NOTE 1. DESCRIPTION OF THE PLAN

The following brief description of the Innovative Concepts in Entertainment, Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan sponsored by Innovative Concepts in Entertainment, Inc. (the Company). The Plan is funded by participant and employer contributions and covers substantially all employees of Innovative Concepts in Entertainment, Inc. who have achieved one year of service, as defined, and are age twenty-one or older. The assets of the Plan are maintained in investment funds held by Principal Life Insurance Company (Principal). Investment fees and administrative expenses are paid by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Directors is responsible for the oversight of the Plan, determining the appropriateness of the Plan's investment offerings and monitoring investment performance.

Contributions: Participants may contribute up to 100% of pretax annual compensation, as defined by the Plan, not to exceed the maximum annual limitations as provided by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company contributes a safe harbor matching contribution equal to 100% of the first 3% of compensation that a participant contributes to the Plan and 50% of the next 2% thereafter up to a maximum matching contribution of 4% of compensation.

Additional profit sharing amounts may be contributed at the discretion of the Company's Board of Directors. Contributions are subject to certain limitations. There was no profit sharing contribution for the years ended December 31, 2013 and 2012.

Participants direct the investment of their contributions, the Company's contributions, and profit sharing contributions into various investment options offered by the Plan. Participants may change their investment allocation on a daily basis.

Participant Accounts: Each participant's account is credited with the participant's contribution, the Company's matching contribution, and an allocation of (a) the Company's profit sharing contribution, (b) Plan earnings, and (c) charged with an allocation of administrative expenses. Discretionary profit sharing contributions are allocated based upon participant compensation as a ratio of total compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately 100% vested in their voluntary and rollover contributions and the Company's qualified safe harbor matching contributions plus actual earnings thereon. Participants are 20% vested in employer discretionary profit sharing contributions after two years of service, as defined, with a 20% annual increase in each of the next four years. In the event of death or disability, the participant will become fully vested in their account.

Forfeitures: Forfeitures reduce administrative expenses for the year in which the forfeiture occurs. Forfeitures not used to pay administrative expenses are used to reduce employer contributions. There were no forfeitures used to reduce administrative expenses during the years ended December 31, 2013 and 2012. At December 31, 2013 there was $103 of unapplied forfeitures ($95 - 2012).

Payments of Benefits: Unless a participant elects otherwise, distributions will be made as soon as practical after a participant's normal retirement date or actual retirement date occurs. The normal retirement date is the date upon which a participant reaches age 65. Benefits may be paid in the form of a lump sum distribution or an annuity.

NOTE 1. DESCRIPTION OF THE PLAN (CONTINUED)

Participants may receive their accumulated vested benefits held by the Plan's trustee upon termination of employment or elect to keep their vested balance in the Plan until the earlier of normal retirement age, death or disability if their account balance is in excess of $1,000. If the participant elects to keep their vested interest in the Plan, the participant's account will continue to receive its share of earnings and losses.

Plan Termination: Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The Plan prepares its financial statements on the accrual basis of accounting and presents the fair value of net assets available for benefits and changes in those net assets in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Trustees determines the Plan's valuation policies utilizing information provided by the investment advisers and custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's earnings and gains and losses on investments bought and sold as well as held during the year.

Guaranteed Interest Account with Insurance Company: The Plan currently invests in an investment contract with Principal. Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Contract value represents contributions made under the account, plus earnings, less participant withdrawals and administrative expenses which approximates fair market value at December 31, 2013 and 2012. Due to the possible market value adjustment when funds are withdrawn prior to their maturity, the investment contract is not considered benefit responsive.

Risks and Uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Payment of Benefits: Benefit payments to participants are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Reclassification: Certain items on the 2012 financial statements have been reclassified, with no effect on changes in net assets available for benefits, to be consistent with the current year classifications.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Subsequent Events: The Plan has evaluated subsequent events through October 10, 2014, the date the financial statements were available to be issued.

NOTE 3. INVESTMENTS

The Plan's investments (including earning and gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value for the years ended December 31, 2013 and 2012 as follows:

	December 31, 2013	December 31, 2012
Guaranteed interest accounts	**$ 3,415**	$ 4,520
Money market fund	**(2,054)**	(1,195)
Shares of pooled separate accounts	**1,418,853**	636,821
	$ 1,420,214	$ 640,146

NOTE 4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board's Accounting Standards Codification (ASC) 820: *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

NOTE 4. FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2: Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Guaranteed interest contracts: Guaranteed interest contracts are valued at fair value by the insurance company by discontinuance value which is the amount the plan participant will receive if they transfer or surrender their funds out the guaranteed interest contracts at a market value adjustment which moves with market interest rates or a flat discontinuance charge. In determining the reasonableness of the methodology, the Plan Administrator evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate). The guaranteed interest contracts are classified as Level 3 assets.

Shares of pooled separate accounts: The separate accounts are stated at fair value based on the quoted market prices of the underlying mutual funds. The unit value of the separate accounts is calculated by dividing the total value of the assets of the separate account by the number of units in the separate account. For separate accounts that invest exclusively in mutual funds, the total value of the assets of the separate account is based on the net asset value (NAV), or price per share, of the underlying mutual fund. The mutual fund calculates its NAV by dividing the mutual fund's net assets by the mutual fund's outstanding number of shares. The net asset value is used as a practical expedient to determine fair value for these accounts. The pooled separate accounts underlying investments seek to preserve capital and provide a competitive level on income over time that is consistent with the preservation of capital. Each pooled separate account provides for redemptions by the Plan at reported net asset values per share, with no advance notice requirement; therefore these funds are classified within Level 2 of the valuation hierarchy.

Money market fund: Units are valued at amortized cost, which approximates fair value of the units held by the Plan at year end. These investments are classified as Level 2.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5. FINANCIAL CERTIFICATION

Financial information relating to the Plan's assets at December 31, 2013 and 2012, as well as earnings and transactions for the years then ended, has been derived from information provided by Principal, and certified by them as complete and accurate. The incorporation of this financial information in the accompanying financial statements is based solely on their certification and has not been audited by independent accountants.

	2013	2012
Investments, at fair market value:		
Guaranteed interest contracts	**$ 364,761**	$ 314,989
Money market fund	**$ 567,924**	$ 471,906
Shares of pooled separate accounts	**$ 6,932,700**	$ 5,296,935
Transactions for the year ended:		
Net appreciation in the fair value of investments	**$ 1,420,214**	$ 640,146

NOTE 6. PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are maintained in investment funds managed by Principal. Principal is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Gains on these investments amounted to $1,420,214 for the year ended December 31, 2013 ($640,146 - 2012). Fees incurred by the plan for investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Administrative expenses paid by the Plan amounted to $23,671 for the year ended December 31, 2013, which were not covered by revenue sharing ($19,095 - 2012). The Plan Sponsor pays directly any other fees related to the plan's operations.

NOTE 7. INCOME TAXES

The Internal Revenue Service has determined and informed the Company by a letter dated July 13, 1998, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (the Code). Although the Plan has been amended and restated since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken uncertain tax positions that more likely than not would not be sustained upon examination by the IRS. The Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 8. NON-EXEMPT PROHIBITED TRANSACTION

During the year ended December 31, 2011, the Plan Sponsor inadvertently failed to deposit $3,314 of participant contributions within the required time frame as stated by the United States Department of Labor (DOL). The Plan Sponsor intends to deposit lost earnings to correct this failure. The Plan Sponsor will file Form 5330 for 2011 and pay applicable excise tax. The excise tax payments will be made from the Plan Sponsor's assets and not from assets of the Plan.
