Kelley Williamson Company Profit Sharing Plan
Rockford, Illinois

We were engaged to audit the statements of net assets available for benefits of Kelley Williamson Company Profit Sharing Plan (f/k/a Kelley-Williamson Co. Profit Sharing Plan) as of December 31, 2009 and 2008 and the related statement of changes in net assets available for benefits for the year ended December 31, 2009 and the supplemental schedule of Schedule H, Line 4i – Schedule of assets (held at year-end). These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified or provided by AMCORE Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. As disclosed in Note 3, the plan administrator has obtained certifications from the trustee regarding the completeness and accuracy of the investment information provided to the plan administrator by the trustee as of December 31, 2009 and 2008 and for the year ended December 31, 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Plan Description

The following description of the Kelley Williamson Company (the Company) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: All employees of the Company who are 21 years of age or older and have completed one year of service with over 1,000 hours for the year, as defined, are eligible to participate in the plan.

Contributions: Each year, participants may contribute pretax contributions up to maximum amount allowed by the Internal Revenue Code. If participant contributions cause the Plan to exceed the 401(k) discrimination limits, excess contributions will be refunded to participants. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Plan provides for matching and profit sharing contributions by the Company at the discretion of the board of directors. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution (b) forfeitures of terminated participants' non-vested accounts, if any, and (c) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Investment options: Upon enrollment in the Plan, a participant directs their account balance into selected funds as made available and determined by the plan administrator. Participants are able to change their investment options daily.

Payment of benefits: Upon termination of service for any reason a participant may elect to receive their vested account balance as a lump-sum amount or in installments equal to the value of the participant's vested interest in their account.

Forfeited accounts: Forfeited nonvested accounts totaled approximately $6,900 and $1,900 as of December 31, 2009 and 2008, respectively. These accounts will be allocated to each participant who is eligible to receive a Company contribution for the plan year in the proportion of the individual matching contribution for the plan year bears to the total matching contribution for the plan year for all eligible participants. During 2009, approximately $1,800 of forfeitures was reallocated to participant accounts.

Participant loans: Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. Loans may not exceed five years unless the purpose of the loan is to acquire a primary residence. Interest rates on outstanding loans at December 31, 2009 ranged from 4.25% up to 9.25%. Principal and interest are paid ratably through payroll deductions. Participants may have up to two loans at a time.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The plan invests in investment contracts through a collective investment trust. The Statement of Net Assets Available for Benefits presents the fair value of the investment in the collective investment trust as well as the adjustment of the investment in the collective investment trust from fair value to contract value relating to the underlying investment contracts held by the collective investment trust. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of estimates: The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accounted for on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Payment of benefits: Benefits are recorded when paid.

Subsequent events: The Plan has evaluated subsequent events through June 28, 2010, the date on which the financial statements were issued.

New accounting pronouncement: In September 2009, the Financial Accounting Standards Board (FASB) issued an amendment, which provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value (NAV) per share as a practical expedient, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective for periods ending after December 15, 2009, with early adoption permitted. The only effect of adopting this amendment was additional disclosure in the financial statements.

Note 2. Significant Accounting Policies (Continued)

In January 2010, the Financial Accounting Standards Board (FASB) issued an amendment *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements* which requires new disclosures and reasons for transfers of financial assets and liabilities between levels 1 and 2. This amendment also clarifies that fair value measurements and disclosures are required for each class of financial assets and liabilities, and those disclosures should include a discussion of inputs and valuation techniques. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the amendment is effective and not yet adopted for periods beginning on or after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010 and has not yet been adopted. The Plan's management is currently evaluating the impact of the guidance related to the financial statement disclosures.

Note 3. Information Certified or Provided by the Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified or provided as complete and accurate by AMCORE Bank, N.A., except for comparing such information certified or provided by the trustee to information included in the Plan's financial statements and supplemental schedule:

Collective investment trust	$ 12,186
Shares of registered investment companies	578,663
	$ 590,849

Note 5. Fair Value Measurements

The Fair Value Topic of the FASB Accounting Standards Codification (ASC) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy under the Fair Value Topic of the FASB ASC are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specific (contractual) term the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Collective investment trust: Investments in collective investment trust funds are valued based upon information reported by the trust's sponsor representing the fair value of the trust's underlying investments.

Shares of registered investment companies: Shares of registered investment companies are reported at fair value based on the quoted market price of the fund which represents the net asset value of the shares held by the Plan at year-end.

Participant loans: Participant loans are valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Fair Value Measurements (Continued)

The following table presents the Plan's fair value hierarchy for those assets measured at fair value on a recurring basis as of December 31, 2009 and 2008:

Note 6. Related Party Transactions

A collective investment trust is managed by AMCORE Bank, N.A., the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid to AMCORE Bank, N.A. for investment management and administrative expenses were approximately $19,850 for the year ended December 31, 2009.

Certain administrative functions are performed by officers or employees of the Company for which no compensation is received from the Plan.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 8. Income Tax Status

The Plan is operating under a nonstandardized form of a prototype plan sponsored by AMCORE Investment Group, N.A. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since the prototype plan received the opinion letter. The plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable provisions of the Internal Revenue Code.

The FASB issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:
