1. Description of Plan:

The following description of the L'Occitane, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all salaried employees of L'Occitane, Inc. (the "Company") who have completed three months of service and attained the age of 21. Effective July 1, 2003, the completion of service was amended from six months of service to three months of service. The Board of Directors of the Company control and manage the operation and administration of the Plan. Mid Atlantic Trust Company serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 25 percent of their pretax annual compensation, as defined in the Plan, subject to certain Internal Revenue Code limitations. Effective July 1, 2003, the plan was amended to allow contributions of up to 25 percent of participant's pretax annual compensation, an increase from 15 percent. The Company may contribute a discretionary match to the plan. For the year ended December 31, 2013, the Company made matching contributions of 30 percent up to the first ten percent of base compensation that a participant contributes to the Plan. Additional amounts may be contributed as a profit sharing contribution at the discretion of the Company. No such additional discretionary contributions were made for the year ended December 31, 2013. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's matching contribution, and allocations of Company discretionary contributions and Plan earnings, and charged with withdrawals and an allocation of Plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Vesting is based on the years of continuous service and whether the Plan has been top-heavy in the Plan year. Participants are immediately vested 100% in their voluntary contributions plus actual earnings thereon. Participants commence vesting in all employer contributions in accordance with the following schedule.

Years of Service	Vested Interest	(Top-Heavy)
1	20%	20%
2	40%	40%
3	60%	60%
4	80%	80%
5	100%	100%

Participants become fully vested upon the attaining their normal retirement age or in the event of death or total and permanent disability.

Plan Expenses

All Plan administrative expenses may be paid out of the Trust Fund.

Payment of Benefits

On termination of services due to death, disability or retirement, a participant may elect to receive either a lump sum distribution equal to the value of the participant's vested interest in his or her account or partial withdrawals of at least $100. For termination of services due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures

Participants who terminate employment, but have not become fully vested, must forfeit the unvested balance in their account. Forfeited amounts will be used to reduce the Company's contribution for the Plan year.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 and up to a maximum of $50,000 or 50 percent of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

2. Summary of Significant Accounting Principles and Policies:

The Plan's financial statements have been prepared in conformity with generally accepted accounting principles. A summary of the significant accounting principles and policies used by the Plan are as follows:

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Valuation of Investments and Income Recognition

The Plan invests participants' account balances at the direction of the participant in any mutual funds administered by the Principal Financial Group ("Principal"). These investments are valued at the net asset value reported by the fund managers. Fair values of the underlying investments are based upon the latest published market quotations. Participant loans are valued at cost, which approximates fair value.

Use of Estimates

The preparation of the Plan's financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for plan benefits at the date of the financial statements and the changes in net assets available for plan benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recognized on the accrual date. Dividends are recorded on the ex-dividend dates.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation (depreciation) in fair market value of investments for such investments.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Risks and Uncertainties

The Plan provides for various investments in stocks, bonds and money markets which are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those

changes could materially affect participants' account balances and the amounts in the statement of net assets available for plan benefits.

3. Investments:

The following presents investments that represent 5% or more of the Plan's net assets:

	2013		2012	
Dreyfus S&P 500 Index	$ 847,121	15.4%	$ 841,805	17.4%

	$3,534,681	64.3%	$3,324,368	68.8%

4. Information Certified by Trustee:

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under the Employee Retirement Security Act of 1974. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Mid Atlantic Trust Company, the trustee of the Plan, as complete and accurate, except for comparing such information certified by the custodian to information included in the plan's financial statements and supplemental statements.

- All investments reflected on the accompanying statements of assets available for plan benefits as of December 31, 2013 and 2012 and the supplemental Schedule H, Line 4i – Schedule of Assets Held for Investment Purposes, as of December 31, 2013 except for accounts receivable;
- The following investment income (loss) certified by the custodian for the year ended December 31, 2013;

Dividends and interest	186,464
Net appreciation of fair value of investments	705,366
Administrative fees	(5,333)

5. **Plan Termination:**

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate its participation in the Plan, subject to the provisions of ERISA. In the event of a Plan termination, participants will become 100% vested in their account balance.

6. **Fair Value Measurements:**

FASB statement No. 157, *Fair Value Measurements*, established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Statement No. 157 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in the active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

These methodologies may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The investments of the Plan were valued utilizing level 1 methodologies. There have been no changes in the methodologies used at December 31, 2013 and 2012.

7. Tax Status:

The Plan has adopted a prototype plan sponsored by Ceridian Retirement Plan Services. Ceridian Retirement Plan Services received an opinion letter from the Internal Revenue Service dated March 31, 2008, which states that the prototype plan is designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the plan's management believes that the Plan is designed and is currently operating in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statement.
