NOTE 1--DESCRIPTION OF PLAN

The following description of the National Football League Capital Accumulation Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General : The Plan, which was adopted on April 1, 1987, is a defined contribution plan covering substantially all employees, other than players, of the Chargers Football Company (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The authority to control and manage the operation and administration of the Plan ultimately lies with the National Football League Capital Accumulation Plan Administration Committee.

The Plan's investment assets, other than assets held in the PNC Bank EBP J Short Term Income Fund, are included in the National Football League Reciprocal Trust, a common/collective trust (CCT), which was established and is maintained for the collective investment of contributions by plans of the National Football League member clubs and other league entities. The assets of the CCT are maintained by the Trustee. The CCT has several investment funds where participants may direct their account balances.

Contributions : Participant salary reduction contributions: Participants may contribute up to 100% of pretax annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Such contributions are 100% vested and non-forfeitable. Participant contributions are subject to certain limitations.

Employer matching contributions: The Company makes matching contributions of 50% of each participant's contribution up to 2.5% of the participant's compensation. These contributions are subject to overall employer contribution limits and additions to individual participant account limits. Participants are immediately 100% vested in Company matching contributions.

Participant rollover contributions: The Plan allows participants to make rollover contributions from a qualified plan. Such contributions are 100% vested and nonforfeitable.

Eligibility to participate : Substantially all employees, other than players, who have worked 500 hours in a twelve month period beginning on the date the employee completes one hour of service are eligible for participation as of the next succeeding entry date.

NOTE 1--DESCRIPTION OF PLAN (Continued)

Forfeitures : The Plan does not have any forfeitures since all balances as of December 31, 2009 and 2008 are fully vested.

Participant accounts : All investments are directed by plan participants. Upon enrollment in the Plan, a participant directs contributions in any of the available investment options. Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's salary reduction and rollover contributions, employer matching contributions and an allocation of plan earnings. Allocations are based on participant's compensation or account balances, as defined by the Plan. The benefit to which a participant is entitled is the amount that can be provided from the participant's vested account.

Payment of benefits : A participant's vested account balance becomes distributable upon termination of service due to disability, retirement or death. Upon severance of employment for other than disability, retirement or death, benefits are paid to employees based on the amount allocated to their account at the time of termination. Participants may defer receiving these benefits until their normal retirement age if their vested account balance exceeds $1,000.

Participants may also elect to withdraw in cash certain vested amounts within the deferred contribution account to the extent necessary to meet a financial hardship, in accordance with the regulations and rulings of the Internal Revenue Code. After a withdrawal, a stipulated period of time must lapse, as defined by the Plan, before a participant can make additional deferred contributions.

Vesting : Participants are immediately vested in their rollover, participant salary reduction contributions and employer matching contributions plus actual earnings thereon.

NOTE 2--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting : The financial statements of the Plan are presented on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust. As the investment contracts through a common/collective trust held by the Plan have been determined not to be fully-benefit responsive, the statements of net assets available for benefits presents the fair value of the investment contracts. The statements of changes in net assets available for benefits is prepared on a fair value basis.

Administrative expenses : All administrative, accounting, legal and audit services of the Plan are provided by the Company at no cost, or paid by the Company.

NOTE 2--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Date of management's review	:	Subsequent events were evaluated through September 22, 2010, which is the date the financial statements were available to be issued.
Estimates	:	The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.
Fair value measurement of assets and liabilities	:	Effective January 1, 2008, the Plan adopted the fair value measurement and disclosure provision, which is effective for fiscal years beginning after November 15, 2007 and is applied prospectively to the financial statements. The adoption of fair value measurement and disclosure provision related to financial assets and liabilities did not have a material impact on the Plan's financial statements (see Note 5).
Investment valuation and income recognition	:	Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.
Payment of benefits	:	Benefits are recorded when paid.

NOTE 3--CERTIFIED INVESTMENT INFORMATION

The following is a summary of the investment information regarding the Plan, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information prepared by PNC Bank, the custodian of the Plan, and furnished to the plan administrator. The plan administrator has obtained certifications from the custodian that the information is complete and accurate as of December 31, 2009 and 2008. Investment information is summarized as follows:

	2009	2008
Investments, at fair value	$ 9,555,470	$ 7,007,400

Interest	3,858	13,823

NOTE 4--INVESTMENTS

	2009	2008
Investments at Fair Value as Determined by Quoted Market Price

Total investments, at fair value	$ 9,555,470	$ 7,007,400

During the years ended December 31, 2009 and 2008, the Plan's investments (including investments bought, sold and held during each year) appreciated (depreciated) in fair value by $1,837,738 and $(2,854,435) as follows:

	2009	2008
Investments at Fair Value as Determined by Quoted Market Price		
Common/Collective Trust	$ 1,837,738	$ (2,854,435)
Net change in fair value	$ 1,837,738	$ (2,854,435)

NOTE 5--FAIR VALUE MEASUREMENTS

The fair value measurement authoritative accounting literature establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under the fair value measurement authoritative accounting literature and a description of the valuation methodologies used for assets measured at fair value are described below:

Level 1 Fair Value Measurements

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 5--FAIR VALUE MEASUREMENTS (Continued)

Level 2 Fair Value Measurements

Inputs to the valuation methodology include (a) quoted prices for similar assets or liabilities in active markets, (b) quoted prices for identical or similar assets or liabilities in inactive markets, (c) inputs other than quoted prices that are observable for the asset or liability or (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the assets or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

The common/collective trust is valued based on the quoted net asset value of the actual and similar investments to those held by the Plan at year-end.

Level 3 Fair Value Measurements

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

		Fair Value Measurement Using:		
	Fair Value	Level 1	Level 2	Level 3
Common/Collective Trust	$ 9,555,470	$ 0	$ 9,555,470	$ 0
Total	$ 9,555,470	$ 0	$ 9,555,470	$ 0

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2008:

		Fair Value Measurement Using:		
	Fair Value	Level 1	Level 2	Level 3
Common/Collective Trust	$ 7,007,400	$ 0	$ 7,007,400	$ 0
Total	$ 7,007,400	$ 0	$ 7,007,400	$ 0

NOTE 6--PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

NOTE 7--TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 4, 2009, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan had been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 8--PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are managed by PNC Bank. PNC Bank is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 9--RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
