ATTACHMATE 401(k) PLAN

Notes to Financial Statements

Note 1 - Plan Description

The following description of the Attachmate 401(k) Plan (the Plan) provides general information only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan under the provisions of Section 401(a) of the Internal Revenue Code (IRC) covering all eligible employees of Attachmate Corporation and participating affiliates (the Company). All employees become eligible to participate in the Plan upon commencing employment. The Plan allows tax-deferred contributions under Section 401(k) of the IRC. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Administration - The Retirement Committee, consisting of certain employees of the Company, is the Plan's administrator. Fidelity Management Trust Company is the trustee and Fidelity Investments Institutional Operations Company, Inc. is the record keeper.

Contributions - Employees may elect to defer up to 60% of their compensation under the Plan's 401(k) provisions, subject to certain limitations under the IRC. The Plan has adopted an automatic enrollment feature under which new employees are set up with a 5% pre-tax deferral unless they formally waive participation or elect a different participation level. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may make after-tax contributions and contribute amounts representing distributions from other qualified plans.

Effective January 1, 2009, the Plan was amended to change from required employer matching contributions to discretionary employer matching contributions. In addition, the amendment eliminated the option of declaring an additional employer matching contribution. The board of directors elected to suspend matching contributions for the year ending December 31, 2009. The Company may also make discretionary profit sharing contributions. There were no profit sharing contributions for the plan year ending December 31, 2009.

Participant Accounts - Each participant's account is credited an allocation of (a) Company contributions, if any; (b) deferral contributions; and (c) plan earnings and losses. Allocations are based on participant earnings or account balances, as defined. Participant accounts are valued on a daily basis based on quoted market prices.

Vesting - Participants in the Plan are fully vested in the Company's matching and profit sharing contributions to their accounts after five years, according to the following schedule:

<u><i>Years of Service</i></u>	<u><i>Vested Percentage</i></u>
Less than one	0%
1 but less than 2	20%
2 but less than 3	40%
3 but less than 4	60%
4 but less than 5	80%
5 or more	100%

All voluntary 401(k) contributions made by participants are 100% vested at all times.

ATTACHMATE 401(k) PLAN

Notes to Financial Statements

Note 1 - Continued

Forfeitures - Forfeitures may be utilized to reduce future Company contributions or pay administrative expenses of the Plan. The Company used forfeitures of \$18,863 to pay for administrative expenses during the 2009 plan year. At December 31, 2009 and 2008, there were \$150,990 and \$6,792, respectively, in unallocated forfeitures available for the Company to use as described above.

Benefit Payments - Upon termination of service, retirement, death, disability, or certain financial hardships, a participant or beneficiary may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Participants who have attained age 59 ½ may also elect to receive a distribution of all or any portion of their account balance prior to termination of employment (in-service withdrawals). Participants may also elect to receive in-service withdrawals from balances rolled into the Plan.

Participant Loans - A participant may borrow the lesser of \$50,000 or 50% of his or her vested balance, with a minimum loan of \$1,000. Loans are payable through payroll deductions over periods ranging up to 60 months (longer if loan proceeds are used to purchase a home). The interest rate is determined by the plan administrator based on prevailing market conditions.

Administrative Expenses - Several of the investment fund options are subject to investment and administrative fees based on a percentage of invested assets, as disclosed in the fund's prospectus. All such fees are charged directly against the fund's investment performance and, therefore, are not separately disclosed in the accompanying financial statements. Transaction based fees for loans and distributions are charged directly to participant accounts. During 2009, the Plan used forfeitures to pay for accounting and legal expenses. The Company may elect to pay other expenses related to the Plan's administration.

Subsequent Events - The Plan's management has evaluated subsequent events through September 21, 2010, the date on which the Plan's financial statements were available to be issued.

Note 2 - Summary of Accounting Policies

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amount of assets in the statements of net assets available for plan benefits and the additions and deductions in the statement of changes in net assets available for plan benefits, as well as the amounts disclosed in the financial statement footnotes. Actual results could differ from those estimates.

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust fund. Contract value for the collective trust fund is based on the net asset value of the fund as reported by the trustee. The statements of net assets available for plan benefits presents the fair value of the investment in the collective trust fund and the adjustment of the investment in the collective trust fund from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for plan benefits is prepared on a contract value basis.

ATTACHMATE 401(k) PLAN

Notes to Financial Statements

Note 2 - Continued

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of mutual funds represents the change in fair value of assets from one period to the next and realized gains and losses on investments.

Benefits Paid to Participants - Benefits paid to participants are recognized when they are paid. At December 31, 2009 and 2008, there were no amounts allocated to accounts of participants who have elected to withdraw from the Plan, but have not yet been paid.

Note 3 - Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under GAAP are described as follows:

Level 1: Unadjusted quoted prices available in active markets for identical assets or liabilities;

Level 2: Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

Level 3: Unobservable inputs that are significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual Funds - Valued at quoted market prices in active markets, which represent the net asset value (NAV) of shares held by the Plan at year-end.

Cash and Cash Equivalents - Cash and cash equivalents consist primarily of a money market fund and is valued at cost plus accrued interest, which approximates fair value.

ATTACHMATE 401(k) PLAN

Notes to Financial Statements

Note 3 - Continued

Collective Trust Fund - Valued using the NAV provided by the fund's trustee. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding at the valuation date. The fund is traded on a private market that is not active; however, the unit price is based primarily on observable market data of the fund's underlying assets.

Participant Loans - Valued at their outstanding balance, which approximates fair value.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008 (Levels 1, 2, and 3 are defined above):

Notes to Financial Statements

Note 5 - Information Certified by the Trustee

The plan administrator has elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Under this provision of ERISA, certain information certified by a qualifying institution need not be subjected to independent audits. The Plan Sponsor has obtained certification from the trustee, Fidelity Management Trust Company, that the following information provided by the trustee and included in the Plan's financial statements and supplemental schedule is complete and accurate:

- Fair value and, if applicable, contract value of investments as of December 31, 2009 and 2008;
- Investment and other income earned for the year ended December 31, 2009; and
- Investment transactions for the year ending December 31, 2009.

Note 6 - Federal Income Taxes

The Company adopted a Fidelity volume submitter plan document effective March 12, 2010. Fidelity received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008, which states that the volume submitter document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS. Therefore, no provision for income tax has been included in the Plan's financial statements.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their account balances.

Note 8 - Party-in-Interest Transactions

The Plan invests in shares of mutual funds, a collective trust fund and a money market account managed by an affiliate of the trustee. Transactions in such investments and fees charged by the affiliate directly to the funds for managing the investments, qualify as party-in-interest transactions, which are exempt from the rules governing prohibited transactions under ERISA.

Note 9 - Risks and Uncertainties

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.
