INDEPENDENT AUDITORS' REPORT

To the Participants and Administrative Committee of the
Park West 401(k) Employee Retirement Plan
Rancho Santa Margarita, California

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Park West 401(k) Employee Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Capital Bank and Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2013 and 2012, that the information provided to the plan administrator by the trustee is complete and accurate.

INDEPENDENT AUDITORS' REPORT (CONTINUED)

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year), is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1: Description of the Plan

The following description of the Park West 401(k) Employee Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Effective September 1, 1996, Park West Landscape, Inc. and related companies (the "Company") adopted the Plan. The Plan is a defined contribution plan providing retirement benefits for substantially all full-time employees, excluding Union employees, of the Company who have 90 days of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code of 1986, as amended. The Plan was restated effective January 1, 2002, to incorporate changes required by ERISA, and was amended in March 2006 to comply with mandatory distribution requirements. On July 3, 2006, the Park West Landscape Maintenance 401(k) Plan was merged into the Plan.

Contributions

Participants may contribute up to the maximum allowed under the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Employer matching contributions may be made at the discretion of the Company's Board of Directors.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, if any, and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts, plus actual earnings thereon, is based on years of continuous service. A participant is vested at the rate of 20 percent each year after two years of service and is considered to be 100 percent vested after six years of credited service.

Note 1: Description of the Plan (Continued)

Benefit Payments

Upon termination of service due to death, disability, retirement, or for other reasons, the participant will receive a lump-sum distribution if the vested portion of the participant's account is $1,000, or less. If the vested portion is between $1,000 and $5,000, the participant may elect either a lump-sum distribution or transfer to a Capital Bank and Trust Company IRA account. If the vested portion of the participant's account is more than $5,000, the participant may elect either a lump-sum distribution or installment payments, as defined in the Plan document.

Forfeitures

Forfeitures of the participants' non-vested portion of the Company's contributions may be used to pay the Plan's expenses or to reduce future employer contributions. At December 31, 2013 and 2012, balances in the forfeiture accounts approximated $4,200 and $7,100, including current year forfeitures of approximately $2,700 and $6,600, respectively. Forfeiture amounts reallocated to participant accounts as an employer match approximated $5,670 and $14,730, for the years ended December 31, 2013 and 2012, respectively.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. The majority of administrative expenses incurred by the Plan are absorbed by the Company.

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation (depreciation) in fair values of investments.

Note 2: Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Note 2: Summary of Significant Accounting Policies (Continued)

Basis of Accounting (Continued)

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The financial statements have not been adjusted to represent the contract value at December 31, 2013 and 2012, as the contract value of the fully benefit-responsive contracts approximated fair value. (See Note 6).

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value as of December 31, 2013 and 2012. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 13 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are accrued on the ex-dividend date. Capital gains and/or losses are reported the day after the trade date.

Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits in net realized and unrealized gains (losses) by each major investment type.

Brokerage fees are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The process of preparing financial statements in accordance with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and gains, and expenses and losses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Note 3: Concentrations, Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 4: Information Prepared and Certified by Capital Bank and Trust Company

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustee of the Plan.

	December 31, 2013	December 31, 2012
Investments, at Fair Value:		
Registered Investment Companies	$ 5,956,910	$ 5,063,821
Stable Value Fund	812,467	638,240

Certain information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2013 and 2012, and net appreciation in fair value of investments, and interest and dividends for the year ended December 31, 2013, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Capital Bank and Trust Company.

Note 5: Investments

The following table presents investments that represent 5 percent or more of the Plan's net assets:

	December 31, 2013	December 31, 2012
Registered Investment Companies:		
Federated Mid Cap Index Service	604,960	407,401
American Funds Fundamental Investors Fund R2	523,125	419,418
PIMCO Total Return Fund - A	698,082	991,668
American Funds 2025 Target Date Fund R2	852,686	690,365
American Funds AMCAP Fund R2	1,114,567	889,148
INVESCO Stable Value Fund	812,467	638,240

Note 6: Stable Value Fund

The INVESCO Stable Value Fund, also known as the INVESCO Stable Value Trust (the "Fund"), is a collective trust established by Invesco National Trust Company. The Fund's primary investment objectives are to provide preservation of principal, maintain a stable interest rate, and provide daily liquidity at contract value for participant withdrawals and transfers.

