MEDICAL DEPOT, INC. 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2013

NOTE A - DESCRIPTION OF PLAN

The following description of the Medical Depot, Inc. ("the Company") 401(K) Profit Sharing Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of the company under Section 401(k) of the Internal Revenue Code ("IRC") of 1986, as amended. Employees are eligible to participate in the Plan upon completing three months service and attaining the age of 21. An employee may enter the Plan on the first day of the month coinciding with or following the date on which the employee meets the eligibility requirements. For a participant to receive employer contributions, they need to be employed on the last day of the plan year and complete more than 1000 hours of service.

The Plan is subject to the provisions of the Employer Retirement Income Security Act of 1974 (ERISA), as amended.

Employer Contributions

Each year the Company may make discretionary profit sharing contributions to the Plan at the option of the Company's board of directors. There was no discretionary contribution for the year ended December 31, 2013.

Employee Contributions

Participants may contribute up to 70% of eligible compensation, as defined by the Plan, subject to the maximum dollar amount permitted under Section 401(k) of the IRC (designed to preclude discrimination in favor of highly compensated employees). Participants direct the investment of their contributions into options offered by the plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participants vested account.

NOTE A - DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after three years of credited service.

Notes Receivable From Participants

Participants may borrow from their fund accounts up to a maximum equal to the lesser of one half their vested account balance or $50,000. The loans are secured by the balance in the participants account and bear interest at prime plus one percent. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits

Participants' benefits are included in deductions from net assets during the period when vested members reach the normal retirement date and are paid, unless the participants continue in service after reaching the normal retirement date and postpone payment of accrued benefits until the deferred retirement date or otherwise terminate employment. The payment occurs no later than 60 days after the Plan year following the Plan year in which the participants separate themselves from service.

The normal retirement date under the Plan is 65. When the participant reaches the normal retirement date, he or she is entitled to the value of his accrued benefits as of the day of the month coinciding with or next following his or her attainment of normal retirement age.

Prior to termination of service, participants who have attained age 59-1/2 may withdraw all or any portion of the value of salary reduction contributions and vested Company contributions made of their behalf.

On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, a different form of annuity or in installments over a period of time not more than the participant's or beneficiary's life expectancy determined at time of distribution. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

NOTE A - DESCRIPTION OF PLAN (CONTINUED)

Forfeited Accounts

The forfeiture account is comprised of amounts formerly allocated to individual accounts of participants upon the participant's separation of service. The forfeited amount is the nonvested portion of the employer contribution. The forfeited nonvested accounts totaled $10,133 and $236 for the years ended December 31, 2013 and 2012, respectively.

Hardship Withdrawals

A participant may request a withdrawal from their accounts in the event of financial hardship. The Administrator requires a participant requesting a hardship withdrawal to demonstrate an immediate and heavy financial hardship which cannot be reasonably satisfied from other resources available to the participant. Such hardship withdrawals are limited to the value of the participant's Elective Deferral, Roth Elective Deferral and Rollover Contribution accounts. For purposes of the Plan, financial hardship may include uninsured medical expenses, the purchase of a primary residence or prevention of eviction or foreclosure, specified educational expenses, primary residence repairs after casualty losses or funeral expenses.

Operating Expenses

All expenses of the Plan are paid by the Company, at its option, with the exception of loan fees which are borne by the participants.

Investment Earnings

Investment earnings, consisting of interest, dividends and net appreciation in value, are allocated among all of the participants based on a specified formula as defined within the Plan document.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on an accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date, and interest income is accrued as earned. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Risks and Uncertainties

The Plan invests in various investments securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits and Statements of Changes in Net Assets Available for Benefits. The Company manages the Plan's credit risk by offering participants diversified investment options.

NOTE C – INVESTMENTS

Participants directed investments, held in trust by John Hancock Life Insurance Company of New York, are combined with the investment portfolios of defined contribution plans of other companies. Interest and dividend income are allocated to the various plans included in the trust on a monthly basis, based on the ratio of each plan's fair value to total trust fair value.

The following presents investments that represent 5% or more of the Plan's assets at December 31, 2013 and 2012.

	2013	2012
Retirement Choices at 2045	$ 544,453	$ 419,519
Retirement Choices at 2040	596,270	430,691
Retirement Choices at 2035	699,988	514,726
Retirement Choices at 2030	927,639	696,669
Retirement Choices at 2025	**	282,173
Retirement Choices at 2015	**	265,972
Retirement Living Through 2040	501,913	393,154
Retirement Living Through 2035	908,881	697,062

** Did not meet the 5% criteria at respective financial statement date.

During 2013, the Plan's Investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $854,978.

NOTE D – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Account Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE D – FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2013 and 2012.

Pooled Separate Accounts – Pooled separate accounts ("PSA") are made up of a wide variety of underlying investments such as equities, bonds, and mutual funds. The fair value of a pooled separate account is based on the market value of its underlying investments (level 2 inputs) and is not a publicly-quoted price in an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D – FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2013:

	Assets at Fair Value as of December 31, 2013

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, Medical Depot, Inc. has the right under the plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan terminated, the interests of the participants would continue to be fully vested and nonforfeitable. In addition, in the event of Plan termination, participants became 100 percent vested in Company contributions.

NOTE G - TAX STATUS

The Internal Revenue Service has determined and informed the Company that the Prototype Standardized 401(K) Profit Sharing Plan with CODA and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

NOTE H – INFORMATION CERTIFIED BY THE TRUSTEE

As permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Trustee has provided the Plan Administrator with certification as to the accuracy and completeness of the fair value of Plan investments at December 31, 2013 and the related interest income, dividends and net appreciation in the fair value of investments for the year ended December 31, 2013, as presented in the accompanying financial statements and Schedule H, Line 4i – Schedule of Assets (Held at Year End).

NOTE I – PARTY-IN-INTERST TRANSACTIONS

For the years ended December 31, 2013 and 2012, the Plan assets include investments in funds managed by John Hancock, who acts as the Plan trustee and custodian. Therefore, these transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rules under ERISA.

NOTE J – EXCESS PARTICIPANT CONTRIBUTIONS PAYABLE

The Plan failed its discrimination test for the years ended December 31, 2013 and 2012. Excess contributions amounting to $148,610 and $61,487, respectively, were recorded as a liability in the accompanying statements of net assets available for benefits.

NOTE K - PLAN TRANSFERS

In November 2012, the plan assets of the INOVO, Inc. 401(k) Plan were merged into the Plan. Net assets of $106,896 were transferred to the Plan on November 8, 2012.

NOTE L – RECONCILIATION TO FORM 5500

The difference between the information reported in the financial statements and the information reported in the Form 5500 arise from the adjustment of investment contracts from fair value to contract value in accordance with the ASC 962.
