in the year contributions were originally made; however, Form 5500 requires that all excess contribution refunds be recorded as a distribution in the year they are paid. Excess contribution refunds pertaining to Plan year 2008 made prior to March 15, 2009, totaled $71,210.

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2008 to Form 5500:

Net assets available for benefits per the financial statements	$ 13,849,248
Add: Excess contributions refundable to participants	71,210
Net assets available for benefits per the Form 5500	$ 13,920,458

NOTE 11. SUBSEQUENT EVENTS

The Plan management has evaluated events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through September 22, 2010, which is the date the financial statement were available to be issued.