The Fund holds synthetic guaranteed investment contracts ("synthetic GICs"). Synthetic GICs are portfolios of securities (debt securities or units of collective trusts) owned by the Fund with wrap contracts associated with the portfolios. The Fund may also invest in traditional guaranteed investment contracts ("traditional GICs"). GICs are backed by the general account of the issuer. The Fund deposits a lump sum with the issuer and receives a guaranteed interest rate for a specified time. Interest is accrued on either a simple interest or fully compounded basis and paid either periodically or at the end of the contract term. The issuer guarantees that all qualified participant withdrawals, as defined, will occur at contract value (principal plus accrued interest). GICs generally do not permit issuers to terminate the agreement prior to the scheduled maturity date.

Investments in GICs are stated at contract value which is equal to the principal balance plus accrued interest. An investment contract is generally valued at contract value rather than fair value, to the extent it is fully benefit-responsive and held by a trust offered only to qualified employer-sponsored defined contribution plans. Investment contracts that do not meet the criteria for valuation at contract value are valued at fair value as determined by the trustee, and such value may be more or less than contract value. As stated in Note 2, the contract value approximated fair value as of December 31, 2013 and 2012.

Security transactions are accounted for on the trade date. The cost of investments sold is computed on the specific identification basis. The crediting rate on the wrap contracts is accrued daily under the Fund's wrap contracts and is the product of the contract value of the wrap contracts multiplied by the crediting rate as determined pursuant to the wrap agreements. Interest income is recorded on the accrual basis.

The key factors that influence future interest crediting rates for a wrapper contract include the level of market interest rates; the amount and timing of participant contributions, transfers, and withdrawals into/out of the wrapper contract; and the investment returns and duration of the underlying fixed income investments that back the wrapper contract. Wrapper contracts' interest crediting rates are typically reset on a monthly or quarterly basis according to each contract. The average yield earned by the Fund, as well as credited to participants, for the years ended December 31, 2013 and 2012 was approximately 0.59 percent and 0.88 percent, respectively.

Note 6: Stable Value Fund (Continued)

In certain circumstances, the amount withdrawn from the wrap contract would be payable at fair value rather than at contract value. These events include termination of the Plan, a material adverse change to the provisions of the Plan, the employer elects to withdraw from a wrap contract in order to switch to a different investment provider, or if the terms of a successor plan (in the event of the spin-off or sale of a division) do not meet the wrap contract issuer's underwriting criteria for issuance of a clone wrap contract. The Fund's management believes it is not probable that such events would be of sufficient magnitude to limit the ability of the Fund to transact at contract value with the participants in the Fund.

Issuers may terminate a wrap contract upon short notice under certain circumstances which include the Plan's loss of its qualified status, material breaches of responsibilities which are not cured, or material and adverse changes to the provisions of the Plan. If one of these events was to occur, the wrap contract issuer could terminate the wrap contract at the market value of the underlying investments (or in the case of a traditional GIC, at the hypothetical market value based upon a contractual formula).

Note 7: Excess Contributions Payable

ERISA requires the Plan to satisfy certain nondiscrimination provisions. For the years ended December 31, 2013 and 2012, the Plan is required to return some contributions in order to satisfy these provisions. At December 31, 2013 and 2012, the contributions payable are $10,586 and $19,269.

Note 8: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, all participants would become fully vested in their accounts.

Note 9: Withdrawn Participants

At December 31, 2013 and 2012, there were no amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not been paid.

Note 10: Tax Status

The Plan is based on the Prototype Non-Standardized Profit Sharing Plan with CODA of American Funds Distributors, Inc. (subsidiary of Capital Bank and Trust Company, the trustee of the Plan), which received a determination letter from the Internal Revenue Service ("IRS") dated March 31, 2008, stating that the Prototype Plan was designed in accordance with the provisions of the Internal Revenue Code ("IRC"). The Plan has not yet filed for its own determination letter from the IRS.

