Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditors' Report

To the Trustees of the
Stull Technologies Employees'
Pension Plan
Somerset, New Jersey

We were engaged to audit the accompanying statement of net assets available for benefits of Stull Technologies Employees' Pension Plan (the "Plan") as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year then ended December 31, 2009, and the supplemental schedules of assets held for investment purposes and reportable transactions for the year ended December 31, 2009. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Mass Mutual Financial Group, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and the supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2009 and 2008, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information in the financial statements that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008

Note 1 - Description of Plan

The following brief description of the Stull Technologies Employees Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan, which became effective on May 1, 1977, and subsequently, restated as of November 1, 1995, is a defined benefit pension plan covering substantially all employees of Stull Technologies, Inc. (the "Company"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). On December 14, 1999 the plan was amended to freeze all benefits effective December 31, 1999.

Eligibility

Substantially all full-time non-union employees were considered eligible to participate in the Plan after they have completed at least one year of service, as defined in the plan document, and are at least age 21. The Plan does not require contributions from employees in the Plan.

Payment of Benefits

Normal Monthly Retirement Benefits

The annual pension benefit is available at the normal retirement age of 65 for participants employed; as of February 1, 1994 is the sum of:

(i) 1.2 percent of a participant's average monthly compensation, as defined, for each year of service, and
(ii) .65 percent of a participant's average monthly compensation in excess of one-twelfth of the social security wage base in effect at the beginning of the plan year for each year of service (up to maximum of 35 years).

Those participants who were employed prior to February 1, 1994 shall receive 1 percent of their average monthly compensation for each year of service, plus the sum of 1% of the participant's average monthly compensation in excess of one-twelfth of the social security wage base in effect at the beginning of the plan year for each year of service.

Early Retirement Benefit

A participant may elect the early retirement payment option on the first day of the month after age 55 if five years of credited services have been completed. The benefit reduced by one fifteenth for each of the first five years and one-thirtieth of the next five years preceding retirement.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008
(Continued)

Note 1 - Description of Plan (Cont'd)

Late Retirement Benefit

A participant may remain employed beyond his normal retirement date. The retirement benefit will be calculated in the same manner as the normal retirement benefit except that the later retirement date is utilized.

Vesting

A participant has 100 percent vested benefits after five years of credited services, as defined.

Death and Disability Benefits

If an active participant dies prior to becoming vested, no death benefit is payable. If a married vested participant dies prior to commencement of his or her pension benefit, a qualified survivor benefit will automatically be payable to his or her spouse.

The survivor benefits equals the actuarial equivalent of the participants' accrued benefit, as defined, which the employee would have received had the employee retired the day before the employee died.

Funding Policy

The Sponsor's funding policy is to make annual contributions to the Plan to satisfy the minimum funding standard as defined under ERISA. The Sponsor's contributions for 2009 met the minimum funding requirements of ERISA.

Plan Termination

Under the provision of ERISA the Sponsor can terminate the Plan at anytime. On June 21, 2010 the Sponsor determined that it would terminate the Plan in 2010. The estimated termination liability as of January 1, 2010 is $3,696,907. When the Plan is terminated, the net assets of the Plan will be allocated to provide the following benefits in the order indicated:

(a) Benefits to that portion of the participant's accrued benefit, which is derived from the participant's contributions made to the Plan, if any.

(b) Equally among individuals in the following two categories:

  (i) Benefits to retired participants and their beneficiaries to whom payment commenced at least three years prior to the termination date;
  (ii) Benefits to participants wherein payment would have commenced at least three years prior to the termination date if such participants had actually retired;

(c) All benefits guaranteed and insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. Government agency);

(d) All other vested accrued benefits not insured by the Pension Benefit Guaranty Corporation;

(e) All other accrued benefits provided under the Plan.

Note 1 - Description of Plan (Cont'd)

Plan Termination (Cont'd)

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (the "PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed by the PBGC at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Valuation of Investments and Income Recognition

Investments are stated at approximate current market value. Investment transactions are recorded on a trade date basis. Gains and losses on sale of investments are based on the average cost method. The net depreciation or appreciation in the value of investments in the accompanying statement of changes in net assets available for benefits includes the total change in unrealized gains (losses) investments held at the year end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Note 2 - Summary of Significant Accounting Policies (cont'd)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits information of the Plan as of December 31, 2009 and 2008, are as follows:

	2009	2008
Actuarial present value of accumulated plan benefits:		
Vested benefits	$ 3,231,312	$ 2,455,325
Total actuarial present value of accumulated plan benefits	$ 3,231,312	$ 2,455,325

The following is a summary of the changes in the actuarial present value of accumulated plan benefits for the year ended December 31, 2009:

Actuarial present value of accumulated plan benefits at 12/31/2008	$ 2,455,325
Increase (decrease) during the year attributable to:	
Benefits paid	(335,036)
Passage of Time	178,011
Change in actuarial assumptions	933,012
Actuarial present value of accumulated plan benefits at 12/31/2009	$ 3,231,312

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances, retirement, death, disability and termination of employment, are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by Altigro Pension Services, Inc. and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

STULL TECHNOLOGIES EMPLOYEES' PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008
(Continued)

Note 2 - Summary of Significant Accounting Policies (cont'd)

Actuarial Present Value of Accumulated Plan Benefits (cont'd)

The significant actuarial assumptions used in the valuations as of December 31, 2009 and 2008 were (a) life expectancy of participants (the 1971 Group Annuity Mortality Table was used), (b) retirement age assumptions (the assumed average retirement age was 65), and (c) investment return. The 2009 and 2008 valuations included assumed average rates of return of 7 percent. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. When the Plan terminates, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Income Tax Status and Plan Amendment

The Plan obtained its latest determination letter in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Company believes the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies under Section 401(a) and the related trust is tax-exempt as of December 31, 2009, respectively. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Administrative Expenses

All significant expenses incurred in the administration of the Plan are paid by the Plan sponsor. Investment expenses are paid by plan assets.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Subsequent Events

The Plan has evaluated subsequent events through the date these financial statements were available to be issued.

Note 3 - Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Money market: Valued at the quoted net asset values of the shares held by the Plan at year-end.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009.

	2009	2008
	Level 2	Level 2
