NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES:

Date of Management Review

Subsequent events were evaluated through September 20, 2010, which is the date the financial statements were available to be issued.

The following accounting policies, which conform with generally accepted accounting principles, have been used consistently in the preparation of the Plan's financial statements:

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Valuation of Investments

The investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (See Note 3).

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

Years Ended December 31, 2009 and 2008

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (CONT'D):

Administrative Expenses

Certain administrative expenses are paid by the Plan. Others are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Payments of Benefits

Benefits are recorded when paid.

NOTE 3 – FAIR VALUE MEASUREMENTS:

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

	<u>Fair Value</u>	<u>Level 1</u>
<u>December 31, 2009</u>		
Mutual Funds	\$ 8,930,277	\$ 8,930,277

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. For Level 1, the fair value of funds is based on quoted net asset values of the shares held by the Plan at year end.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES:

Date of Management Review

Subsequent events were evaluated through September 20, 2010, which is the date the financial statements were available to be issued.

The following accounting policies, which conform with generally accepted accounting principles, have been used consistently in the preparation of the Plan's financial statements:

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Valuation of Investments

The investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (See Note 3).

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

Years Ended December 31, 2009 and 2008

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (CONT'D):

Administrative Expenses

Certain administrative expenses are paid by the Plan. Others are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Payments of Benefits

Benefits are recorded when paid.

NOTE 3 – FAIR VALUE MEASUREMENTS:

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

	<u>Fair Value</u>	<u>Level 1</u>
<u>December 31, 2009</u>		
Mutual Funds	\$ 8,930,277	\$ 8,930,277

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. For Level 1, the fair value of funds is based on quoted net asset values of the shares held by the Plan at year end.
