Neovia Logistics Services, LLC 401(k) Plan
Irving, Texas

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Neovia Logistics Services, LLC 401(k) Plan (the Plan), which comprise the Statements of Net Assets Available for Benefits as of December 31, 2013 and 2012, the related Statements of Changes in Net Assets Available for Benefits for the year ended December 31, 2013, and period from August 1, 2012 through December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 3 and 4, which was certified or provided by Fidelity Management Trust Company, the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee as of December 31, 2013 and 2012, and for the year ended December 31, 2013, and period from August 1, 2012 through December 31, 2012, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter

As described Note 1 to the financial statements, the Plan's Adoption Agreement became effective on August 1, 2012, and subsequently, on September 4, 2012, approximately $49.6 million of participant balances and participant notes receivable were transferred into the Plan from the Caterpillar 401(k) Savings Plan and the Caterpillar 401(k) Retirement Plan. Our disclaimer of opinion has not been modified with respect to these matters.

Other Matter

The supplemental Schedules of Assets (Held at End of Year) as of December 31, 2013 and 2012, are required by the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. These supplemental schedules are the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Plan Description

The following description of the Plan provides only general information. Participants should refer to the plan document for a complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering eligible employees of Neovia Logistics Services, LLC (the Company or Plan Sponsor). Eligible full-time employees may participate when they begin employment and part-time employees become eligible for participation after they have reached the age of 21 and have completed at least 1,000 hours of service during an eligibility computation period. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan's Adoption Agreement became effective on August 1, 2012, after the Company (formerly known as SPL Logistics, LLC until its name was changed on August 16, 2012), which was formed on May 7, 2012, entered into certain business acquisition transactions on July 31, 2012, when the Company acquired, from Caterpillar, Inc. (Caterpillar) and certain of its affiliates, certain of the entities and assets comprising the third-party logistics business historically operated by Caterpillar (the Business Acquisition). As a result, the 2012 financial statements of the Plan are for the period from (the Plan's Adoption Agreement effective date of) August 1, 2012 through December 31, 2012.

On September 4, 2012, approximately $49.6 million of participant balances and participant notes receivable were transferred into the Plan from the Caterpillar 401(k) Savings Plan and the Caterpillar 401(k) Retirement Plan (the Caterpillar Plans) as a result of the Business Acquisition.

Contributions: Participants may elect to defer a percentage of their eligible compensation and have the amount contributed to the Plan. For pre-tax contributions the elective deferral amount may not be more than the lesser of (a) 75% of their eligible compensation in a calendar year, (b) the maximum dollar limit allowed under the requirements of the Internal Revenue Code ($17,500 and $17,000 for 2013 and 2012, respectively), or (c) such lesser amount as determined by the discrimination tests for the Plan. Participants who will be age 50 or older during the plan year can make additional special catch-up contributions (up to $5,500 additional for 2013 and 2012). The Plan also provides a Roth option which allows participants to designate some or all of their deferral contributions on an after-tax basis subject to annual contribution limits imposed by the Internal Revenue Code.

After 30 days of employment, participants are automatically enrolled to defer 3% of their pre-tax annual compensation unless elected otherwise. Contributions of distributions to participants from another qualified plan are permitted as defined in the Plan and are reflected as rollover contributions.

The Company is required to make matching contributions equal to 100% of the first 6% of each participant's eligible compensation, contributed to the Plan as elective deferral contributions, subject to certain conditions and limitations as specified in the plan document.

The Company is also required to make nonelective contributions equal to 3%, 4%, or 5% of eligible compensation of employees included in certain defined participant groups and such nonelective contributions are subject to certain conditions and limitations as specified in the plan document. A participant must complete at least 1,000 hours of service during the Plan's year and be employed as of the last day of the Plan's year to receive any nonelective contributions that may be required for that year of the Plan, unless a participant dies or retires during the Plan's year. For the year ended December 31, 2013, and period from August 1, 2012 through December 31, 2012, such nonelective contributions totaled $1,416,698 and $656,241, respectively.

