SUPHERB FARMS 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN:

The following description of the SupHerb Farms 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a. General:

The Plan is a defined contribution plan covering all eligible employees of SupHerb Farms (the Employer). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Trustees are responsible for oversight of the Plan, determine the appropriateness of the Plan's investment offerings and monitor investment performance.

b. Eligibility:

An employee of SupHerb Farms normally becomes eligible to participate in the Plan after completing ninety days of service with SupHerb Farms and after attaining age twenty-one. Each eligible employee becomes a participant in the Plan on the first day of each calendar month immediately following completion of all eligibility requirements. Employees covered under collective bargaining agreements and non-resident aliens are excluded from participation in the Plan.

c. Contributions:

Both Plan participants and the Employer make contributions to the Plan as follows:

Participants may make elective contributions to the Plan on a pre-tax basis up to the maximum allowable under Internal Revenue Service limits, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans, classified as rollover contributions. Participants direct the investment of all contributions into various investment options offered by the Plan.

The Employer may make a matching contribution, in an amount equal to a matching percentage deemed advisable, of the participant's salary reduction contributions for a Plan year.

Contributions are subject to certain IRS limitations.

1. DESCRIPTION OF PLAN, continued:

d. Participant accounts:

Each participant's account is credited with the participant's contributions, the Employer's contributions, an allocation of Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

e. Vesting:

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Employer's contributions plus earnings is based on years of service. A participant is fully vested after six years of credited service.

f. Notes receivable from participants:

Participants may borrow from their accounts a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50 percent of their non-forfeitable account balance. Loan terms, unless for the purchase of a principal residence, are not to exceed five years. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 6.25 percent at December 31, 2013 and 2012, respectively. Principal and interest is paid ratably through payroll deductions.

g. Payment of benefits:

On termination of service due to death, disability, retirement, or termination of service for other reasons, a participant may elect to receive a lump-sum amount equal to the amount of the value of the participant's vested interest in his or her account.

h. Forfeited accounts:

At December 31, 2013 and 2012, forfeited non-vested accounts totaled $0 and $2,782, respectively. These accounts will be used to pay administrative expenses or to reduce future Employer contributions. Also, Employer contributions were reduced by $3,395 and $2,764 from forfeited non-vested accounts in 2013 and 2012, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

a. Accounting basis:

The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. For these contracts, most participant transactions are executed using contract value without adjustment. The Plan has determined that with regard to the contract, fair value approximates contract value.

b. Use of estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

c. Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the Custodian of the Plan. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

d. Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

e. Payment of benefits:

Benefits are recorded when paid.

f. Expenses:

The Plan's expenses are paid either by the Plan or the Employer, as provided by the plan document. Expenses that are paid directly by the Employer are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

g. Reclassifications:

Certain accounts in the prior-year financial statements have been reclassified for comparative purposes to conform with the presentation in the current-year financial statements.

h. Subsequent events:

The Plan has evaluated subsequent events through October 3, 2014, the date on which the financial statements were available to be issued.

3. INVESTMENTS:

The Plan provides that contributions to the Plan will be invested in certain individual programs of Transamerica at December 31, 2013 and 2012 as directed by participants. Participants may change their investment options as desired.

For the Plan years ended December 31, 2013 and 2012, the financial information included in the Plan financial statements, except for contributions and distributions for withdrawals and terminations, has been obtained or derived from information certified as complete and accurate by Transamerica.

The fair value of individual investments that represent 5 percent or more of the Plan's net assets at December 31 are as follows:

	2013	2012
M&N Pro-Mix Conservative Term	$ 413,045*	$ 811,192
M&N Pro-Mix Moderate Term	1,463,717	792,031
M&N Pro-Mix Extended Term	2,853,888	2,449,191

* Does not represent 5 percent of the Plan's net assets.

4. GROUP ANNUITY CONTRACT WITH TRANSAMERICA LIFE INSURANCE COMPANY:

The Plan is invested in a fully benefit-responsive group annuity contract with Transamerica Life Insurance Company. Transamerica Life Insurance Company maintains the contributions in a general account. The account is credited with interest based on its beginning daily balance, at a rate of interest, which is the daily equivalent of the effective annual rate of interest applicable, and charged for participant withdrawals and administrative expenses. The group annuity contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the group annuity contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the group annuity contract. Contract value, as reported to the Plan by Transamerica Life Insurance Company, represents contributions made under the contract, plus interest, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. As described in Note 2.a., the Plan has determined that with regard to the contracts, fair value approximates contract value.

