Eligibility

Generally, employees who have reached 21 years of age and have completed three consecutive months of service are eligible to participate in the Plan. The Plan excludes certain classes of employees including, among others, leased employees, those whose employment is governed by a collective bargaining agreement, the terms of which do not specifically provide for participation in the Plan, and non-resident aliens with no U.S. sourced earned income. Employees not part of an excluded class may enter the Plan on the first day of the Plan year quarter coincident with or next following the day they become eligible to participate. For purposes of sharing in Company matching contributions, an employee must complete one year of service with the Company.

Participant Contributions

Participants may elect to contribute, on a pre-tax basis, up to 100% of compensation, as defined by the Plan, up to the maximum allowed by the Code. In addition, employees who are age 50 or older may elect to defer additional amounts (called "catch-up contributions") to the Plan up to the maximum allowed by the Code. Participants may also contribute amounts representing rollover distributions from other qualified sources; however, the Plan does not accept rollovers of employee after-tax contributions or direct rollovers of "Roth" contributions.

Employer Contributions

The Company may make discretionary matching contributions, as a percentage of participants' compensation and as determined by the board of directors of the Company. On a quarterly basis for the year ended December 31, 2013, the Company made matching contributions equal to 25% of each eligible participant's contributions during the Plan year. The matching contribution is limited to the first $5,000 of participant contributions eligible for matching during the Plan year.

The Company may also make qualified nonelective employer contributions ("QNECs") to non-highly compensated participants for the purposes of satisfying certain non-discrimination provisions of the Code. For the Plan year ended December 31, 2013, the Company did not contribute any QNEC amounts.

Investment Options

Upon enrollment in the Plan, participants may direct their contributions and employer contributions to any of the Plan's investment options. Subsequently, participants may change their allocation and transfer account balances between investment options in accordance with Plan provisions.

NOTE 1. DESCRIPTION OF PLAN (Continued)

Vesting

Participants are always 100% vested in their contributions as well as QNECs. Employer matching contributions vest as shown in the following table:

Years of Vesting Service	Vested Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

In addition, participants who leave the Company after reaching normal retirement age (65) become fully vested in their accounts. Similarly, participants who terminate employment due to total disability or death become fully vested in their accounts.

Participant Accounts

Each participant's account is credited with the participant's contributions as well as any employer matching and QNEC contributions. Participant accounts are also allocated investment earnings or losses, and are charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits

In-Service Distributions

Distributions of rollover contributions are permitted at any time. Participants who are age 59½ or older are permitted in-service distributions of the vested portion of their accounts. Hardship distributions are not allowed by the Plan.

Other Distributions

Upon termination for any reason including retirement, death or disability, participants may elect to receive a distribution of their vested account balance (as defined) in lump sum, or defer distribution if the account exceeds $5,000. However, if such a participant's vested account balance is less than $5,000, the Plan may roll the balance into an individual retirement account with the custodian. Generally, initial distributions must begin no later than the April 1 of the calendar year following the year in which the participant retires or attains the age of 70½.

Forfeitures

Forfeitures shall be used to pay administrative expenses of the Plan and any remaining forfeitures may be used to reduce matching contributions. As of December 31, 2013 and 2012, respectively, there were $238 and $0 forfeitures, respectively, available for future use. During 2013, no such amounts were used to pay Plan expenses or reduce matching contributions.

NOTE 1. DESCRIPTION OF PLAN (Continued)

Notes Receivable from Participants (Participant Loans)

Participants may borrow against their accounts a maximum of 50% of their vested balance up to $50,000. The minimum loan amount is $1,000. Such loans are required to be repaid within 5 years unless the loan is to be used to acquire the principal residence of the participant, in which case the loan repayment period may be up to a maximum of 30 years. Participants are permitted to have only one loan outstanding at any given time. Loans are secured by the participants' vested interests in their account balances. Loans are to bear interest at the *Wall Street Journal* prime interest rate at the time of application plus one percent. As of December 31, 2013, the interest rate on outstanding loans was 4.25%. Principal and interest are paid regularly through payroll deductions.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan, to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting and have been prepared in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Notes Receivable from Participants (Participant Loans)

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when earned. Net realized and unrealized appreciation in fair value of pooled separate accounts includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's administrative expenses, such as custodian, accounting, and legal expenses, are paid by the Company, except for certain distribution and loan fees, which are paid by the related participants.

