NOTE A - DESCRIPTION OF PLAN

The following description of the BANKCARD SERVICE ("Company") 401 (k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all employees of the Company who have 2 months of service and work at least 100 hours in the previous 2 months, and are age nineteen or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. Each year, participants may contribute up to the lesser of 20% of pretax annual compensation or $17,500, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and insurance investment contracts under a group annuity contract issued by John Hancock Life Insurance Company (U.S.A.) (John Hancock USA) for participants. Contributions are allocated to investment options which: (a) invest solely in shares of an underlying mutual fund which will be held in the John Hancock USA's separate sub-accounts or (b) are the guaranteed interest accounts held in the John Hancock USA's general account. The Company had not offered any 401(k) matching on participants' contributions since 2009 but has restarted providing 401(k) matching contributions in proportion to participants' salary reduction contributions since Feb 26, 2013.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after five years of credited service. Also, participants automatically become fully vested when they reach full retirement age, if they die or become disabled, or if the plan is terminated.

Participant Loans. Participants may borrow from their fund accounts a maximum of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at 4.25%, which is commensurate with local prevailing rates as determined quarterly by the Plan administrator. Participants repay principal and interest through monthly payroll deductions. If participants are terminating or retiring, they will have the choice of repaying the loan or having the loan offset from their account. The offset loan amount will be considered a taxable distribution.

Payment of Benefits. On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or paid as a "direct rollover" to the participant's individual IRA or to another employer's tax qualified plan. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or installments.

Forfeitures. Forfeitures generated from non-vested fund of participants receiving distributions during the plan year are automatically transferred to the Plan's noninterest-bearing cash account and will be used to reduce future employer contributions or to reduce future Plan expenses. Forfeiture of non-vested fund did not occur in 2013. However, Forfeiture of non-vested fund occurred in the amount of $383.67 in 2012, and it was transferred to the Plan's cash account.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles, and is an acceptable method of reporting for the Department of Labor and ERISA. This basis of accounting differs from accounting principles generally accepted in the United States primarily because additions and deductions are recognized as received or paid rather than as earned or incurred with exception for investments, which are adjusted to fair value for financial reporting purpose. In addition, the total value of investments includes participants' salary reduction contributions and the Company's matching contributions for the payroll ending December 31 even if payment does not be made and invested into the Plan as of December 31.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The group annuity contract the Plan entered into with John Hancock Life Insurance Company (U.S.A.) (John Hancock USA) is not "fully benefit responsive". One of the elements of deciding on whether an investment contract is fully benefit responsive is whether an event that limits the ability of the fund to transact at contract value with plan and participants is likely to occur. The John Hancock USA's group annuity contract is not fully benefit responsive because of the following reasons: (a) inter-account transfers from guaranteed interest accounts may be subject to a market value adjustment, depending on the withdrawal amount and the reason for the withdrawal, (b) inter-account transfers from certain sub-accounts may be subject to a redemption fee, as set by the underlying fund manager and depending on the holding period of the underlying fund, (c) a contract charge may be applied at contract termination, per the contract specifications.

Under Statement of Position No. 94-4-1, issued by the American Institute of Certified Public Accountants, investment contracts that are not fully benefit responsive must be reported at “fair value”. On the other hand, when investment contracts are fully benefit responsive, plan investments should be presented at “contract value” not “fair value”. Since the Plan’s group annuity contract is not fully benefit responsive, the Plan’s investments are stated at fair value including guaranteed interest accounts.

Quoted market prices are used to value investments in mutual funds at fair value. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end, and purchases and sales for shares of mutual funds are recorded on a trade-date basis.

In the Statement of Changes in Net Assets Available for Benefits, the Plan presents the appreciation or depreciation in the fair value of its investments in mutual funds, which consists of realized gains or losses and unrealized gains or losses on investments.

Meanwhile, guaranteed interest accounts guarantee the return of principal plus compound interest earned over a defined 3 to 10-year term, less any applicable contract or participant-level recordkeeping charges, provided all contributions remain in the account until the end of the guarantee period. Interest rates are established on the first day of each calendar month and apply to any regular ongoing contributions made to the guaranteed interest account in that month. Also, at the end of each reporting year, a composite rate of interest is determined for each participant account, depending on the amount contributed and the rate in effect on the day it is allocated under the participant account. The composite rate is the effective annual rate earned by all contributions to that guaranteed interest account during that reporting year for that participant. For each reporting year in which a participant makes a contribution to a guaranteed interest account, a new account is established for all contributions made during that reporting year and a new composite interest rate is established at the end of the contract year which applies for the remainder of the guarantee term for that account. As a result, the fair value for the guaranteed interest accounts will vary at the end of each year depending on the amount of contribution made to the account and how composite rate of interest is determined. Also, participants may have multiple guaranteed accounts earning different composite interest rates, each maturing at a different contract year-end(Please see the fair value report for guaranteed interest accounts regarding the contract value, composite rate of interest, and fair market value on the page 14).

In the Statement of Changes in Net Assets Available for Benefits, the Plan shows increase (decrease) in fair value for the guaranteed interest accounts, which occurred when they were converted from contract value to fair market value at the end of year.

With respect to participant loans, they are valued at their outstanding balances, which approximate fair value.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses incurred in connection with the general administration of the Plan are paid by the Plan and are recorded in the accompanying Statement of Changes in Net Assets Available for Benefits as deductions.

NOTE C – INVESTMENTS

All investments are totally participant-directed, so participants have the right to direct the allocation of their contributions to any one or combination of the funds being currently provided by the Plan.

NOTE E - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE F - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE G - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE H - SUBSEQUENT EVENTS

For the year ended December 31, 2013, subsequent events were evaluated through the date the financial statements were issued. There were no subsequent events requiring recognition or disclosure in the financial statements.
