INDEPENDENT AUDITORS' REPORT

To the Investment Committee of
Igloo Products Corp Employees' 401(k) Plan
Katy, Texas

Reports on the Financial Statements

We were engaged to audit the accompanying financial statements of Igloo Products Corp Employees' 401(k) Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in *Note 4*, which was certified by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2013 and 2012, that the information provided to the plan administrator by the trustee is complete and accurate.

Re: Independent Auditors' Report

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) and Schedule H, Line 4a – Schedule of Delinquent Participant Contributions as of and for the year ended December 31, 2013, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 – DESCRIPTION OF PLAN

Igloo Products Corp Employees' 401(k) Plan (the Plan) is a defined contribution 401(k) profit sharing plan adopted by Igloo Products Corp (the Company) effective October 1, 1987. The Plan was amended on December 1, 2011. It is administered by the Company and subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The summary of significant provisions of the Plan presented below provides general information. Participants should refer to the plan document for more complete information.

Eligibility – Eligible employees of the Company can join the Plan as an active participant on the first day of the month on or after 6 months of entry service and attaining age 21 or older.

Contributions – Participants may elect to make deferral contributions. The deferral contribution will be a pre-tax elective deferral contribution unless the participant designates all or a portion as Roth elective deferral contribution. The law limits the amount participants can defer in any year. Plan participants at least age 50 by the end of the year may make catch-up contributions in excess of the law limit. Participants can stop or change elective deferral contributions on any date.

The Company currently makes a safe harbor matching contribution equal to 100% of participants' deferral contributions which are not over 3% of participants' pay, plus 50% of the deferral contributions which are over 3% of the pay, but are not over 5% of the pay. Matching contributions are based on participants' pay and 401(k) elective deferral for the Plan year. A participant is eligible for a matching contribution on any December 31, if the participant was an active participant at any time during the Plan year. The Company may also make a discretionary contribution each plan year. The discretionary contribution will be divided among eligible participants. The Company did not make a discretionary contribution for 2013.

Rollover contributions are permitted under certain circumstances and may come from other qualified plans, tax sheltered annuity plans, governmental 457 plans, and traditional Individual Retirement Accounts (IRA) if the amounts would be included in gross income.

Participant Accounts – Individual accounts are maintained for each participant to reflect their contributions, employer contributions, and rollover contributions. Income and loss are allocated to the participants' accounts based on the ratio of the account balance of the individual participant to the aggregate of all account balances of all participants in the fund within the Plan. Participants may also be charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options – Participants elect to have their contributions allocated among various investment securities offered by the Plan. The Plan currently offers mutual funds and a guaranteed investment contract as investment options for participants. Participants may change or transfer their investment mix anytime during the year.

Vesting – Participants are 100% vested in their elective deferral contributions, rollover contributions, and matching contributions. Vesting in the employer's discretionary contribution is based on years of vesting service. Participants become 100% vested in discretionary contributions after 5 years of vesting service.

Payment of Benefits – Plan distributions may occur upon retirement, death, or termination of employment. If a participant's vested account is $5,000 or less, it will be paid in a single sum. Federal law requires the Plan to automatically roll a participant's vested account to an IRA in a direct rollover if the participant's vested account is more than $1,000, the participant has not reached age 65, and the participant does not elect to have his vested account paid in a single sum or rolled to another retirement plan or an IRA of their choice in a direct rollover. If the vested account is more than $5,000, the participant may choose to receive benefits in a single sum payment or through various annuity options.

If a participant is age 59½ or older, the participant may withdraw all or any part of their vested account resulting from their elective deferral contributions, matching contributions, and discretionary contributions. A participant may make one such withdrawal during any one-year period. In addition, participants with a financial hardship due to immediate and heavy financial need may withdraw all or any part of their vested account. Elective deferral contributions will be suspended for six months following the date of the hardship withdrawal.

Notes Receivable From Participants – Loans are available under the Plan. The minimum loan is $1,000. The loan may not be more than 50% of participant's vested account or $50,000, reduced by any outstanding loan balance, if any during the one-year period ending on the day before their new loan is made, if less. Participants may be granted two loans during any one-year period. Only one loan may be outstanding at a time. A participant's vested account will provide the security for the loan. The maximum term of any loan is five years, unless for the purchase of a principal residence. The interest rate will be based on the rates available for similar loans from commercial lending institutions. Once a loan is granted, the interest rate on that loan will not change. Principal and interest are paid ratably through payroll deductions.

Forfeited Accounts – Amounts participants lose the right to are called forfeitures. Forfeitures may first be used to pay plan expenses. Any forfeitures left after paying plan expenses are used to offset employer contributions. At December 31, 2012, forfeited accounts totaled $1,756. During 2013, $1,756 of forfeitures was refunded to the Company.

Administrative Expenses – Certain expenses directly related to operating the Plan may be paid from participants' accounts. Also, specific fees may be charged directly to a participant's account in response to transactions that were requested under the Plan. Plan expenses could include investment management fees, general administration and recordkeeping charges, and per-use fees.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transaction under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefit is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants and the measurement date. See *Note 3* for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest and other income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the Company deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Benefits Paid to Participants – Benefits are recorded when paid. As of December 31, 2013, there were no amounts allocated to participants who have terminated from the Plan, but have not been paid.

Subsequent Events – The Plan has evaluated subsequent events through October 10, 2014, the date the financial statements were available to be issued.

Recent Accounting Pronouncements – The Plan has implemented all required new accounting pronouncements and does not believe that there are any new accounting pronouncements that have been issued that may have a material impact on its financial statements.

NOTE 3 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

- **Level 1** – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- **Level 2** – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- **Level 3** – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed Investment Contracts – Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Company evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments and overall credit ratings. Certain unobservable inputs are assessed through review of contract term while others are substantiated utilizing available market data.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2013:

	Guaranteed Investment Contract
Balance, beginning of year	$ 4,806,573
Unrealized gains relating to instruments still held at the reporting date	252,978
Interest credited	100,498
Purchases	525,966
Sales	(1,438,159)
Balance, end of year	$ 4,247,856
The amount of total gains for the period attributable to the change in unrealized gains relating to assets still held at the reporting date	$ 252,978

Unrealized gains from the guaranteed investment contract are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements – The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

NOTE 4 – INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

The Company has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012, *Note 5,* and the supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2013, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2013.

NOTE 5 – INVESTMENTS (UNAUDITED)

At December 31, 2013 and 2012, all investments of the Plan were participant-directed. The following presents investments that represent 5% or more of the Plan's net assets available for benefits at December 31:

	2013	2012
Prin LifeTime 2010 R4 Fund*	**$ 1,969,982**	$ 1,505,933
Prin LifeTime 2020 R4 Fund*	**9,368,125**	8,015,863
Prin LifeTime 2030 R4 Fund*	**6,376,410**	5,020,614
Prin LifeTime 2040 R4 Fund*	**1,835,987**	**
Prin Fixed Income 401(a)/(k)*	**4,247,856**	5,059,551
PIMCO Total Return C Fund	**	1,770,286

* Indicates party-in-interest.
** Represents less than 5% of the Plan's net assets as of December 31.

During 2013, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $3,341,251.

NOTE 6 – GUARANTEED INVESTMENT CONTRACT

The Plan entered into a fully benefit-responsive group annuity contract issued by Principal Life Insurance Company (Principal). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or portion of their investment at contract value. At December 31, 2013, contract value approximates fair value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Under the terms of the existing contract, the crediting rate is currently reset on a semiannual basis. Average yield earned by the Plan is calculated by dividing the annualized earnings of all fully benefit-responsive investment contracts by the fair value of all fully benefit-responsive investment contracts. The average yield earned by the Plan is the yield earned (i.e. interest credited) on the group annuity contract. The composite crediting rate for the contract is as follows:

January 1, 2013 - June 30, 2013	2.35%
July 1, 2013 - December 31, 2013	2.25%
January 1, 2012 - June 30, 2012	2.50%
July 1, 2012 - December 31, 2012	2.35%

Certain events limit the ability of the Plan to transact at contract value with the issuer. The Company believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

NOTE 7 – RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by the trustee and, therefore, these transactions qualify as party-in-interest transactions. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibited transactions rules under ERISA. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Company pays directly any other fees related to the Plan's operations.

NOTE 8 – PLAN TERMINATION

The Plan can be terminated at any time. If the Plan is terminated, participants' accounts will be 100% vested and nonforfeitable. Participants' accounts will be held under the Plan and continue to be credited with investment earnings until it is used to provide benefits according to the terms of the Plan.

NOTE 9 – TAX STATUS

The Plan adopted a prototype non-standardized profit sharing plan with cash or deferred arrangement sponsored by Principal Life Insurance Co. The prototype plan obtained its latest opinion letter on March 31, 2008, in which the Internal Revenue Service (IRS) stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Company believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires the Company to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Company believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 10 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 11 – PROHIBITED TRANSACTIONS

The Company failed to remit to the Plan's trustee certain participant contributions and loan repayments totaling $4,721 within the period prescribed by the Department of Labor regulations. Delays in remitting contributions to the trustee were due to unintentional administrative errors. During 2013, the Company has made contributions to the affected participants' accounts to compensate those participants for potential lost earnings due to the delays.
