As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Frontier Trust Company and Principal Trust Company (f/k/a Principal Life Insurance Company), the trustee and custodian, respectively of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that Frontier Trust Company held the Plan's investment assets and executed investment transactions from July 1, 2013 to December 31, 2013 and that Principal Trust Company held the Plan's investment assets and executed investment transactions from January 1, 2012 to June 30, 2013. The plan administrator has obtained certification from the trustee and custodian as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the plan administrator by the trustee and custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee and custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Summary of Significant Accounting Policies

The Trillium 401(K) Plan ("Plan"), formerly known as the Trillium Trading, LLC 401(k) Plan, was adopted effective July 11, 1998. The prototype plan was restated on July 1, 2013, due to a reorganization of Trillium Trading, LLC. The reorganization resulted in the change in plan sponsor. The reorganization did not result in any changes to the Summary Plan Description and all participants of the plan remain the same.

Basis of Accounting

The financial statements of the Plan are prepared on an accrual basis. Under this method of accounting, contributions and investment income are recorded when earned, and expenses are recorded when incurred. All benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with the accrual basis of accounting requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. Units of Principal Financial Group's pooled separate accounts represent the net asset value of the units held by the Plan at year end, as supplied by Principal. The value per unit approximates the quoted share value of the underlying mutual fund.

Investment transactions are recorded on a trade date basis. Gains and losses on sale of investments are based on the average cost method. The net depreciation or appreciation in the value of investments in the accompanying statement of changes in net assets available for plan benefits includes the total change in unrealized gains (losses) of investments held at the year end plus realized gains (losses) on investments sold during the year.

Payment of Benefits

Benefits are recorded when paid.

2. Description of Plan

The following brief description of the Plan is provided for information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined contribution plan covering substantially all employees of Trillium Trading, LLC, Trillium Management, LLC and Trillium Labs, LLC (collectively the "Company"), and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility Requirements

An employee is eligible to participate in the Plan the day becoming eligible following three months of service with the Company and must have obtained 21 years of age.

Contributions
Participants may contribute up to a maximum amount as prescribed by the Internal Revenue Service, as defined in the Plan. Employer contributions to the Plan are at the discretion of the Plan sponsor and are not related to the profitability of the Company. Matching contributions are equal to 100 percent of the first 3 percent of pay, plus 50 percent of any pay over 3 percent, but not over 5 percent of pay. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts
Each participant's account is credited with the participant's contribution, the Company's contribution, and Plan earnings. Allocations are based on the participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately 100 percent vested in their deferred contribution and employer contribution accounts.

Payment of Benefits
Payments of benefits are made on termination of service, or termination due to death, disability or retirement. An employee may choose to have their benefits distributed to them in one of the following ways:

- In a lump-sum payment;
- On an installment basis with a minimum payment required beginning with the year the participant reaches age 70 ½.

Administrative Expenses
Administrative expenses incurred by the Plan are absorbed by the Plan Sponsor. However, participants are charged for loan and investment fees. In addition, certain investment related expenses have been offset with net investment income and are not readily determinable.

Notes Receivable from Participants
Participants may borrow from their fund accounts, the lesser of a maximum of $50,000 or 50 percent of their vested account balance. The notes receivable have a maximum term limit of five years. The notes receivable are secured by the balance in the participant's account and bear interest at a range of 4.25 to 5.25 percent, which is commensurate with local prevailing rates at the time of the loan as determined by the Plan administrator.

3. Information Prepared and Certified by the Trustee and Custodian (Unaudited)

During 2013, the Plan's investments appreciated as follows:

Net appreciation in fair value of registered investment companies	$ 699,148
Net appreciation in fair value of pooled separate accounts	264,522
	$ 963,670

Investment Contract with Insurance Company

The Plan had an investment contract with Principal Life Insurance Company ("Principal"). Principal maintains the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract was included in the financial statements at fair value in 2012, as reported to the Plan by the insurance company. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. However, there is a possible surrender charge when funds are withdrawn prior to their maturity. Thus the investment contracts are not considered to be benefit responsive. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 as reported in these financial statements was $50,249. The interest rate on these accounts range from .12% to 3.83% for 2012.

Fair Value Measurements
The Financial Accounting Standards Board established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access. Such inputs include quoted prices in active markets for identical assets or liabilities.

- Level 2 – Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

- Level 3 – Unobservable inputs that are supported by little or no market activity and that are financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant judgment or estimation.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the Plan's assets measured at fair value. There have been no changes in the methodologies used for periods presented in these financial statements.

Pooled separate accounts: Units held in pooled separate accounts are valued on the net asset value ("NAV") of the shares held by the Plan at year end, which is based on the unit prices quoted by the fund, representing the fair value of the underlying investments.
Investment contract with insurance company: Shares of the investment contract with insurance company are valued at contract value, which represents the unit value assigned to the fund based on the fund's guaranteed interest rate and approximates fair value.

Registered investment companies: Shares of registered investment companies are valued based on the quoted market prices that are available on an active market. These are priced daily.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table represents the Plan's fair value hierarchy for its financial assets measured at fair value on a recurring basis as of December 31, 2013:

	Level 1	Level 2	Level 3	Total

5. Party-in-Interest Transactions

Certain Plan investments were managed by Principal Trust Company from January 1, 2012 to June 30, 2013 and by Ascensus, Inc., an agent of Frontier Trust Company, from July 1, 2013 to December 31, 2013. Principal Trust Company was a custodian and Frontier Trust Company is a trustee as defined by the Plan. Therefore, these transactions qualify as party-in-interest transactions. Administrative fees paid to Principal Trust Company and Ascensus, Inc. for the year ended December 31, 2013 were $4,070 and $319, respectively.

6. Income Tax Status

The Plan adopted a prototype volume submitter profit sharing 401(k) plan. By letter dated March 31, 2008, the Internal Revenue Service has determined that the Prototype Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (“IRC”). Therefore, no provision for income taxes has been included in the Plan’s financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2013 there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010. In addition, there have been no tax related interest or penalties for periods presented in these financial statements.

7. Risks and Uncertainties

The Plan provides for investments in various securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

9. Subsequent Events

Subsequent events were evaluated through October 10, 2014, which is the date the financial statements were available to be issued. Based on that evaluation, the Plan has determined that, except for the following, no subsequent events have occurred that would require disclosure in the financial statements:

Effective February 28, 2014, the Plan was amended and participants are now entitled to request an in-service withdrawal from the Plan of that portion of their individual account attributable to matching contributions. In addition, participants who have not incurred a severance from employment are entitled to request a hardship distribution from the Plan of that portion of their individual account attributable to pre-tax elective deferrals and matching contributions.
