NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Automotive Services Network, Inc. Salary Deferral 401(k) Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General: The Plan is a defined contribution plan covering all employees of the Holler Automotive Group (a group of companies related through common ownership) (the Group) who have completed one year of service and have reached age 21. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants can contribute a maximum of 20% of their gross wages on a pre-tax basis and up to 10% on an after-tax basis during the Plan year ended December 31, 2009. The Group matches 25% of the first 4% of participant's compensation contributed as pre-tax deferral. The Group may also make a discretionary profit sharing contribution at the end of the year which is allocated based on compensation and to participants who were employed on the last day of the plan year. No discretionary contribution was made in 2009.

Investment Options: Participants may change their investment options daily and may direct contributions among various investment options.

Retirement, Death and Disability: A participant is entitled to 100% of his or her account balance upon retirement, early retirement, death or disability. A participant is eligible for normal retirement upon reaching age 65 and early retirement upon reaching age 55 with five years of service.

Payment of Benefits: On termination of service, a participant may elect to receive either a lump sum amount or periodic installment payments equal to the value of their vested account.

Vesting: Under the Plan, employees acquire a vested and nonforfeitable interest in a percentage of their account attributable to the Group's contributions as determined from the following table.

Years of Service	Percentage Vested and Nonforfeitable
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

Participant Accounts: Each participant's account is credited with the participant's contribution and allocation of the Group's contribution and the Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(Continued)

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Forfeitures: An amount given up by a participant is called a forfeiture. Forfeitures stay under the Plan and are used to offset administrative expenses and future employer contributions. During 2009, $18,416 of forfeitures were used to reduce employer contributions.

Plan Termination: In the event of a termination of the Plan, the net assets of the Plan are to be allocated among the participants and beneficiaries of the Plan in the order provided for in ERISA. Participants will become 100% vested in their account.

Participant Loans: The Plan provides that participants can borrow funds against their vested account balances limited to the lesser of 50% of their vested account balance or $50,000. The loans are secured by the balance in the participant's account and bear interest.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Risk and Uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investment securities, and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefit.

Investment Valuation and Income Recognition: The Plan's investments, other than participant loans, are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1

(Continued)

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Collective trusts: The fair values of interests in stable value collective trust funds are based upon the net asset values of such funds after adjustment to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund (level 2 inputs). The stable value fund seeks to provide preservation of capital, liquidity and current income at levels that are typically higher than those provided by money-market funds and similar to short or intermediate term bond funds without the volatility. The stable value fund invests in traditional guaranteed investment contracts and wrapped portfolios of fixed income investments. The net asset values of the funds are determined daily. Issuances and redemptions are made on such days based upon the net asset value per unit.

Participant loans: Participant loans are reported at their outstanding balances, as the fair value of the loans is not practicable to estimate due to restrictions placed on the transferability of the loans.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(Continued)

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements at December 31, 2009 Using		
	Quoted Prices in Active Market for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments (other than participant loans)			
Mutual funds:			
Money market fund	$ 537,603	$ -	$ -
Domestic equity mutual funds	6,958,240	-	-
International funds	1,213,968	-	-
Collective trust funds	-	1,555,367	-

	Fair Value Measurements at December 31, 2008 Using		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments (other than participant loans)	$9,512,618	$ -	$ -

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in such contracts through its investment in a stable value fund. No adjustment from fair value to contract value is presented in the statement of net assets available for benefits, as the amount of the adjustment has been determined to be immaterial.

Payment of Benefits: Benefits are recorded when paid.

Subsequent Events: Plan management has evaluated subsequent events for recognition and disclosure through July 29, 2010, which is the date the financial statements were available to be issued.

NOTE 3 - INVESTMENTS - UNAUDITED INFORMATION

Bank of America, N.A., trustee of the Plan, held the Plan's investment assets and executed investment transactions from January 1, 2009 to December 31, 2009 and Merrill Lynch Bank & Trust Co., FSB, trustee of the Plan, held the Plan's investment assets and executed investment transactions as of December 31, 2008. Substantially all information pertaining to investments included in the financial statements has been certified by them. This information has not been audited by independent accountants. The fair values of investments which represent 5% or more of the Plan's net assets available for benefits are summarized as follows:

During 2009, the Plan's investments in mutual funds (including investments bought, sold and held during the year) appreciated in fair value by $1,307,184.

NOTE 4 - TAX STATUS

The Plan sponsor has adopted a non standardized prototype 401(k). The non standardized prototype document has received an opinion letter from the Internal Revenue Service dated September 23, 2003, stating that the form of the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC). Although the Plan has not been issued an individual determination letter and the Plan has been amended, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan holds mutual funds and holds units of participation in a collective trust managed by Bank of America, N.A. Bank of America is the Plan trustee and, therefore, these transactions and the Plan's payment of trustee fees to Bank of America qualify as party-in-interest transactions. Participant loans held by the Plan are also considered party-in-interest transactions. The Plan also holds mutual funds managed by Blackrock; Blackrock is a subsidiary of the Plan trustee and, therefore, these investments also qualify as party-in-interest transactions. Participant loans held by the Plan are also considered party-in-interest transactions. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company.

NOTE 6 - PLAN RESTATEMENT

In 2009 the Plan was amended and restated to comply with the Pension Protection Act of 2009, additional changes required by the IRS under Section 415 and recent tax law changes included in the Employer Recovery Act of 2008.

NOTE 7 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