Investment options: Participants direct their accounts into various investment alternatives that are offered by the Plan. In addition, the Plan also offers a self-directed program (also commonly referred to as participant-directed brokerage accounts) that allows participants to invest their account balances in an expanded range of mutual funds and/or money market accounts available through Fidelity Brokerage Link, as permitted by the Plan and in accordance with ERISA. Participants may change their investment options daily.

Note 1. Plan Description (Continued)

Participant accounts: Each participant's account is credited with the participant's elective contributions and, if applicable, rollover contributions, transfers to the Plan and allocations of (a) the Company's contributions and (b) plan earnings or losses, and charged with an allocation of applicable administrative expenses that are paid by the Plan and transfers from the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their elective and, if applicable, rollover contributions and transfers into the Plan and the Company's contributions plus actual earnings thereon.

Payment of benefits: Participants may elect to receive in service distributions for all or a portion of their vested account balance when:

1) reaching age 59½, or
2) beginning in the calendar year reaching age 70½, calculated in the same manner as minimum required distributions, or
3) after reaching the Plan's normal retirement age of 65, or
4) requested at any time applicable to after-tax and rollover contributions, or
5) otherwise for certain types of distributions as defined in the plan document.

Also, a participant may elect to receive in service distributions for the elective deferral contributions portion of their account balance if a participant has a financial hardship as defined in the plan document. The minimum hardship withdrawal is $500.

On termination of service, death, disability or retirement, a participant (or their beneficiary or beneficiaries as applicable) with a vested account balance greater than $5,000 may elect to receive:

1) a lump-sum amount equal to the value of his or her vested account balance, or
2) annual or more frequent periodic payments of substantially equal amounts over a period as defined in the plan document until the entire account balance has been fully distributed.

If a participant's vested account balance is $5,000 or less, a lump-sum amount distribution is the required form of payment on termination of service, death, disability or retirement.

Additionally, a participant may also elect to have a portion or all of his or her distributions paid in the form of a direct trustee-to-trustee transfer to another eligible retirement plan designated by the participant.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Notes receivable are collateralized by up to 50% of the vested balance in the participant's account and bear interest at rates comparable to prevailing rates offered by commercial lending institutions as determined by the Plan Administrator. Note receivable terms may range over a period not exceeding 5 years or longer (not exceeding 15 years) if used to purchase the principal residence of the participant. Principal and interest are paid ratably through payroll deductions. Interest rates applicable to outstanding notes receivable from participants as of December 31, 2013 and 2012, ranged from 4.25% to 8.75% and 4.25% to 9.25%, respectively.

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Note 2. Summary of Significant Accounting Policies

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the Plan's trustee. The methods used to estimate the fair value of investments are described in Note 4.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust fund. Contract value of this common/collective trust fund is based on the net asset value of the fund as reported by the custodian. The statements of net assets available for benefits present the fair value of the investment in the common/collective trust fund as well as the adjustment of the investment in the common/collective trust fund from fair value to contract value relating to the investment contracts. The Statements of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain administrative functions applicable to the Plan are performed by employees of the Company. No such employees receive compensation from the Plan. Certain administrative expenses are paid by the Plan and certain other administrative expenses are paid directly by the Company.

Transfers: Transfers to/from other plans represent account balance transfers for participants who transfer from one plan to another plan primarily due to employment status changes and business acquisition transactions. During the year ended December 31, 2013, net transfers into the Plan primarily consisted of additional participant account balance transfers of approximately $1.2 million from the Caterpillar Plans.

Use of estimates in the preparation of financial statements: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Recent accounting standards: In October 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of Topics in the Accounting Standards Codification (ASC), including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financial statements. The impact of adopting ASU 2012-04 on subsequent periods has not yet been determined.

Note 2. Summary of Significant Accounting Policies (Continued)

In May 2011, the FASB issued an amendment to accounting guidance, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs,* ASU 2011-04. ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in generally accepted accounting principles (GAAP) and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively, became effective for annual periods beginning after December 15, 2011, and were adopted by the Plan in 2012. The adoption of this guidance resulted in expanded fair value disclosures in Note 4 of these financial statements.

Note 3. Information Certified and Provided by Fidelity Management Trust Company

The following is a summary of the Plan's asset information as of December 31, 2013 and 2012, and for the year ended December 31, 2013, and period from August 1, 2012 through December 31, 2012, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in this Note, Note 4, throughout the financial statements and the supplemental schedules related to the following assets.

The following table presents the Plan's assets that were certified by the trustee as of December 31, 2013 and 2012. Single assets representing more than 5% of the Plan's net assets are separately identified:

* Did not meet 5% threshold as of December 31, 2012.

** The fair value of this investment and the adjustment from fair value to contract value for this investment was not certified. Rather, the contract value of this investment, which amounted to $3,980,982 and $4,241,752 as of December 31, 2013 and 2012, respectively, was certified by Fidelity Management Trust Company.

Note 3. Information Certified and Provided by Fidelity Management Trust Company (Continued)

Fidelity Management Trust Company also certified the completeness and accuracy of $9,438,207 of net appreciation in fair value of investments, $1,957,569 of interest and dividends and $68,271 of interest earned on notes receivable from participants for the year ended December 31, 2013, and $994,754 of net appreciation in fair value of investments, $1,005,506 of interest and dividends and $23,465 of interest earned on notes receivable from participants for the period from August 1, 2012 through December 31, 2012.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2013 and 2012.

Shares of registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market funds: Valued at cost, which approximates fair value.

Common/collective trust fund: Valued based on the NAV of units of the common/collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Note 4. Fair Value Measurements (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

The Plan Administrator evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2013, and period from August 1, 2012 through December 31, 2012, there were no transfers in or out of Level 3.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

Note 4. Fair Value Measurements (Continued)

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using net asset value per share as of December 31, 2013 and 2012:

Investments	2013 Fair Value	2012 Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trust fund (a)	$4,013,164	$4,364,854	$ -	Daily	None

(a) This common/collective trust fund had invested all of its assets as of December 31, 2013 and 2012, in Wells Fargo Stable Return Fund G, a common/collective trust sponsored by Wells Fargo Bank, N.A. The Wells Fargo Stable Return Fund G invests in investment contracts and security-backed contracts. An investment contract is a contract issued by a financial institution to provide a stated rate of return to the buyer of the contract for a specified period of time. A security-backed contract has similar characteristics as a traditional investment contract and is comprised of two parts: the first part is a fixed-income security or portfolio of fixed-income securities; the second part is a contract value guarantee (wrapper) provided by a third-party. Wrappers provide contract value payments for certain participant-initiated withdrawals and transfers, a floor credit rating, and return of fully accrued contract value at maturity. There are several risks specific to investment contracts. One of the primary risks involved is credit risk of the contract issuer. Credit risk for security-backed contracts includes risks arising from the potential inability of the issuer to meet the terms of the contract wrapper and the potential default of the underlying fixed-income securities. Secondly, liquidity is limited because of the unique characteristics of investment contracts and the absence of an actively traded secondary market. Interest rate risk is also present because rates may be fixed with these products.

Note 5. Related-Party Transactions

Certain plan investments are shares of registered investment companies (mutual funds) and money market funds managed by Fidelity Management Trust Company, the trustee of the Plan, and therefore these transactions qualify as party-in-interest transactions.

Note 6. Tax Status

The Plan has adopted an Internal Revenue Service (IRS) preapproved volume submitter plan sponsored by Fidelity Management Trust Company. The volume submitter plan has received an opinion letter from the IRS dated March 31, 2008, as to the volume submitter plan's qualified status. The volume submitter opinion letter has been relied upon by the Plan. The Plan has been amended since receiving the opinion letter. However, the plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code.

Management has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Reconciliation Between Financial Statements and the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2013 and 2012:

Note 10. Subsequent Events

The Plan Administrator has evaluated subsequent events through October 9, 2014 the date the financial statements were available to be issued.

During 2014, the Company's management approved an amendment to the Plan that provides a freeze on new participant entry into the Plan on or after January 1, 2015. Employees hired on or after that date will be allowed to participate in a separate defined contribution plan of an affiliate entity of the Company. Management of the Company anticipates such amendment will be executed during the last quarter of the year ending December 31, 2014.
