CITY FINANCIAL CORPORATION 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2009 AND 2008, AND FOR THE YEAR ENDED DECEMBER 31, 2009

1. DESCRIPTION OF THE PLAN

The following description of the City Financial Corporation 401(k) Profit Sharing Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General — The Plan is a defined contribution retirement savings plan covering eligible employees of City Financial Corporation (the “Company”) who have attained age 21 and completed four consecutive months of service. An internal committee of the Company manages the operation and administration of the Plan. Capital Bank & Trust Company serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions — Participants may make voluntary pretax and/or Roth contributions as a percentage of compensation or a set dollar amount through periodic payroll deductions. Maximum contributions are subject to certain Internal Revenue Code (IRC) limitations. Participants may also contribute distributions from other qualified defined-benefit or defined contribution plans. The Company may make discretionary matching contributions to the Plan each year in an amount determined by the Company. Additional profit-sharing amounts may be contributed at the discretion of the Company. Contributions are recorded as additions to assets available for benefits as the Company authorizes and accrues such contributions.

Participant Accounts — Individual accounts are maintained for each Plan participant. Each participant’s account is credited with the participant’s contribution, allocations of the Company’s discretionary contributions, and Plan earnings, and charged with plan losses and administrative expenses such as loan fees, when applicable.

Investments — All amounts in participant accounts are participant directed. The Plan currently offers 23 mutual funds and one money market fund as investment options for participants. Participants may change their investment options on any valuation date and change the amount of their elective deferrals as they deem necessary and appropriate.

Vesting — Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company’s discretionary matching contribution portion of their accounts is immediate, as defined in the Plan document. Participants are 100% vested in the Company’s discretionary profit-sharing contribution after six years of credited service. Participants otherwise become fully vested in all Company contributions allocated to their accounts in the event of death or eligible disability, as defined by the Plan.

Participant Loans — Participants in the Plan may request a loan from their account not exceeding the lesser of \$50,000 reduced by the excess, if any, of the participant’s highest outstanding balance of loans from the Plan during the one-year period ending on the day before the loan is made over the outstanding loan balance on the date of the loan or 50% of a participant’s vested balance. Each loan bears interest equal to the rate currently being charged by commercial lenders for comparable loans, and repayments are made by payroll deduction.

Payment of Benefits — Upon termination of employment, a participant is entitled to receive the full vested current value of his or her account. If the current value of the vested account is less than the nominal amount as defined by the Plan, the participant will receive a lump-sum payment. If the vested account value exceeds this nominal amount, the participant may elect to receive the amounts in a lump-sum distribution, a partial lump-sum distribution, annuity payments, or installments as defined by the Plan.

Forfeited Accounts — In the event a participant terminates prior to becoming fully vested, nonvested Company discretionary profit-sharing contributions are used to reduce future Company contributions. At December 31, 2009 and 2008, forfeited nonvested accounts totaled \$15,938 and \$7,843, respectively. Forfeitures used to reduce Company contributions for the year ended December 31, 2009, were \$7,843.

Subsequent Events — For the year ended December 31, 2009, subsequent events were evaluated through July 19, 2010, the date the financial statements were available to be issued.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan utilizes various investment instruments, including mutual funds and money market funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Administrative Expenses — The cost and expense of administering the Plan may be paid either by the Company or by the Plan at the Company's discretion. The Company is currently paying most of the costs and expenses of administering the Plan.

Investment Valuation and Income Recognition — The Plan's investments are stated at fair value. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. Participant loans are valued at the outstanding loan balances, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

New Accounting Standards Adopted — The accounting standards initially adopted in the 2009 financial statements described below affected certain note disclosures but did not impact the statements of assets available for benefits or the statement of changes in assets available for benefits.

Accounting Standards Codification — The Financial Accounting Standards Board's (FASB) Accounting Standards Codification (ASC) became effective on July 1, 2009. At that date, the ASC became FASB's official source of authoritative GAAP applicable to all public and nonpublic nongovernmental entities, superseding existing guidance issued by the FASB, the American Institute of Certified Public Accountants (AICPA), the Emerging Issues Task Force (EITF) and other related literature. The FASB also issues Accounting Standards Updates (ASU). An ASU communicates amendments to the ASC. An ASU also provides information to help a user of GAAP understand how and why GAAP is changing and when the changes will be effective.

Subsequent Events — In May 2009, the FASB issued ASC 855 (originally issued as FASB Statement No. 165, *Subsequent Events*) to establish general standards of accounting for and disclosing events that occur after the statements of assets available for benefits date, but prior to the issuance of financial statements. ASC 855 provides guidance on when financial statements should be adjusted for subsequent events and requires companies to disclose subsequent events and the date through which subsequent events have been evaluated. ASC 855 is effective for periods ending after June 15, 2009.

Updates to Fair Value Measurements and Disclosures — In 2009, FASB Staff Position 157-4, *Disclosures Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (FSP), was issued and later codified into ASC 820, which expanded disclosures and required that major category for debt and equity securities in the fair value hierarchy table be determined on the basis of the nature and risks of the investments.

In September 2009, the FASB issued ASU No. 2009-12, *Fair Value Measurements and Disclosures: Investments in Certain Entities That Calculate Net Asset per Share (or Its Equivalent)* ("ASU 2009-12"), which amended ASC Subtopic 820-10, *Fair Value Measurements and Disclosures — Overall*. ASU No. 2009-12 is effective for the first reporting period ending after December 15, 2009. ASU No. 2009-12 expands the required disclosures for certain investments with a reported net asset value (NAV). ASU No. 2009-12 permits, as a practical expedient, an entity holding investments in certain entities that calculate net asset value per share or its equivalent for which the fair value is not readily determinable, to measure the fair value of such investments on the basis of that net asset value per share or its equivalent without adjustment. The ASU requires enhanced disclosures about the nature and risks of investments within its scope. Such disclosures include the nature of any restrictions on an investor's ability to redeem its investments at the measurement date, any unfunded commitments, and the investment strategies of the investee. The Plan has adopted ASU No. 2009-12 on a prospective basis for the year ended December 31, 2009. Adoption did not have a material impact on the fair value determination and disclosure of applicable investments. The effect of the adoption of the ASU had no impact on the statements of assets available for benefits and statement of changes in assets available for benefits.

New Accounting Standards to Be Adopted — In January 2010, the FASB issued ASU No. 2010-06, *Fair Value Measurements and Disclosures* (ASU No. 2010-06), which amends ASC 820 (originally issued as FASB Statement No. 157, *Fair Value Measurements*), adding new disclosure requirements for Levels 1 and 2, separate disclosures of purchases, sales, issuances, and settlements relating to Level 3 measurements and clarification of existing fair value disclosures. ASU No. 2010-06 is effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010. The Plan is currently evaluating the impact ASU No. 2010-06 will have on the financial statements.

3. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, each participant's account shall become 100% vested in their accounts and the assets are to be set aside for the payment of withdrawals to the participants.

4. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by American Funds Retirement Plans ("American Funds"). Capital Bank & Trust Company is the directed trustee for American Funds and, therefore, these transactions qualify as exempt party-in-interest transactions.

5. FEDERAL INCOME TAX STATUS

The Plan uses a prototype plan document sponsored by American Funds. American Funds received an opinion letter from the Internal Revenue Service (IRS), dated May 28, 2002, which states that the prototype document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

6. INFORMATION CERTIFIED BY THE TRUSTEE

The following is a summary of the unaudited information regarding the Plan as of December 31, 2009 and 2008, and for the year ended December 31, 2009, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information prepared by Capital Bank & Trust Company, the trustee of the Plan, and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that such information is complete and accurate.

8. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, established a single authoritative definition of fair value, set a framework for measuring fair value, and requires additional disclosures about fair value measurements. In accordance with ASC 820, the Plan classifies its investments into Level 1, which refers to securities valued using quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis at December 31, 2009 and 2008.

In accordance with the update to ASC 820 (originally issued as FSP 157-4), the table below includes the major categorization for debt and equity securities on the basis of the nature and risk of the investments at December 31, 2009.

	Investment Assets at Fair Value as of December 31, 2009