4. GROUP ANNUITY CONTRACT WITH TRANSAMERICA INSURANCE COMPANY, continued:

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $185,788 and $171,901, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Under the terms of the existing contract, the crediting rate is currently reset on a semiannual basis.

Pursuant to the terms of the group annuity contract, the insurance company has the right to discontinue the contract in the event certain conditions apply. Should the contract be discontinued, the insurance company has the right to delay payment or transfer of the value of the contract for a range of 90 to 270 days, dependent on performance of the stated index, as defined in the contract.

Participants may elect to transfer all or part of the funds maintained under the group annuity contract to any other investment account maintained under the contract, except for any competing fixed fund, without incurring any contract changes or penalties.

The average yields earned by the group annuity contract are as follows:

Average Yields	2013	2012
Based on actual earnings	.79%	1.05%
Based on interest rate credited to participants	.80%	1.07%

5. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under current accounting standards are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;

5. FAIR VALUE MEASUREMENTS, continued:

- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Group annuity contract: Valued at fair value by summing the beginning balance of the Stable Value Fund, plus any deposits and credited interest, less any withdrawals, charges or expenses.

Pooled separate accounts: The value of each of the separate accounts on each valuation date equals the market value of all the assets. Securities listed on a national securities exchange are valued at the sale price as of the close of trading on the New York Stock Exchange. If no sale was made, securities will be valued at the price set by either a broker or pricing service. Over-the-counter securities are valued at the latest bid price or other ascertainable market value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. FAIR VALUE MEASUREMENTS, continued:

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value for the years ended December 31, 2013 and 2012:

6. EXCESS CONTRIBUTIONS:

Participant contributions received for 2013 and 2012 are net of payments of $7,034 and $28,463 made in February 2014 and 2013, respectively, to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. Those amounts are also included in the Plan's statement of net assets available for benefits as excess contributions payable at December 31, 2013 and 2012.

7. PLAN EXPENSES:

Effective, January 1, 2012, an amendment to the Application and Agreement for Services between Transamerica and the Employer was made to address the way costs and expenses incurred in the administration of the Plan are paid. Transamerica receives certain revenue sharing payments from the investment options available in the Plan. Under the amendment, Transamerica will credit to an Expense Budget Account a specified amount in relation to the total plan assets under contract. These credits are then used to offset additional costs of administering the Plan (i.e. fiduciary service fees and other eligible plan expenses). The amount of the credit to the Expense Budget Account in 2013 and 2012 was $11,048 and $9,621 respectively. The amount available for payment of eligible plan expenses at December 31, 2013 and 2012 is $6,290 and $8,250 respectively. The amount used to offset plan expenses during 2013 and 2012 was $13,009 and $1,372 respectively.

8. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become one hundred percent vested in their Employer contributions.

9. TAX STATUS:

The Internal Revenue Service has issued an opinion and informed the Employer by a letter dated March 31, 2008 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. They believe that the Plan is qualified and the related trust is tax-exempt and, therefore, no provision for income taxes has been included in the Plan's financial statements.

9. TAX STATUS, continued:

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500:

The following is a reconciliation of participant contributions per the financial statements to the Form 5500 as of December 31, 2013:

Corrective distributions that were attributable to the 2013 and 2012 plan years reduced participant contributions per the financial statements.

11. PARTY-IN-INTEREST TRANSACTIONS:

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such employer or employee association or relatives of such person.

Certain Plan investments are shares in funds managed by a party-in-interest, the Plan's Custodian. At December 31, 2013 and 2012, the Plan had investments in related funds of $8,745,271 and $7,212,235, respectively. Fees inccured by the Plan for investment management services are included in net appreciation in fair value of the investments. For other administrative fees, as described in Note 2.f., the Plan paid fees directly to the Custodian in the amount of $2,436 and $3,816 for the years ended December 31, 2013 and 2012, respectively.

During 2012, the Employer inadvertently delayed one deposit, comprised of certain participant contributions, to the Plan. This instance was corrected as soon as it was identified during 2012. As defined by ERISA, these contributions are considered nonexempt party-in interest transactions and may result in an imposition of a 15 percent excise tax on the amount of the transactions. The Employer compensated participants for lost interest resulting from the delay in contributions on or about September 9, 2013.

These nonexempt transactions do not affect the tax status determination of the Plan, and the Employer intends to pay all fines imposed, if any.

12. RISK AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
