To the Food 4 Less Salary Savings Plan and Participants:

Report on the Financial Statements

We were engaged to audit the financial statements of Food 4 Less Salary Savings Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Transamerica Life Insurance and Annuity Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and the supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2013 and 2012 and for the year ended December 31, 2013, that the information provided to the plan administrator by the trustee/custodian is complete and accurate.

Disclaimer of Opinion

Because the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules as listed in the accompanying index, which are the responsibility of plan management, are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee/custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following description of the Food 4 Less Salary Savings Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, which includes a salary reduction feature that meets the requirements of section 401(k) of the Internal Revenue Code. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The plan covers employees who have completed one year of service and are age twenty-one or older. Effective May 1, 2007, the Plan added the Roth 401(k) feature whereby the participant can make an after-tax Roth elective contribution in lieu of the pre-tax elective contribution otherwise eligible to make under the Plan.

Contributions

Each year, participants may contribute from 1% to 15% of pretax compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company contributes 50% of the first 6% of the participant's elective contribution not to exceed 3% of the participant's compensation. Additional amounts may be contributed at the option of the Company's board of directors. No discretionary contributions were made in the year ended December 31, 2013. The employer matching amounts for 2013 was $1,418,096. Contributions are subject to certain Internal Revenue Code (IRC) limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service. Total nonforfeitable vested balances for 2013 is $69,615,644.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions in 1% increments in any of the twenty-six investment options. Participants may change their investment options daily online or through a toll free telephone call to the Plan custodian.

Notes Receivable from Participants

Participants may borrow from their fund accounts up to a maximum of the lesser of $50,000 or 50% of their nonforfeitable account balance with a minimum loan of $1,000. Loan transactions are treated as transfer to (from) the investment fund from (to) the Participant Note fund. Loan terms range from 1 to 5 years except in limited circumstances, such as the purchase of a primary residence. The loans are secured by the nonforfeitable balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Administrative Committee. The interest rate on current loans outstanding is 4.25% to 9.25%. Principal and interest is paid ratably through bi-weekly payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or an immediate or deferred nontransferable annuity to provide fixed or variable income. For termination of services due to other reasons, a participant will automatically receive the value of the vested interest in his or her account as a lump-sum distribution provided the amount does not exceed $3,500. If the participant's vested interest exceeds the $3,500, he or she may elect to receive the termination benefit as of any valuation date following the date of termination, or the date he or she elects to commence payments and which is prior to his or her normal retirement date.

Forfeited Accounts

Monies forfeited by the participants in the Plan on termination of employment with the Company, prior to attaining 100% vesting in the employer nonelective contributions and employer matching contributions are used to reduce the employer contribution for current and future years. At December 31, 2013, forfeited nonvested accounts totaled $91,802. This amount will be used to reduce future employer contributions.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit responsive investment contracts from fair value to contract value.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Participant notes receivable are valued at cost, which approximates fair value. See Note 5 for discussion of fair value measurement.

The net aggregate change in fair value for the Plan year is presented in the statement of changes in net assets available for plan benefits as net appreciation (depreciation) in the fair value of investments. This amount includes the realized gain or loss on sale of investments which is the difference between the proceeds received and the average cost of the investments sold.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates.

Date of Management's Review

Subsequent events were evaluated through October 10, 2014, which is the date the financial statements were available to be issued.

Note 5 - Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to assess.

Level 2

Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts investing in mutual funds or equity securities are measured using quoted prices in active markets for identical assets.

Pooled separate accounts directly investing in fixed maturity securities are measured based on pricing data provided by outside valuation service providers who in turn generally use the mean of bid and ask prices but may also use alternative observable pricing input for certain securities.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2013 and 2012:

Fair Value Measurements Using				
	Fair Value	Level 1	Level 2	Level 3
December 31, 2013				
Transamerica investment accounts	$ 69,108,520	$ 31,914,290	$ 37,194,230	$ -

Fair Value Measurements Using				
	Fair Value	Level 1	Level 2	Level 3
December 31, 2012				
Transamerica investment accounts	$ 55,047,609	$ 23,108,005	$ 31,939,604	$ -

Note 6 - Investment Contract with Insurance Company

On August 1, 1996, the Plan entered into an annuity accumulation contract with Transamerica Life Insurance and Annuity Company (Transamerica). Transamerica maintains the contributions from the employees and employer in investment options directed by each participant. The accounts are credited with earnings on the underlying investments and charged for plan withdrawals and administrative expenses charged by Transamerica. The contract is included in the financial statements at fair value as reported to the Plan by Transamerica. Fair value represents contributions made under the contract, plus earnings, less plan withdrawals and administrative expenses.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8 - Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated February 18, 2009, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the determination letter, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 9 - Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