Note 10: Tax Status (Continued)

The Plan has subsequently been amended, however, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The related trust, therefore, is not subject to tax under present income tax law.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 11: Fidelity Bond

ERISA requires that the Plan be covered by a fidelity bond. The amount of the bond must be equal to the lesser of 10 percent of the funds handled at the beginning of the year or $500,000. As of January 1, 2013, the Plan met the minimum bonding requirement.

Note 12: Parties-in Interest

Certain investments in registered investment companies are managed by American Funds. American Funds is an affiliate of Capital Bank and Trust Company, the trustee of the Plan, and therefore, these investments qualify as party-in interest transactions.

Note 13: Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") No. 820, *"Fair Value Measurements and Disclosures"*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 13: Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Registered Investment Companies - The value of registered investment companies is determined by fair market value for each fund and is based upon quotations obtained from national securities exchanges and over-the-counter associations for the underlying investments in the funds.

Stable Value Fund - The valuation is based on the fair values of the underlying investments based on issuer ratings determined by reference to credit ratings published by rating agencies. The techniques used by the fund to measure fair value of investments maximize the use of observable inputs and minimize the use of unobservable inputs. However, in situations where there is little, if any, market activity for the asset or liability at the measurement date, the fair value measurement reflects the funds own judgment about the assumptions that market participants would use in pricing the asset or liability. Those judgments are developed by the fund based on the best information available in the circumstances, including expected cash flows and appropriately risk-adjusted discount rates. Such information is obtained from the audited financial statements of the stable value fund at year end.

Note 13: Fair Value Measurements (Continued)

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets, measured on a recurring basis, at fair value as of December 31, 2013:

	Level 1	Level 2	Level 3	Total
Registered Investment Companies:				
Bonds	$ 698,082	$ -	$ -	$ 698,082

Note 13: Fair Value Measurements (Continued)

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013:

	Stable Value Fund
Balance, Beginning of Year	$ 638,240
Interest Income	4,763
Purchases	234,106
Settlements	(64,642)
Balance, End of Year	$ 812,467

There were no realized or unrealized gains for the Level 3 assets stated above that were included in the statement of changes in net assets available for benefits for the year ended December 31, 2013.

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs for the year ended December 31, 2013.

	Fair Value	Principal Valuation Technique	Significant Unobservable Inputs	Rate or Range of Rates	Weighted Average
Stable Value Fund	$812,467	* See Note	Interest Credit Rating	1.26%-1.45%	Y

* The valuation technique for the Stable Value Fund is based on issuer ratings determined by reference to credit ratings published by rating agencies, as well as on the best information available in the circumstances, including expected cash flows and appropriately risk-adjusted discount rates.

Note 14: Differences on Form 5500

The financial statements have been prepared on the accrual basis as required by accounting principles generally accepted in the United States of America. However, for the years ended December 31, 2013 and 2012, the Form 5500 to be filed with the Internal Revenue Service has been prepared on the cash basis.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2013	2012
Net Assets Available for Benefits per the Financial Statements	$ 6,784,175	$ 5,713,356
Less: Participant Contributions Receivable	(25,384)	(30,564)
Add: Excess Contributions Payable	10,586	19,269
Net Assets Available for Benefits per Form 5500	$ 6,769,377	$ 5,702,061

The following is a reconciliation of total contributions per the financial statements to the Form 5500:

	2013
Total Contributions per the Financial Statements	$ 312,203
Add: Prior Year Participant Contributions Receivable	30,564
Less: Current Year Participant Contributions Receivable	(25,384)
Total Contributions per the Form 5500	$ 317,383

The following is a reconciliation of deductions from net assets per the financial statements to the Form 5500:

	2013
Deductions from Net Assets per the Financial Statements	$ 397,045
Add: Prior Year Excess Contributions Payable	19,269
Less: Current Year Excess Contributions Payable	(10,586)
Total Deductions from Net Assets per the Form 5500	$ 405,728

Note 15: Subsequent Events

Events occurring after December 31, 2013, have been evaluated for possible adjustment to the financial statements or disclosure as of October 9, 2014, which is the date the financial statements were available to be issued.
