Note 1. Description of the Plan

The following description of Impact Confections, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan whereby eligible employees of Impact Confections, Inc. and its wholly-owned subsidiary, Melster Candies, Inc. (collectively the "Company"), are permitted to make contributions that are tax-deferred under Section 401(k) of the Internal Revenue Code (the "Code"). The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

Employees become eligible for participation at the age of eighteen and upon completing 30 days of service, as defined by the Plan.

Vesting

Participant contributions plus actual earnings are immediately fully vested and nonforfeitable. Employer contributions vest to participants based upon years of service. Participants are vested in employer contributions based upon the following schedule:

Years of Service	Vesting Percentage
Any service less than 1 year	None
1 year, but less than 2	25%
2 years, but less than 3	50%
3 years, but less than 4	75%
4 years or more	100%

Contributions

Each year, participants may elect to contribute up to 50% of pretax compensation subject to certain maximum limitations imposed by the Internal Revenue Code ($16,500 for 2009). Employees who are eligible to make elective deferrals under the Plan and who have attained the age of 50 before the close of the plan year are also eligible to make catch-up contributions subject to the maximum limitation imposed by the Internal Revenue Code ($5,500 for 2009). Participants may also contribute amounts representing distributions from other qualified plans.

The Plan requires matching contributions equal to a percentage of the participant's deferral contributions, as determined by the Company. In 2009, the Company made a matching contribution equal to 50% of the participant's deferral contributions, not to exceed 4% of the employees' pretax compensation.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contributions and (b) plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings and account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's account.

Investment Options

Participants must direct their contributions to selected investments as made available and determined by the Plan sponsor. Participants may change their investment options any time throughout the year via internet or direct phone access to the custodian.

Forfeitures

Forfeitures by terminated employees of nonvested employer contribution amounts are retained by the Plan and are used to reduce employer matching contributions and/or administrative expenses of the Plan. At December 31, 2009 and 2008, unused forfeited nonvested employer contributions amounted to approximately $1,600 and $2,000, respectively. During the year ended December 31, 2009, employer contributions were reduced by approximately $700 from forfeited nonvested accounts and administrative expenses were reduced by $6,100 from forfeited nonvested accounts. During 2009, participants forfeited nonvested employer contributions totaled approximately $6,400.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account or receive annual installments; however, withdrawals of funds from his or her account must begin upon attaining age 70½ . For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Participant Loans

Participants may borrow from their participant accounts a minimum of $1,000 to a maximum of the lesser of $50,000 or 50% of their vested account balance. The number of outstanding loans for a participant shall be limited to two. Loan terms range from 1-5 years or up to 30 years if used for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate that is commensurate with the rates offered by commercial lending institutions. Interest rates on outstanding participant loans ranged from 5.25% to 10.25% as of December 31, 2009. Principal and interest is paid ratably through weekly payroll deductions.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments in pooled separate accounts are reported at the fair value reported to the Plan by Principal, which represents approximate fair value. Investments in fully-benefit responsive guaranteed interest accounts are reported at fair value with an adjustment to contract value as reported by Principal (Note 3). At December 31, 2009 and 2008, the fair values of such investments in guaranteed interest accounts equaled the contract values reported by Principal. Participant loans are carried at cost which approximates fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

All expenses incurred in the administration of the Plan are paid by the Company. Certain asset management fees are paid by the Plan and allocated to participants' accounts on a quarterly basis.

Income Taxes

The Financial Accounting Standards Board issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Subsequent Events

The plan administrator has evaluated subsequent events through July 30, 2010, the date on which the financial statements were available to be issued.

Recent Accounting Pronouncements

On July 1, 2009, the Financial Accounting Standards Board (FASB) launched the FASB Accounting Standards Codification (ASC), which is now the single official source of authoritative, non-governmental U.S. GAAP. The ASC supersedes all prior accounting literature. With the launch of the ASC, U.S. GAAP now consists of two levels – authoritative (ASC) and non-authoritative (anything not in the ASC). The ASC is effective for interim and annual periods ending after September 15, 2009. The FASB will no longer be issuing accounting standards in the form of Statements, Staff Positions or Emerging Issues Task Force Abstracts. The FASB will instead amend the ASC by issuing Accounting Standards Updates (ASU).

In September 2009, the FASB issued AS 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)*. This amendment provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value (NAV) per share as a practical expedient, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective for periods ending after December 15, 2009, with early adoption permitted. The adoption of this guidance did not have a material impact on the Plan's financial position or Statement of Changes in Net Assets Available for Benefits.

In January 2010, the FASB issued ASU 2010-06, *Improving Disclosures about Fair Value Measurements*. This amendment requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the amendment is effective for periods beginning on or after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010. The Plan does not expect the adoption of ASU 2010-06 to have a material effect on the Plan's financial statements.

Note 3. Investment Contracts With Insurance Company

The Plan has entered into investment contracts with Principal Life Insurance Company ("Principal"). Principal maintains the contributions in general accounts. The accounts are credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses assessed by Principal. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rates were 1.68% and 1.19% during the years ended December 31, 2009 and 2008, respectively. The crediting interest rate is based on an agreed upon formula with the issuer, but may not be less than 0.94%, 1.64%, 2.17% and 2.69% for the four contracts that mature on December 31, 2010, 2011, 2012, and 2013, respectively. Such interest rates are reviewed on a periodic basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example. divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any such events which would limit the Plan's ability to transact at contract value with participants are probable.

The guaranteed investment contracts do not permit the insurance company to terminate the agreements prior to the scheduled maturity date.

Note 4. Information Certified by Principal Trust Company (Principal)

The following is a summary of the investment information as of December 31, 2009 and 2008, and for the year ended December 31, 2009, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by Principal and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Principal that information provided to the Plan Administrator by Principal related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule related to the investments listed below. Investments that represent 5% or more of the Plan's net assets as of December 31, 2009 and 2008 are separately identified as follows:

	2009	2008

Principal also certified to the completeness and accuracy of $330,139 of net appreciation in fair value of investments and $18,115 of interest related to the aforementioned investments for the year ended December 31, 2009.

Note 5. Fair Value Measurements

ASC 820*, Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated from by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Guaranteed interest accounts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See Note 3). Accordingly, the fair value of these assets is established using Level 3 inputs.

Pooled separate accounts: Pooled separate accounts invest in mutual funds and are valued at the net asset value ('"NAV") of the pool of investments owned by the mutual funds held by the Plan at year end. Accordingly, the fair value of these assets is established using Levels 2 and 3 inputs.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

Description	Total	Level 1	Level 2	Level 3
2009:				
Guaranteed interest accounts	**$ 49,659**	**$ -**	**$ -**	**$ 49,659**

Loans to participants	**169,766**	**-**	**-**	**169,766**
Total assets at fair value	**$ 2,177,767**	**$ -**	**$ 1,933,143**	**$ 244,624**
2008:				
Guaranteed interest accounts	$ 61,036	$ -	$ -	$ 61,036
Pooled separate accounts	1,948,298	-	1,916,893	31,405

Total assets at fair value	$ 2,242,212	$ -	$ 1,916,893	$ 325,319

The following table sets forth the effects of Level 3 inputs on the Plan's net assets available for benefits as of December 31, 2009:

	Level 3 Assets		
	Year Ended December 31, 2009		
	Guaranteed Interest Accounts	Pooled Separate Accounts	Participant Loans

Balance, end of year	$ 49,659	$ 25,199	$ 169,766

Note 6. Administration of Plan Assets

Certain administrative functions are performed by officers or employees of the Company; however, such officers and employees receive no compensation from the Plan.

Note 7. Party-In-Interest Transactions

Parties-in-interest are defined under Department of Labor Regulations ("DOL") as any fiduciary of the Plan, any party rendering services to the Plan, the employer and certain others. As such, transactions conducted by the Trustees and Principal qualify as party-in-interest transactions.

Note 8. Income Tax Status

The Plan obtained its latest determination letter on March 31, 2008 in which the Internal Revenue Service stated that, as then designed, the Plan was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Plan Administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the IRC.

Note 9. Plan Termination

While it has expressed no intention to do so, the Company has the right to terminate the Plan. In the event of termination of the Plan, the participants become fully vested in their entire account balances and the net assets of the Plan will be distributed to the participants of the Plan in accordance with the provisions of ERISA.

Note 10. Risks and Uncertainties

The Plan may invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 11. Plan Amendment

Effective October 28, 2009, the plan was amended to disallow participants from having elective deferral contributions with respect to pay that exceeds the annual pay limit as required by the Plan.

Note 12. Excess Contributions Payable

The liabilities of $9,719 and $23,425 as of December 31, 2009 and 2008, respectively, relate to amounts payable to certain active participants to return to them excess deferral contributions as required to satisfy the relevant non-discrimination provision of the Plan.

Note 13. Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for plan benefits per the financial statements to the Form 5500 as of December 31, 2009:

Net assets available for plan benefits per the financial statements	$	2,168,540
Plus current year excess contributions payable		9,719
Adjustment from contract value to fair value for guaranteed interest accounts		(492)