Income Tax Status

Effective January 1, 2012, the Company adopted a volume submitter plan, and relies upon its opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2008 in which the IRS stated that the volume submitter plan, as then designed, was in compliance with the applicable requirements of the Code. The Company has not applied for a determination letter from the IRS specific to the Plan. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. As the Plan was established in 2011, all Plan years remain subject to income tax examinations.

Subsequent Events

The Plan has evaluated subsequent events through the date of the independent auditors' report, which is the date these financial statements were available to be issued.

NOTE 3. INFORMATION CERTIFIED BY THE CUSTODIAN

All investment information disclosed in the accompanying financial statements, including investments held at December 31, 2013 and 2012, as well as in the supplemental schedule as of December 31, 2013, and the, net realized and unrealized appreciation in fair value of pooled separate accounts for the year ended December 31, 2013, was obtained or derived from information provided to the Plan administrator and certified as complete and accurate by John Hancock Life Insurance Company, the custodian of the Plan.

NOTE 4. INVESTMENTS

The Plan's investments were held by John Hancock, the custodian of the Plan. All investments are participant-directed. The Plan's investments consist of the following as of December 31,

	2013	2012

Retirement Living 2030	$ 205,593	$ 120,746
Retirement Living 2040	102,947	53,385
Retirement Living 2025	97,708	53,635
Retirement Living 2045	81,937	37,608
Retirement Living 2035	72,530	31,941
Fidelity Advisor Leveraged Company Stock	65,318	*
Retirement Living 2020	*	55,378
	626,033	352,693
All other investments representing less than 5% of the Plan's net assets	474,984	187,941
Total investments at fair value	$ 1,101,017	$ 540,634

* As of the date indicated, the investment is less than 5% of the Plan's net assets and is included in all other investments or was not an option available under the Plan.

NOTE 5. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement for the asset or liability at the measurement date. These inputs reflect Plan management's best estimate of what market participants would use in pricing the asset or liability at the measurement date. Consideration is given to the risk inherent in the valuation technique and in the inputs to the model.

NOTE 5. FAIR VALUE MEASUREMENTS (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for investments measured at fair value at December 31, 2013 and 2012. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled Separate Accounts: Valued at the separate accounts unit value of shares held by the Plan at year end. Separate accounts unit value is based upon the fair value of the underlying investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

NOTE 6. RELATED PARTY TRANSACTIONS

Substantially all of the Plan's operating expenses are paid by the Company. The Company also provides administrative services for the Plan at no cost to the Plan. Certain investments are managed by the custodian of the Plan. These transactions qualify as party-in-interest transactions.

NOTE 7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the accompanying financial statements.

NOTE 8. FIDELITY BOND

The Plan did not have the required fidelity bond coverage for the entirety of the year ended December 31, 2013. ERISA requires the Plan to maintain a fidelity bond in an amount equal to at least 10% of the Plan assets as of the beginning of the plan year in an amount not less than $1,000 and not more than $500,000. As of January 1, 2013, Plan assets were $580,148, while its fidelity bond coverage was for $40,000. In March 2013, the Plan administrator increased the Plan's fidelity bond to $72,500, thus meeting ERISA requirements. In October 2013 the bond was again increased, to $300,000. The Plan administrator does not believe the Plan has incurred any fidelity bond losses during 2013.

NOTE 9. SELF-CORRECTION OF OPERATIONAL FAILURES

The Company and Plan administrator identified several operational failures occurring between 2011 and 2013, including instances where (i) ineligible employees were allowed to participate in the Plan, (ii) certain part-time employees were not provided the opportunity to participate in the Plan, (iii) the Company failed to withhold and match with respect to eligible compensation, and (iv) the Company failed to follow participant directives with regard to deferral elections.

During 2013 and 2014, the Company and Plan administrator determined the extent to which employees/participants had been affected by these issues as well as the corrective actions needed. Based on the corrective actions, which in aggregate amounted to less than $1,000 in corrective remittances to the Plan by the Company, and which the Company and Plan completed in 2014, the Company and the Plan administrator believe the operational failures will not cause the Plan to be disqualified by the IRS and that the self-corrective actions allow the Plan to be in compliance with the Plan documents and ERISA. Accordingly, no provision for income taxes has been included in the accompanying financial statements.
