We were engaged to audit the accompanying financial statements and supplemental schedule of the ICL Performance Products LP Jointly Funded Retirement Income Plan (the "Plan") as of December 31, 2009 and for the year then ended, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed the other auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by Fidelity Management Trust Company, the trustee of the Plan. Their report, dated September 14, 2009, indicated that (a) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the Trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Notes 3 and 4, as of and for the years ended December 31, 2009, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not express an opinion on the plan's financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

ICL PERFORMANCE PRODUCTS JOINTLY FUNDED RETIREMENT INCOME PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the ICL Performance Products Jointly Funded Retirement Income Plan (the “Plan”), formerly known as Astaris LLC Jointly Funded Retirement Income Plan, is provided for general information purposes only. Participants should refer to the Plan Document and the Summary Plan Description for complete information.

General

The Plan is a defined contribution profit sharing plan which includes a 401(k) provision. The Plan covers substantially all employees of ICL Performance Products LP (the “Company”), formerly known as Astaris LLC. There are no age or eligibility service requirements under the Plan which is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

The Plan provides for automatic enrollment of employees after 30 days of employment at a default deferral rate of 3%, to be invested in the Fidelity Freedom Funds unless otherwise directed by the participant.

Effective January 1, 2009, the Plan was amended to change the retirement date from 65 to 59 ½, to include rollover contributions sourced assets in the calculation of and withdrawal of loans, and to adopt the same desk rule.

Contributions

Participants may defer up to 60% of annual salary, subject to certain Internal Revenue Service limitations. Participants who have attained age 50 are eligible to make catch-up contributions pursuant to Section 414(v) of the Internal Revenue Code (the “Code”). The Plan provides for nondiscretionary employer matching contributions equal to 80% of participants’ contributions up to 5% of the participants’ eligible compensation. In addition, the Plan provides for an additional discretionary employer contribution at a fixed rate of 3% of each active participant’s eligible compensation. Participants may also make after-tax contributions.

Administration of the Plan

Fidelity Management Trust Company (“Fidelity”) is the Plan’s Trustee, Recordkeeper and Custodian.

Investments

Upon enrollment in the Plan, participants may direct contributions, including the company contributions, into any of the available investment fund options. Participants may change their investment elections daily.

Participant Accounts

Each participant’s account is credited with the participant’s contributions and allocations of (a) the Company’s matching and fixed rate contributions and (b) plan earnings, and charged with an allocation of certain administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan Document. The benefit to which a participant is entitled is the benefit that can be provided from the assets in each participant’s vested account.

Participant Vesting

Participants are immediately 100% vested in amounts attributable to their contributions and earnings thereon. Participants become fully vested in the employer matching and fixed rate contributions after three years of employment. Participants automatically become vested in their accounts upon reaching normal retirement age, age 59 1/2 or upon death or disability.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or termination, a participant is eligible to receive distributions equal to the value of the participant's vested interest in his or her account. Distributions can be issued as a lump-sum payment, installment payments, or in a joint and survivor or life annuity. The Plan allows in-service withdrawals by active participants who attain age 59 1/2 from all sources and allows in-service withdrawals from participant rollover source and after-tax source funds for any reason.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000, reduced by the excess of the highest outstanding balance of the participant loans during the one-year period ending on the day before the loan is made over the participant's outstanding loan balance immediately prior to the loan, or 50% of their vested account balance on the date of the loan. Frozen money purchase source assets are not available for loan withdrawals. Loan terms must be at least one year and may not exceed five years for conventional loans, or 10 years for loans used to purchase a participant's principal residence. The loans are secured by the vested portion of that participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest must be repaid at least quarterly through payroll deductions in substantially equal payments over the term of the loan. A participant may have up to two loans outstanding at any period in time. Only one loan is allowed to be withdrawn per calendar year.

Forfeited Accounts

Forfeited non-vested account balances may be used to pay plan expenses or reduce the Company's matching contributions to the Plan. Forfeitures used to reduce Company matching contributions for the years ended December 31, 2009 and 2008 totaled \$40,251 and \$66,128, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**Basis of Accounting**

The accompanying financial statements are prepared on the accrual basis of accounting except for distributions which are recorded when paid.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Plan Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Plan Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Any unrealized gains and losses are included in changes in net assets for the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of additional to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Administrative Expenses

Administrative expenses are paid by participant accounts under cost sharing expense ratios or through loan processing fees or out of the forfeitures account.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through September 8, 2010, the date the financial statements were available to be issued.

3. INVESTMENTS

All investment information reported in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2009 and 2008 and net appreciation (depreciation) in fair value of investments, interest, and dividends for the years ended December 31, 2009 and 2008, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the trustee.

The fair value of investments representing 5% or more of net assets as of the beginning of the plan year consists of the following:

	December 31, 2009
Fidelity Diversified International Fund	\$ 7,010,025
Fidelity Managed Income Portfolio	5,260,509
Fidelity Low Price Stock Fund	5,165,179
Baron Asset Fund	4,922,845
Fidelity Contra fund	4,404,677
Fidelity Blue Chip Growth Fund	3,891,147
Fidelity Freedom 2010 Fund	3,750,309
Fidelity Freedom 2020 Fund	3,326,656
PIMCO Total Return Fund	3,099,015
Spartan U.S. Equity Index Fund	2,933,421

Baron Asset Fund	3,715,163
Fidelity Low Price Stock Fund	3,078,067
Fidelity Blue Chip Growth Fund	3,034,367

During 2009 and 2008, the Plan's investments, including gains and losses on investments bought and sold, as well as held during the year, appreciated (depreciated) in value by \$10,854,500 and

(\$21,163,804), respectively. Interest and dividends certified by the Trustee totaled \$1,076,633 and \$2,350,026 for 2009 and 2008, respectively.

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 – inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 – inputs to the valuation methodology include other observable inputs, including quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 – inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common collective trust / stable funds: Valued at contract value, which an adjustment of fair value is calculated and disclosed.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009.

Description	December 31, 2009	Fair Value Measurements at Reporting Date Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

5. PLAN TERMINATION

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination all participants will be fully vested in their account balances.

6. INCOME TAX STATUS

The Plan obtained its latest determination letter dated April 1, 2003 in which the Internal Revenue Service ("IRS") stated that the Plan, as designed, was in compliance with the applicable requirements of the Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, the Plan Administrator believes that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

9. TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain plan investments are shares of mutual funds and common collective trusts managed by Fidelity, the trustee as defined by the Plan. Transactions related to these funds qualify as party-in-interest transactions.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for plan benefits per the financial statements at December 31, to the Form 5500:
