INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees of the
Frank Motors, Inc. 401(k) Profit Sharing Plan and Trust
National City, California

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Frank Motors, Inc. 401(k) Profit Sharing Plan and Trust, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Principal Life Insurance Company and Principal Trust Company, the trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustees hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the trustees as of December 31, 2013 and 2012 and for the year ended December 31, 2013, that the information provided to the plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter discussed in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of and for the year ended December 31, 2013 are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1--DESCRIPTION OF PLAN

The following description of the Frank Motors, Inc. 401(k) Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General : The Plan, which was adopted on October 1, 1988, is a defined contribution plan covering substantially all employees of Frank Motors, Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The 401(k) Investment Committee is responsible for oversight of the Plan and determines the appropriateness and monitors performance of the Plan's investment offerings.

Contributions : Participant salary reduction contributions: Each year, participants may contribute up to 100% of pretax annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Such contributions are 100% vested and non-forfeitable. Participant contributions are subject to certain Internal Revenue Service (IRS) limitations.

Employer discretionary matching contributions: The Company may make discretionary matching contributions in an amount equal to the percentage declared by the Board of Trustees based on the deferral contribution made by each participant during each pay period, as defined by the Plan. Effective October 1, 2012, the Plan was amended to change employer discretionary matching contributions from a pay period basis to an annual basis. Effective January 1, 2013, the Plan was amended to change employer discretionary matching contributions from an annual basis to a pay period basis. These contributions are subject to overall employer contribution limits and additions to individual participant account limits. Each participant will be vested in these employer contributions per the vesting schedule. Effective October 1, 2012, the Company has elected to make discretionary matching contributions of 50% of each participant's contribution limited to the lesser of $750 or 6% of the participant's compensation. Effective January 1, 2013, the Plan has elected to make discretionary matching contributions of 50% of each participant's contribution limited to the lesser of $3,000 or 6% of the participant's compensation.

Employer discretionary contributions: The Company may make a discretionary contribution to the Plan. The discretionary contribution would be allocated to participants' accounts in the same ratio as the participant's compensation bears to total compensation of eligible participants. Participants must have worked 500 hours of service or terminated service due to disability, retirement or death during the plan year to be eligible to share in the employer discretionary contribution. These discretionary contributions are subject to overall employer contribution limits and additions to individual participant account limits. Each participant will be vested in employer contributions per the vesting schedule. The Company has elected to not make an employer discretionary contribution for the year ended December 31, 2013.

NOTE 1--DESCRIPTION OF PLAN (Continued)

Contributions (continued)	:	Employer discretionary qualified non-elective contributions: The Company may make a discretionary qualified non-elective contribution to the Plan. The contributions would be allocated to only the accounts of non-highly compensated employees in the same ratio as the participant's compensation bears to total compensation of all non-highly compensated employees. To be eligible for the employer discretionary qualified non-elective contribution the employee must have met the initial eligibility to participate, as described below, and must have worked 500 hours of service or terminated service due to disability, retirement or death during the plan year. These contributions are subject to overall employer contribution limits and additions to individual participant account limits. Such contributions are 100% vested and non-forfeitable. The Company has elected to not make a discretionary qualified non-elective contribution for the year ended December 31, 2013. Participant rollover contributions: Participants may also contribute amounts representing distributions from other qualified defined contribution or defined benefit plans (rollover).
Eligibility to participate	:	Employees are eligible to make salary reduction contributions on the first day of the quarter subsequent to their date of hire. Employees who have reached age twenty-one and completed one year of service by the end of a twelve month period in which they have worked 1,000 hours are eligible to receive employer discretionary matching contributions, employer discretionary contributions and employer discretionary qualified non-elective contributions as of the next succeeding entry date.
Forfeitures	:	At December 31, 2013 and 2012, forfeited nonvested accounts held by the Plan totaled $0 and $0. These accounts will be used to pay administrative expenses of the Plan and to reduce future employer contributions. During 2013, forfeited nonvested accounts totaling $16 were used to pay administrative expenses and $1,606 were used to reduce employer contributions.
Notes receivable from participants	:	Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate is set at 2% above the prime rate, as defined.
Participant accounts	:	Participants direct the investment of their contributions into various investment options offered by the Plan. Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's salary reduction and rollover contributions, employer discretionary matching contributions and an allocation of the employer's discretionary contribution and employer's discretionary qualified non-elective contributions. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant's account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1--DESCRIPTION OF PLAN (Continued)

Payment of benefits : On termination of service due to death, disability, or retirement, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. The distribution shall be made to the participant or beneficiary in accordance with the election of the participant. Participants may defer receiving these benefits until their normal retirement age if their vested account balance exceeds $5,000.

Participants may also elect to withdraw in cash certain vested amounts within his or her contribution account to the extent necessary to meet a financial hardship, in accordance with the regulations and rulings of the Internal Revenue Code (IRC). After the withdrawal, a stipulated period of time must lapse, as defined by the Plan, before a participant can make additional contributions.

Vesting : Participants are vested immediately in their participant salary reduction, employer discretionary qualified non-elective and rollover contributions plus actual earnings thereon. Vesting in the remainder of their accounts (employer discretionary matching contributions and employer discretionary contributions) is based on years of continuous service. Accrued benefits vest as follows:

Years of Service	Vested Interest
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

For vesting purposes, a year of service is defined as a plan year in which an employee works at least 1,000 hours.

Participants become fully vested upon termination for reason of retirement, death or disability, or if the Plan is terminated. Nonvested benefits are forfeited by participants upon termination for reasons other than normal retirement, death or disability.

NOTE 2--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting	:	The financial statements of the Plan are presented on the accrual basis of accounting. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts through a common/collective trust. The Statements of Net Assets Available for Benefits present the fair value of the investment in the common/collective trust as well as the adjustment of the investment in the common/collective trust from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.
Administrative expenses	:	Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of the Plan, administration of notes receivable from participants and distributions from participant accounts are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.
Investment valuation and income recognition	:	Investments are reported at fair value except for the Plan's fully benefit-responsive investment contract which is valued at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.
Notes receivable from participants	:	Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Principal and interest are paid ratably through payroll deductions. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.
Payment of benefits	:	Benefits are recorded when paid.
Subsequent events	:	The Plan has evaluated subsequent events through October 7, 2014, the date the financial statements were available to be issued.

NOTE 2--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of estimates : The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

NOTE 3--CERTIFIED INFORMATION

The following is a summary of the certified information regarding the Plan, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information prepared by Principal Life Insurance Company and Principal Trust Company, the trustees of the Plan, and furnished to the plan administrator. The plan administrator has obtained certifications from the trustees that the information is complete and accurate as of December 31, 2013 and 2012. Certified information is summarized as follows:

	2013	2012
Common/collective trust, at contract value	$ 754,631	$ 901,248
Guaranteed interest contract, at fair value	86,980	217,260

Total investments, at fair value	$ 7,067,145	$ 5,625,379

During the year ended December 31, 2013, the Plan's investments (including investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

Mutual funds	380,835
Pooled separate accounts	562,064
Net change in fair value	$ 942,899

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2013 are reported in net appreciation (depreciation) in fair value of investments.

NOTE 5--FAIR VALUE MEASUREMENTS

The fair value measurement accounting literature provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy and a description of the valuation methodologies used for assets measured at fair value are described below:

Level 1 Fair Value Measurements

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. Common stock is valued at the closing price reported on the active market on which the individual securities are traded.

Level 2 Fair Value Measurements

Inputs to the valuation methodology include (a) quoted prices for similar assets or liabilities in active markets, (b) quoted prices for identical or similar assets or liabilities in inactive markets, (c) inputs other than quoted prices that are observable for the asset or liability or (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Pooled separate accounts are valued at the quoted NAV of the shares held by the Plan at year-end. Common/collective trust funds are valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Level 3 Fair Value Measurements

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Guaranteed interest contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer (See Note 6). Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Administrative Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

NOTE 5--FAIR VALUE MEASUREMENTS (Continued)

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Total	$ 5,625,379	$ 2,903,054	$ 2,505,065	$ 217,260

(a) Common/collective trust: An investment that is intended to preserve principal and achieve high current income through a diversified portfolio of high-quality guaranteed interest contracts and similar contracts issued by insurance companies, banks and other financial institutions.

(b) Guaranteed interest contracts: An investment that seeks to preserve principal and produce positive returns that move in the general direction of market interest rates. The fund is designed to have less return volatility than most bond funds.

(c) Fixed income: An investment that is intended to produce a predictable stream of income derived from ownership in corporate or government bonds and other fixed income instruments with varying maturities.

(d) International: These funds invest primarily in companies located outside of its investors' country of residence.

(e) Large cap: An investment that invests in companies with a market capitalization of greater than $10 billion at the time of purchase.

