Consolidated Medical Bioanalysis, Inc. 401(k) Plan
Notes to Financial Statements

1. Description of the Plan

The following description of the Consolidated Medical Bioanalysis, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The sponsor of the Plan is Consolidated Medical Bioanalysis, Inc. (the "Company").

General

Effective January 1, 2004, the Company established the Plan for eligible employees of the Company. Employees of the Company are eligible to participate in the Plan on either January 1 or July 1, immediately following the date the employee completes 12 months of service and reaches age 21.

The Plan is a defined contribution plan covering all full-time employees of the Company with the exception of any employee (1) who is covered by a collective bargaining agreement unless the bargaining agreement provides for coverage, or (2) who is a non-resident alien who does not receive any earned income. The Plan is subject to the provisions of the Employee retirement Income security Act of 1974 ("ERISA").

Effective July 1, 2012, the Plan has entered into a contract with Lincoln National Life Insurance Company. Lincoln National Life Insurance Company maintains the Plan's assets in these fund accounts, which are credited with actual earnings on the underlying investments and charged for Plan withdrawals. Prior to that, John Hancock Life Insurance (U.S.A.) maintained the Plan assets in fixed income accounts and pooled separate accounts for participants of the Plan.

The costs associated with the formation and certain administration of the Plan are borne by the Company. During 2013, $6,353 administrative expenses and others were paid by the plan.

Contributions

Participants may make voluntary contributions in the form of salary deferrals subject to the annual maximum amount imposed by the Internal Revenue Service. The Company may make discretionary matching contribution not to exceed individual participant's salary deferral.

Participant Accounts

Each Participant's account is credited with the participant's and Company contributions and related earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

1. Description of the Plan, continued

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100 percent vested after three years of credited service during which an employee completes not less than 1,000 hours of service with the Company.

There was a total amount of $0 forfeited in 2013. Any forfeiture will first be used to pay administrative expenses.

Payment of Benefits

On termination of service, participants with a vested balance will be paid in a lump sum amounts.

Date of Management's Review

Subsequent events were evaluated through October 5, 2014, which is the date the financial statements were available to be issued.

2. Summary of Significant Accounting Policies

Method of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Benefits are recorded when paid.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Significant Risk and Uncertainty

The fair value of the Plan's assets is subject to change as a result of changes in market rates and prices. A significant change in market rates and prices can significantly reduce the net assets available for Plan benefits and concurrently participant balances. Plans that invest in foreign securities are subject to foreign exchange and political risks among other risks.

2. Summary of Significant Accounting Policies, continued

Contributions

Participant contributions are recorded in the period during which the Company makes payroll deductions from the Plan participants' earnings. Company contributions are recorded based upon the required Company matching levels as defined in the Plan agreement.

Valuation of Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

The Plan's investment in the Guaranteed Fixed Income Fund is valued at contract value plus accrued interest, which approximates fair value. The Plan's investments in the pooled separate accounts are valued at fair value as reported to the Plan by Lincoln National Life Insurance Company. The Plan presents, in the statement of change in net assets available for benefits with fund information, the net appreciation (depreciation) in the fair value of its investments, which consist of the realized gains or losses and the unrealized appreciation (depreciation) of those investments.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the administrator and trustee to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at December 31, 2013 and the reported amounts of additions to and deductions from net assets for the year ended December 31, 2013. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

3. Investments

Investments are held in custodial capacity by Lincoln National Life Insurance Company, the trustee of the plan. Individual Plan participants direct the transactions that take place in their accounts. Participants may direct contributions to the Pooled Separate Accounts, Guaranteed Fixed Income Fund or toward the purchase of shares at net asset value of the annuity funds as listed below. Allocations of gains (losses) are at the individual contract level. During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold as well as held during the year) appreciated in value by $283,496 as follows:

Pooled Separate Accounts	$ 283,125
Guaranteed Investment Contract	371

4. Fair Value Measurements

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair values as of December 31, 2013 and 2012:

	Fair Value	Fair Value Measurements Using Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)
December 31, 2013			
Mutual Funds	$ 1,681,786	$ 1,681,786	$ ---
Investment Contract with Insurance Company	23,872	---	23,872
Total	$ 1,705,658	$ 1,681,786	$ 23,872
December 31, 2012			
Mutual Funds	$ 1,339,048	$ 1,339,048	$ ---
Investment Contract with Insurance Company	20,275	---	20,275
Total	$ 1,359,323	$ 1,339,048	$ 20,275

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stocks, corporate bonds, and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded.

4. Fair Value Measurements, continued

Level 3 Fair Value Measurements

For those assets with fair value measured using Level 3 inputs, the Plan administrator determines the fair value measurement policies and procedures in consultation with the Company's chief financial officer and the Plan trustee. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The following tables reconcile the beginning and ending balances of fair value measurements using significant unobservable inputs (Level 3) of the guaranteed investment contract with insurance company for the years ended December 31, 2013 and 2012:

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

	Investment Contract	Total
December 31, 2013		
Beginning balance	$ 20,275	$ 20,275
Total gains or loss(realized and unrealized) included in changes in net assets available for benefits	371	371
Purchases, sales, issuances, and settlements (net)	3,226	3,226
Ending Balance	$ 23,872	$ 23,872
December 31, 2012		
Beginning balance	$ 52,393	$ 52,393
Total gains or loss(realized and unrealized) included in changes in net assets available for benefits	1,336	1,336
Purchases, sales, issuances, and settlements (net)	(33,454)	(33,454)
Ending Balance	$ 20,275	$ 20,275

Gains and losses included in changes in net assets available for benefits for the year ended December 31, 2013, are reported in interest income.

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2013, there were no significant transfers into or out of Level 3.

5. Certified Information (Unaudited)

The following unaudited information was certified to be accurate and complete by the trustee within the meaning of 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

Net Appreciation (depreciation) in fair value of investments during the year ended December 31, 2013	$	283,496
Investments as of December 31, 2012		1,359,323
Investments as of December 31, 2013		1,705,658

The schedule of assets held for investment purpose was also derived from information certified by the trustees.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

7. Income Tax Status

The Company has received favorable determination from the Internal Revenue Service that the Plan qualifies under Section 401(a) of the Internal Revenue Code ("IRC"). The Company is of the opinion that the Plan is currently being operated in compliance with the applicable requirements of the IRC and that the trust, which forms a part of the Plan, is tax exempt. Accordingly, no provision for state or federal income taxes has been provided.

9. Related Party Transactions

Certain Plan investments are in units of participation in a pooled separate account and a fixed income offered by the Plan trustee, and therefore, these transactions qualify as party-in-interest. Any purchases and sales of these funds are open market transactions at fair market value. Consequently, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transaction under ERISA.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
