MASCO CORPORATION
FUTURE SERVICE PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

A. Description of Plan:

The following description of the Masco Corporation ("Company") Future Service Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

1. *General.* The Plan is a defined contribution plan covering salaried employees at various divisions and subsidiaries of the Company. Eligible employees participate in the Plan on the January 1 following their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 as amended ("ERISA").

2. *Contributions.* The annual company contribution is determined by the Company's Board of Directors in accordance with the provisions of the Plan. The Plan does not permit participant contributions, with the exception of rollovers from another qualified retirement plan. Company contributions are subject to certain limitations. Participants may direct employer contributions in one percent increments to any of the various investment options. These options are professionally managed mutual funds, including the Masco Corporation Company Stock Fund, and vary in their respective strategies, risks and goals. Participants may change their investment options daily.

3. *Participant Accounts.* Each active participant's account is credited with an allocation of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participants' earnings or account balances, as defined. Plan administrative expenses are paid by the Company and not charged to participants' accounts. Certain expenses may be incurred by individual participants for special services relating to their account. These costs are charged directly to the individual participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. *Vesting.* Vesting is generally based on years of continuous service. A participant is 100 percent vested after three years of vesting service. In addition, a participant is 100 percent vested upon attainment of normal retirement age (age 65), death or disability as defined under the Plan.

5. *Participation Loans.* Generally, participants may borrow from their pretax or rollover contribution accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. Loan terms range from 1-15 years. The loans are collateralized by the balance in the participant's account and bear interest at a rate equal to the Prime Rate on the date of application for the loan. Principal and interest is paid ratably through monthly payroll deductions. Loans outstanding at December 31, 2009 are due at various rates through 2024 and bear interest rates ranging from 3.25% to 9.5%.

**MASCO CORPORATION
FUTURE SERVICE PROFIT SHARING PLAN**

NOTES TO FINANCIAL STATEMENTS, Continued

A. Description of Plan, concluded:

6. *Payment of Benefits.* After separation from service due to termination, death, disability, or retirement, generally a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a single lump-sum amount or in annual installments over a period not to exceed five years. In-service and hardship withdrawals, if applicable, are distributed in a single lump-sum payment.

7. *Forfeited Accounts.* At December 31, 2009, forfeited nonvested accounts totaled \$619,550. These account balances are used to reduce the Company's contribution.

During 2009, transfers were executed between the Masco Corporation Master Defined Contribution Plan and the Masco Corporation Future Service Profit Sharing Plan in an effort to consolidate multiple accounts held by participants of the Plans. As a result of these transfers, the participants affected by the account consolidation now have a single account in the Plan in which they are currently active. Total transfers of net assets into the Plan amounted to \$2,550 as a result of this event.

B. Accounting Policies:

The following is a summary of significant accounting policies (in accordance with accounting principles generally accepted in the United States of America) followed in the preparation of these financial statements.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of additions and deductions during the reporting period. Actual results could differ from these estimates and assumptions.

Risks and Uncertainties

The Plan provides for various investment options in mutual funds and other investment securities. Investment securities are exposed to various risks, including interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

**MASCO CORPORATION
FUTURE SERVICE PROFIT SHARING PLAN**

NOTES TO FINANCIAL STATEMENTS, Continued

B. Accounting Policies, concluded:

Investment Valuation and Income Recognition

Investments are stated at fair value as determined by Fidelity Pricing and Cash Management Services, Inc. using quoted closing market prices at December 31, 2009 and 2008. Participant loans are valued at their outstanding balances, which approximates fair value.

Investment transactions are reflected on a trade-date basis. Realized gains and losses on investments are based on average cost. Interest income is recognized on the accrual basis of accounting. Dividend income is recorded on the ex-dividend date. Income from other securities is recorded as earned on an accrual basis.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation (depreciation) of those investments.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Subsequent Event

The Company has evaluated subsequent events through September 17, 2010, the date the Masco Corporation Future Service Profit Sharing financial statements were issued.

C. Investments:

The following investments represent five percent or more of the Plan's net assets at December 31, 2009 and 2008.

	<u>2009</u>	<u>2008</u>
Fidelity Retirement Government Money Market Portfolio, 12,692,188 and 15,070,587 shares, respectively	\$12,692,188	\$15,070,587

During 2009, the Plan's investments (including gains and losses on investments sold during the year as well as held at year-end) appreciated in value as follows:

Mutual Funds	\$20,898,388
Masco Corporation Company Stock Fund	419,099
	<u>\$21,317,487</u>

MASCO CORPORATION
FUTURE SERVICE PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS, Continued

C. Investments, concluded:

At December 31, 2009 and 2008, the Masco Corporation Company Stock Fund is made up of Masco Corporation Common Stock totaling \$1,210,752 and \$824,432, respectively, and cash and money market investments of \$25,074 and \$18,196, respectively.

D. Fair Value Measurements

On January 1, 2008, the Plan adopted accounting guidance regarding fair value for its financial assets and liabilities. Accounting guidance defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Accounting guidance defines fair value as "the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date." Accounting guidance further defines a fair value hierarchy, as follows: Level 1 inputs as quoted prices in active markets for identical assets or liabilities; Level 2 inputs as observable inputs other than Level 1 prices, such as quoted market prices for similar assets or liabilities or other inputs that are observable or can be corroborated by market data; and Level 3 inputs as unobservable inputs that are supported by little or no market activity and that are financial instruments whose value is determined using pricing models or instruments for which the determination of fair value requires significant management judgment or estimation.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Participant loans: Valued at their outstanding balances, which approximate fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
