NOTE 1 – DESCRIPTION OF PLAN

The following description of the Larry Jacinto Construction, Inc.'s ("the Company") 401(k) Profit Sharing Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a 401(k) profit sharing plan covering all full-time employees of the Company who have three months of service and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Under the provisions of the Plan, each active participant may contribute up to 100% of pretax annual compensation in an amount not to exceed the maximum allowable (currently $17,500 or $23,000 if over fifty years of age for 2013) as determined yearly by the Internal Revenue Service ("IRS"). Each year, the Company may contribute matching or discretionary amounts to be determined solely at the discretion of the Company's board of directors. Commencing January 1, 2011 the Company suspended matching contributions.

Participant Accounts

An account is maintained for each participant's account. The participant's account is credited with the participant's contribution and allocation of (a) the Company's contribution, (b) Plan earnings, and (c) forfeitures of terminated participants' non-vested accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balances. All loans are required to be repaid within five years unless the purpose of the loan is to purchase a primary residence. The loans are secured by the balance in the participant's account and bear interest at rates that range from 5.25 to 9.25%, which are commensurate with local prevailing rates as determined annually by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

NOTE 1 – DESCRIPTION OF PLAN (continued)

Payment of Benefits

A participant who attains normal retirement age, defined as age 65, or who retires because of disability shall have a vesting percentage of 100%. These participants may elect to receive a distribution of the entire value of their account as a single lump sum or in installments. Participants who terminate employment shall be entitled to a distribution of their vested accrued benefits in the same manner. If an active participant dies prior to attaining normal retirement age, the vesting percentage shall be 100%.

Investment Options

Upon enrollment in the Plan, a participant may direct employee contributions in percentage increments to investments offered The Charles Schwab Trust Company ("Charles Schwab"). Options include fixed rate guaranteed investment contracts and a variety of mutual funds to match the participant's investment profile.

Forfeited Accounts

At December 31, 2013, forfeited non-vested accounts totaled $0. Forfeited accounts will be allocated to the matching, contribution, sub-account of each participant.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2013, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Investments Valuation and Income Recognition

The Plan's investments are stated at fair value except for its benefit-responsive investment contract which is valued at contract value (Note 7). As described in Note 7, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Quoted market prices are used to value investments. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis . Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Date of Management's Review

Subsequent events were evaluated through August 5, 2014, the date the Financial Statements were available to be issued.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the Plan are paid out of Plan assets unless paid by the Company.

NOTE 3 – GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2005, the Plan entered into a benefit-responsive guaranteed investment contract with Met Life. Met Life maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charges for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

NOTE 3 – INVESTMENT CONTRACT WITH INSURANCE COMPANY - (CONTINUED)

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Met Life, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $3,304,227 and $3,313,335, respectively. The credit interest rate is based on a formula agreed upon with the issuer but may not be less than 2.45%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact contract value with Met Life. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (b) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions; (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with plan participants are probable of occurring.

The investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2013	2012
Average yields:		
Based on actual earnings:	(1.36)%	5.37%
Average yields:		
Based on interest rate credited to participants:	2.45%	2.93%

NOTE 4 – PLAN TERMINATION

Although it has not expressed any interest to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 5 – INFORMATION CERTIFIED BY THE PLAN'S CUSTODIANS

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by the custodian as complete and accurate to the best of their knowledge, except for comparing such information certified by the custodian to the information included in the Plan's financial statements and supplemental schedule. Investments held and certified by the custodian in the accompanying statements of net assets available for benefits totaled $4,215,287 and $4,070,185 as of December 31, 2013 and 2012, respectively. Net investment gain certified in the accompanying statement of changes in net assets available for benefits was $125,710 for the year ended December 31, 2013.

NOTE 6 - INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets at December 31,

	2013	2012
Metlife Fixed	**$ 3,272,966**	$ 3,282,499
	$ 3,272,966	$ 3,282,499

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) increased in value by $125,710 as follows:

Metlife Fixed	$ 60,231
Mutual Funds (less than 5% of total Plan's net assets)	65,479
	$ 125,710

NOTE 7 – FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

NOTE 7 – FAIR VALUE MEASUREMENTS - (CONTINUED)

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stocks, corporate bonds, and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded.

Level 2 Fair Value Measurements

The fair value of certain corporate bonds for which quoted market prices are not available are valued based on yields currently available on comparable securities of issuers with similar credit ratings. Investments in certain restricted common stocks are valued at the quoted market price of the issuer's unrestricted common stock less an appropriate discount. The fair value of the certificates of deposit is based on amortized cost of original cost plus accrued interest.

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company is not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is measured using an income approach based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. See Note 3.

For those assets with fair value measured using Level 3 inputs, the Plan Investment Committee determines the fair value measurement policies and procedures in consultation with the Company's chief financial officer and the Plan trustee. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

NOTE 7 – FAIR VALUE MEASUREMENTS - (CONTINUED)

The amount of total gains or losses for the year included in changes in net assets available for benefits attributable to the changes in unrealized gains or losses relating to assets held at the end of the reporting period.	$ 73,503

Gains and losses included in changes in net assets available for benefits for the year ended December 31, 2013, are reported in net appreciation in fair value of investments.

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2013 and 2012, there were no significant transfers into or out of Level 3.

NOTE 8 – RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Charles Schwab. Charles Schwab is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $0 for the year ended December 31, 2013.

All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

NOTE 9 – RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2013 and 2012 to Schedule H of Form 5500:

	2013	2012
NET ASSETS AVAILABLE FOR BENEFITS PER THE FINANCIAL STATEMENTS	**$ 4,216,001**	$ 4,078,000

Less: Amounts allocated to withdrawing Participants at December 31, 2012	0
BENEFITS PAID TO PARTICIPANTS PER SCHEDULE H OF FORM 5500	$ 303,781

Amounts allocated to withdrawing participants are recorded on the Schedule H of Form 5500 for benefits claims that have been processed and approved for payment prior to December 31, but not yet paid as of that date.

NOTE 10 – TAX STATUS

The Plan has adopted a volume-submitter plan sponsored by a third party. The volume-submitter plan received an opinion letter dated November 19, 2001 from the Internal Revenue Service stating the volume-submitter plan, as then designed, qualifies under the provisions of Section 401(a) of the IRC.

.

NOTE 10 – TAX STATUS - (CONTINUED)

The Plan has not received a determination letter specific to the Plan itself. The Plan has been amended and restated to comply with several recent legislative actions since adopting the volume-submitter. However, the Plan administrator believes that the Plan was designed and is being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be the sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to December 31, 2010.

NOTE 11 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 12 – RECLASSIFICATION

Certain reclassifications have been made to the 2012 Financial Statements to conform to the 2013 Financial Statements presentation. Such reclassifications had no effect on net assets available for benefits as previously reported.
