Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note H, which was certified by the State Street Bank and Trust Company, the Trustee of the plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that State Street Bank and Trust Company holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the Trustee as of and for the years ended December 31, 2013 that the information provided to the plan administrator by the trustee is complete and accurate.

Their report, dated October 1, 2013, indicated that (a) because of the significance of the information that they did not audit, they were unable to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the Trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Plan Merger

Effective December 31, 2012, the Plan was amended to document the merger of the LEGOLAND California, LLC 401(k) Plan into the Merlin Entertainments Group US, LLC 401(k) Plan effective as of January 1, 2013. The amount was recorded as a receivable in the amount of $14,295,755 with a corresponding increase in additions to net assets for the year ended December 31, 2012.

The Board of Directors of the Company, a controlling party of LEGOLAND California, LLC approved the merger of the plans. The Plan administrator determined the effective date of the transfer to be December 31, 2012.

Contributions

Each year, participants are able to contribute pre-tax compensation, as defined in the Plan. Effective October 1, 2013 the Plan was amended to allow participants to designate all or any portion of their elective deferral contributions as Roth elective deferral contributions, subject to certain annual limitation established by the Internal Revenue Service, as defined in the Plan. Participants are also able to contribute amounts representing distributions from other qualified retirement plans.

A. DESCRIPTION OF PLAN (CONTINUED)

Contributions (Continued)

The Company adopted a new safe harbor match as of July 1, 2012. The Company matches participant contributions, within prescribed limits, as determined on an annual basis. The Company match is 100% of the first 3% and 50% of the next 2% of compensation that a participant contributes to the Plan for the years ended December 31, 2013 and 2012. The Company match is 100% of the first 6% for those employed by certain Company divisions prior to the implementation of the new safe harbor match. The Company could also make discretionary contributions. No discretionary contributions were made during the years ended December 31, 2013 and 2012. Employer matching contributions totaled $1,196,052 for the year ended December 31, 2013.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' non-vested accounts are first allocated to Plan expenses and then used to reduce future employer contributions. The Plan used $11,307 of forfeitures to pay Plan expenses during the year ended December 31, 2013. There was $30,266 available to pay Plan expenses or to reduce future employer contributions at December 31, 2013.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants are immediately vested in the safe harbor contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested after five years of service.

Payment of Benefits

Participants are eligible to receive a lump-sum distribution of benefits upon termination of employment, death, disability, retirement or Plan termination. Distributions are made for hardship withdrawals, which are authorized by the Plan administrator and conformed to the "deemed hardship" standards set forth in Treasury Regulation Section 1.401(k)(d)(2). Such hardship distributions are subject to certain limitations.

Notes Receivable from Participants

Participants can borrow a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Notes receivable terms range from one to five years unless the note is for the purchase of a participant's primary residence, in which case the repayment period cannot extend beyond ten years from the date of the loan. The notes are collateralized by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Interest rates

A. DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants (Continued)

ranged from 4.25% to 5.38% at December 31, 2013. Principal and interest was paid ratably through payroll deductions.

Investment Options

State Street Bank and Trust Company as Trustee ("Trustee" or "State Street") under a trust agreement hold the assets of the Plan, including all contributions and earnings thereon. Upon enrollment in the Plan, participants can direct contributions to a variety of investment options.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Risks and Uncertainties

Investments are exposed to various risks, such as interest rate, market fluctuation and credit. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term could materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Plan Expenses

The Company sponsors the Plan. Personnel within the Company perform various administrative services for the Plan. The payroll and related overhead costs associated with these services are not included as Plan expenses. Most administrative expenses of the Plan, including record keeping, consulting, investment, legal, and audit fees, are paid by the Company.

Accounting Estimates

The Plan administrator uses estimates and assumptions in preparing the Plan's financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported changes in net assets. Actual results could vary from the estimates that were used.

Investment Valuation and Income Recognition

The Plan's mutual fund investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurements date. See Note F for discussion of fair value measurements.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gain and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are valued at their unpaid principal balance plus accrued but unpaid interest. Delinquent notes are paid out as deemed distributions based on the terms of the Plan document.

Reclassification

Certain 2012 amounts have been reclassified to conform to the 2013 financial statement presentation. These reclassifications have no effect on previously reported net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

Date of Management's Review

The date to which events occurring after December 31, 2013, the date of the most recent statement of net assets available for benefits, have been evaluated for possible adjustment to the financial statements or disclosures is October 3, 2014, which is the date on which the financial statements were available to be issued.

C. PARTY-IN INTEREST

There were no party-in interest transactions between the Plan and State Street Bank and Trust Company, the trustee, other than payment of investment fees from the Plan assets for services rendered.

D. INCOME TAX STATUS

The Internal Revenue Service determined and informed State Street by a letter dated March 31, 2008 that the Prototype Plan was designed in accordance with applicable sections of the Internal Revenue Code (IRC).

The Plan was amended since receiving the determination letter; however, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, no provision for taxes has been included in the Plan's financial statements.

D. INCOME TAX STATUS (CONTINUED)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

E. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants would become 100% vested in their accounts.

F. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements), and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under this topic are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

F. FAIR VALUE MEASUREMENTS (CONTINUED)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2013 and 2012.

Mutual funds: Valued at a daily calculated net asset value ("NAV") and is traded at a quoted price through the National Securities Clearing Corporation.

Common collective trust: Daily NAV, not traded in an active market or exchange. No CUSIP or Ticker to access unit value. The investment is valued at a daily calculated unit value, which is an observable input.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level, with the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:
