Note 1: DESCRIPTION OF PLAN

The following description of the Lassen Medical Group, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan available to all employees of the Company who have six months of service (500 hours) and meet the minimum age requirement of twenty-one. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Participants may contribute up to $16,500 plus an additional $5,500 if the participant reaches age 50 or older during the plan year.

In order to maintain "safe harbor" status, the employer will make a contribution equal to three percent of a participant's compensation.

The employer may make a matching contribution equal to a uniform percentage of the participant's salary, the percentage to be determined each year.

The employer may make a discretionary non-elective contribution equal to a uniform percentage of the participant's salary, to be determined each year.

Participant Accounts – Each participant's account is credited with the participant's contribution, the Company's safe harbor, matching and non-elective contributions, and allocation of plan earnings. Allocations are based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeitures - Forfeited balances of terminated participants' non-vested accounts may be used for Plan expenses or used to reduce future employer's contributions. At December 31, 2009 and 2008, forfeited non-vested accounts totaled $24 and $2,629, respectively. During the year ended December 31, 2009, no forfeitures were used.

(Continued)

Note 1: DESCRIPTION OF PLAN (Continued)

Investment Direction – Participants can direct all contributions to the account of their choice of available investments.

Vesting – Participants are immediately vested in their voluntary contributions and safe harbor contributions, plus actual earnings thereon. Vesting in the remainder of their account is based on years of continuous service as follows:

Years of Service	Vested Percentage
0-1 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Payment of Benefits – Benefits are paid upon death, disability, termination of service, or retirement. A participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or in monthly installments over a period not to exceed his or her life expectancy. Distributions of $5,000 or less shall be distributed in a lump sum.

Participant Transaction Fees - The Plan permits the payment of administrative expenses to be made from the Plan's assets and for them to be allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan. However, substantially all administrative expenses of the Plan are paid by the Company. Expenses relating to specific participant transactions (i.e. distribution requests, etc.) are charged directly against the appropriate participant's account.

Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared under the accrual method of accounting with the exception of benefits which are recorded when paid.

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation - The Plan's investments are reflected at market values which are established by market quotations on the trade date closest to the Plan's year end.

Payment of Benefits - Benefits are recorded when paid.

Income Recognition - Purchases and sales of investments are recorded on a trade-date basis. Net change in fair value of investments includes dividends and gains and losses on investments bought and sold as well as held during the year.

Note 5: FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets and liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

Quoted prices for similar assets or liabilities in active markets;

(Continued)

Note 5: FAIR VALUE MEASUREMENTS (Continued)

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability;

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008:

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5: FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value of as December 31,:

2009

	Level 1	Level 2	Level 3	Total
Mutual funds	$ -	$ 4,224,819	$ -	4,224,819
Total assets at fair value	$ -	$ 4,224,819	$ -	$ 4,224,819

2008

	Level 1	Level 2	Level 3	Total
Mutual funds	$ -	$ 5,170,672	$ -	$ 5,170,672
Total assets at fair value	$ -	$ 5,170,672	$ -	$ 5,170,672

Note 6: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

Note 7: TAX STATUS

The Plan obtained its latest determination letter on October 29, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in accordance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 8: RISKS AND UNCERTAINTIES

Participants may invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Note 9: SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through September 10, 2010, which is the date the financial statements were available to be issued, and determined there are no significant events to disclose.