(f) Lifecycle: A mutual fund diversified over a range of asset categories. Each Lifecycle fund has an allocation strategy for the underlying equity, fixed income and short term mutual funds based on the number of years until the funds reach their target retirement dates. Each fund with a target retirement date will gradually adopt a more conservative asset allocation as it approaches its target retirement date.

(g) Mid cap: An investment that invests in mid-sized companies generally ranging from $2 billion to $10 billion in market capitalization at the time of purchase.

NOTE 5--FAIR VALUE MEASUREMENTS (Continued)

(h) Small cap: An investment that invests in companies with a market capitalization of between $300 million and $2 billion at the time of purchase.

(i) Real estate: An investment that focuses on generating good risk-adjusted returns for investors. Focal points include: active pursuit of acquisition opportunities including both build-to-core and lease-to-core strategies; a continuation of investment in/maintenance of a portfolio of infill properties; a focus on liability management utilizing asset-liability matching; a focus on increasing property NOI; and increasing risk appetite in the context of a core fund.

(j) Mutual funds: An investment that is made up of a pool of funds collected from many investors for the purpose of investing in securities such as stocks, bonds, money market instruments, and similar assets. Mutual funds are operated by money managers and are structured and maintained to match the investment objectives stated in its prospectus.

The following table sets forth a summary of changes in fair value of the Plan's level 3 assets for the year ended December 31, 2013:

	Guaranteed Interest Contracts
Balance at January 1, 2013	$ 217,260
Interest credited	1,171
Purchases	6,798
Sales	(138,249)
Balance at December 31, 2013	$ 86,980

The following tables represent the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs as of December 31, 2013:

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
Guaranteed interest contract	$ 86,980	Market value adjustment	Composite guaranteed rate	0.70% - 1.65%	1.22%
			Current rate on 12/31/2013	0.61% - 1.27%	0.83%

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2013 and 2012:

	12/31/2013 Fair Value	12/31/2012 Fair Value	Unfunded Commitment	Redemption Frequency (if currently eligible)	Redemption Notice Period
Common/Collective Trust					
Principal Stable Value Fund	$ 759,226	$ 922,431	N/A	Daily	12 months

NOTE 6--INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has a guaranteed interest contract with Principal Life Insurance Company and Principal Trust Company. Principal Life Insurance Company and Principal Trust Company maintain the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. These accounts promise contract value for a benefit event (termination, death, disability and retirement); however, there is a possible market value adjustment when funds are withdrawn prior to their maturity. Thus, these accounts are not considered benefit responsive. These contracts are included in the financial statements at fair value as reported to the Plan by Principal Life Insurance Company and Principal Trust Company.

NOTE 7--PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

NOTE 8--TAX STATUS

As of December 31, 2013, an IRS determination letter has not been obtained for the plan instrument as adopted, but an IRS "prototype" opinion letter dated March 31, 2008, has been obtained by Principal Life Insurance Company, the service provider, regarding the original plan document. Although the Plan has been amended since receiving the IRS "prototype" opinion letter, plan management believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, plan management believes that the Plan is qualified and the related trust is tax exempt.

NOTE 8--TAX STATUS (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the U.S. Department of Labor (DOL) Employee Benefits Security Administration (EBSA). The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine income tax examinations by taxing jurisdictions; however, there are currently no income tax examinations for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 9--PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are units of pooled separate accounts, common/collective trusts, and guaranteed interest contracts managed by Principal Life Insurance Company and Principal Trust Company. Principal Life Insurance Company and Principal Trust Company are the trustees as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 10--RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE 11--CORRECTIVE CONTRIBUTION

During a review of the Plan, the Company identified certain sources of income reported on employee tax statements were not included in the calculation of eligible income for both employee and employer contributions to the Plan. These transactions include: (a) final paychecks for terminated employees; and (b) advances/draws for sales commissions. Under current IRS and Department of Labor regulations, the Company, is held responsible for any failures to include all required amounts in the calculation of compensation under the Plan Document. Any unpaid employee and employer contributions required to correct this matter will be funded by the Company, based on a prescriptive IRS formula that takes into account any earnings that would have benefited the Plan participant had these contributions occurred in the correct period. The estimate of the current corrective contribution owed to the Plan by the Company is approximately $29,000 including lost earnings.

NOTE 12--RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following are reconciliations of net assets available for benefits per the financial statements to the Form 5500 and of change in net assets available for benefits per the financial statements to the Form 5500:
