Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Indium Corporation of America Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Massachusetts Mutual Life Insurance Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2013 and 2012 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of assets held at end of year and reportable transactions on pages 16 and 17, are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of Plan

The following description of the Indium Corporation of America Pension Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a non-contributory defined benefit pension plan covering substantially all employees of Indium Corporation of America (the "Company"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Employees are eligible to participate on the later of their date of hire or the first day of the plan year in which they attain age 18 and have three months of employment.

Vesting

Employees become vested in their accumulated benefit after three years of credited services. A year of credited service is achieved upon completion of 1,000 hours of service within the year.

Participants will become 100% vested upon attaining normal retirement age, regardless of years of service.

2. Participant's Accounts

Under the Plan provisions, amounts are credited by the Company to the participants' hypothetical accounts. The accounts are credited with an annual hypothetical allocation and investment credits for each plan year. The hypothetical allocation is based on the participant's employment position. The amount of the investment credit is tied to the average of the annual yields on 5-year Treasury Securities, determined as of the fifth calendar month preceding the first day of the plan year.

Pension Benefits

Employees are entitled to the vested portion of their accrued benefit beginning no later than (1) the normal retirement age (65), (2) the 5th anniversary of joining the Plan, or (3) the date the participant terminates service with the employer.

The normal form of retirement income benefit is a monthly installment from a straight life annuity or a qualified joint and survivor annuity, if the participant is married at retirement. Optional forms of annuity payments are available.

If an employee becomes disabled prior to retirement or separation from service, and such condition continues for a period of six consecutive months and the participant's status as an employee ceases, then the disabled participant shall be entitled to receive the actuarial equivalent of the participant's accrued benefit.

1. **Description of Plan (continued)**

If a participant dies prior to the participant's retirement date, such participant's beneficiary shall receive a death benefit equal to the actuarial equivalent of the accrued benefit determined as of the anniversary date subsequent to or coinciding with the date of death.

Funding Policy

No contribution shall be required under the Plan from any participant. The Company is required by ERISA to fund the Plan based on actuarially determined amounts. Minimum funding requirements under ERISA have been met.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their accounts. Upon termination of the Plan, the assets of the Plan will be divided among participants and beneficiaries in accordance with the following priorities.

a) Equally among:

- Retired participants and their beneficiaries to whom payment commenced at least 3 years prior to the date of the termination; and
- Participates who could have retired and received payment of their benefits at least 3 years prior to the date of termination.

b) To provide benefits to participants who have reached their Normal Retirement Date but have not retired on the date of termination.

c) To all benefits guaranteed and insured by the Pension Benefit Guaranty Corporation.

d) To all other vested accrued benefits not insured by the Pension Benefit Guaranty Corporation.

e) To all other accrued benefits provided under the Plan.

Any excess funds will revert to the Company.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

1. **Description of Plan** (continued)

Plan Termination (continued)

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

2. **Summary of Accounting Policies**

Basis of Accounting

The accompanying financial statements are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Risk and Uncertainties

The Plan invests in various investment securities. Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and could materially affect the amounts reported in the statement of net assets available for benefits.

2. Summary of Accounting Policies (continued)

Risk and Uncertainties (continued)

Plan contributions are made and the actuarial present value of accumulated plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the estimates and assumptions in the near term would be material to the financial statements.

Administrative Expenses

Administrative expenses are paid by the Company on behalf of the Plan. These amounted to approximately $46,000 and $41,000 in 2013 and 2012, respectively.

3. Investments

The following table represents investments that are 5% or more of the Plan's net assets at December 31:

	2013	2012
Pooled separate accounts		
American Funds EuroPacific Growth Fund	$ 243,090	$ 217,547
American Funds Washington Mutual Investors Fund	255,843	214,919
Templeton Global Bond Fund	197,526	175,785
Rainier Large Cap Equity Fund	263,436	209,581
Babson Premier Short Duration Bond Fund	418,201	337,828
MassMutual PIMCO Total Return Fund	905,080	761,538
Babson Premier Inflation-Protected and Income Fund	192,709	159,869

During 2013 and 2012, the Plan's investments in pooled separate accounts (including gains and losses on pooled separate accounts bought and sold, as well as held during the year) appreciated in value by approximately $176,000 and $179,000, respectively.

4. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods, used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements (continued)

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 1 or Level 3 inputs were available to the Plan.

Level 2 Fair Value Measurements:

The fair value of pooled separate accounts is valued at the closing net asset value reported on the last business day of the year.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	December 31, 2013

* The fair values of the investments have been estimated using the net asset value of the investment.

(a) International equity funds seek to provide long-term growth of capital through investing in companies based chiefly in Europe, ranging from small firms to large corporations.

(b) International fixed income funds seek current income, with capital appreciation and growth of income, by investing in at least 80% of its net assets in bonds of governments located anywhere in the world.

(c) Small cap equity funds seek long-term growth of capital and current income through a broadly diversified portfolio of small-cap stocks.

(d) Large cap equity funds seek to maximize long-term capital appreciation through investment in a diversified portfolio of common stocks of U.S. companies of all sizes.

(e) Money market funds seek to maximize current income to the extent consistent with liquidity and the preservation of capital by investing in a diversified portfolio of money market instruments.

(f) Domestic fixed income funds seek maximum return, consistent with preservation of capital and prudent investment management.

6. Information Certified by the Trustee

The following is a summary of the Plan's asset information as of December 31, 2013 and 2012 and for the years then ended, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Massachusetts Mutual Life Insurance Company (MassMutual), the trustee, and furnished to the Plan Administrator. The Plan Administrator has obtained a certification from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information that appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31,	
	2013	2012
Investments (at fair value):		
Pooled separate accounts	$ 2,634,652	$ 2,206,738

The trustee also certified to the completeness and accuracy of net appreciation in fair value of investments for the years ended December 31, 2013 and 2012 of approximately $176,000 and $179,000, respectively, as well as all items and amounts included within the supplemental schedules and Notes 3, 4, and 5.

7. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. For each Plan Year in which a Participant is credited with more than 500 hours of service, the participants account shall be credited with a service credit as defined by the Plan. Benefits payable under all circumstances including retirement, death, disability and termination of employment are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuaries and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

7. Actuarial Present Value of Accumulated Plan Benefits (continued)

The significant actuarial assumptions used in the valuation as of January 1, 2013 (beginning of the Plan year) are as follows:

Interest rate – 5.50%

Mortality table – The blended annuitant/non-annuitant RP-2000 Mortality Table

Retirement age – Age 62 with 5 years of participation

Salary scale – Salaries are assumed to increase at 3% per year

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits at January 1, 2013 was:

Vested benefits:	
Vested terminated members	$ 194,361
Vested active members	2,116,664
	2,311,025
Non-vested benefits	91,088
Total actuarial present value of accumulated plan benefits	$ 2,402,113

The changes in the actuarial present value of accrued benefits during the preceding 12 month period are presented follows:

Actuarial present value of accumulated plan benefits as of January 1, 2012	$ 2,126,325
Increases (decreases) during the year attributable to:	
Increase for interest due to the decrease in the discount period at 5.50%	115,792
Benefits paid	(42,041)
Changes in actuarial assumptions	16
Benefits accumulated and actuarial gains	202,021
Net decrease for the year	275,788
Actuarial present value of accumulated plan benefits as of January 1, 2013	$ 2,402,113

8. Tax Status

The IRS has determined and informed the company by a letter dated June 19, 2009, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

9. Related Party Transactions

Certain Plan investments are pooled separate accounts offered by Massachusetts Mutual Life Insurance Company. Massachusetts Mutual Life Insurance Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to approximately $8,000 for the plan years ended December 31, 2013 and 2012.

10. Subsequent Events

The Plan has evaluated subsequent events through October 8, 2014, which is the date the financial statements were available to be issued.

ACTUARIAL ASSUMPTIONS AND METHODS

The valuation of a defined benefit pension plan involves estimates and assumptions about the probability of events occurring far into the future. Examples include assumptions about future employment, mortality, and retirement. Below is a description of the actuarial assumptions and methods used in the valuation.

Actuarial Cost Methods

Funding Target Liability: As required by PPA, the Traditional Unit Credit Cost Method was used.

Actuarial Value of Assets: The actuarial value of assets is determined by averaging the fair market value of assets as of the valuation date and the adjusted fair market values as of the preceding two valuation dates. This methodology is consistent with that provided in IRS Notice 2009-22.

Funding Target Liability

Valuation Date: January 1, 2013

Demographic Information: The demographic information was provided as of January 1, 2013 by Indium Corporation of America. Although we did not audit the data, we did review the data for reasonableness.

Expected Rate of Return on Assets: 5.50%

Interest Rates for Minimum Required Contribution: The adjusted 24-month average January 2013 funding segment rates using 25-year average segment rate corridors were utilized as prescribed by IRC Section 430(h) and MAP-21 and elected by Indium Corporation of America.

Segment	Interest Rate
Segment 1	4.94%
Segment 2	6.15%
Segment 3	6.76%

Segment 1 is applied to benefit payments expected to be made in the first 5 years, segment 2 is applied to benefit payments expected to be made in the next 15 years and segment 3 is applied thereafter.

Effective Interest Rate: 6.22%

Interest Rates for Maximum Recommended Contribution: The January 2013 funding segment rates were utilized as prescribed by IRC Section 430(h) and elected by Indium Corporation of America.

Segment	Interest Rate
Segment 1	1.62%
Segment 2	4.40%
Segment 3	5.45%

Interest Credit Rate for Determining Cash Balance Account: 0.59%, based upon the 5-year treasury rate for the August prior to the valuation date.

Rate of Compensation Increase: Salaries are assumed to increase at 3.00% per year.

Social Security Wage Base Increase: None

Mortality: The blended annuitant/non-annuitant RP-2000 Mortality Tables with projected mortality improvements using Scale AA; specifically as outlined in IRC Regulation 1.430(h)(3)-1 for 2013 valuations. The static mortality tables are projected from the base table for the year 2000 through 2013

with further projection to reflect the approximate expected duration of liabilities, namely 7 years for annuitants and 15 years for non-annuitants.

Retirement Incidence: Age 62 with five years of participation.

Turnover: Termination rates based on Table T-1 of the Actuary Pensioners Handbook were assumed in the valuation. Employees were assumed to terminate in accordance with the rates shown below:

Age	Males	Females
20	0.0544	0.0544
25	0.0489	0.0489
30	0.0370	0.0370
35	0.0235	0.0235
40	0.0113	0.0113
45	0.0027	0.0027
50	0.0000	0.0000

Disability: Rates of disablement were not assumed.

Post-Disablement Mortality: Post-disablement mortality was not assumed in the valuation.

Administrative Expenses: Actual plan expenses, not including investment advisory fees, paid out of the trust during the previous plan year, rounded to the nearest thousand dollars.

Spouse Assumptions: 80% of males and 80% of females were assumed to be married. The female spouse is assumed to be three years younger than the male spouse.

Form of Benefit: Active participants are assumed to receive a deferred lump sum. Inactive participants are assumed to receive an immediate lump sum.

Present Value of Benefits (ASC 960)

Interest Rate: 5.50%

Interest Credit Rate for Determining Cash Balance Account: 5.50%

Mortality: **As of January 1, 2013:** The optional combined RP-2000 Mortality Table for annuitants and non-annuitants with projected mortality improvements; specifically outlined in IRC Regulation 1.430(h)(3)-1 for 2013 valuations. The static mortality tables are further projected from the base table for the year 2000 through 2013 with further projection to reflect the approximate expected duration of liabilities, namely 7 years for annuitants and 15 years for non-annuitants.

Prior to January 1, 2013: The optional combined RP-2000 Mortality Table for annuitants and non-annuitants with projected mortality improvements; specifically outlined in IRC Regulation 1.430(h)(3)-1 for 2012 valuations. The static mortality tables are further projected from the base table for the year 2000 through 2012 with further projection to reflect the approximate expected duration of liabilities, namely 7 years for annuitants and 15 years for non-annuitants.

Unless specifically mentioned, all remaining assumptions for the Present Value of Benefits remain the same as described for the Funding Target Liability above.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
