NOTE A - DESCRIPTION OF PLAN

The following description of Computer World Services Corp. (the Company) 401(k) Plan (the Plan) provides only general information. Readers of these financial statements should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established effective July 28, 2011, and covers substantially all employees of the Company who are age 21 or older and having completed certain service requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may make voluntary contributions to the Plan through pre-tax salary deferrals and after-tax Roth contributions. The amount that may be contributed is limited by the Internal Revenue Code applicable to the type of plan. The Company makes a safe harbor matching contribution of 100% up to 4% of participant contributions. The Company may also make discretionary profit sharing contributions to the Plan to employees who are active on the last day of the plan year and who have completed 1,000 hours of service. The Company made discretionary matching contributions of $97,310 and $26,808 for the years ended December 31, 2013 and 2012, respectively.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of the Company's contributions and plan earnings and is charged with the participant's specific expenses. Plan earnings are allocated to the participant accounts based upon the ratio that each participant account bears to the total of all accounts within that specific fund.

Vesting

Participants are immediately vested in their contributions and the employer safe harbor matching contributions. Vesting in the Company's discretionary profit sharing contribution portion of their accounts plus actual earnings thereon is based on eligible years of service. A participant is 100% vested after six years of credited service. In addition, participants become 100% vested in the case of death, permanent disability or upon attaining the age of 65.

Notes Receivable from Participants

Participants may borrow from their participant accounts a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms cannot exceed five years, except in the case of purchase of a primary residence. The loans are secured by the participants' accounts and bear interest at a rate based on the prime rate as published by *The Wall Street Journal*, as of the last day of the preceding quarter, plus 1 percent. Principal and interest are paid ratably through payroll deductions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan have been prepared using the accrual basis of accounting where revenues are recognized when earned and expenses are recognized when incurred. This basis of accounting conforms to accounting principles generally accepted in the United States.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Fair Value Measurement and Disclosure
In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and confirming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, for non-public entities, except for amendments in this update where there was no transition guidance which was immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financial statements, and the impact of adopting ASU 2012-04 on subsequent periods has not yet been determined.

Investment Valuation and Income Recognition
At December 31, 2013, all of the Plan's invested assets were held at TD Ameritrade Trust Company and were invested based on participant selection of funds. Investments are reported at fair value. Fair value is the sale price that would be received to sell an asset or price paid to transfer a liability in a typical transaction between market participants at the date of measurement. Plan management establishes the Plan's valuation policies using information provided by the custodians of the investments. See Note H for discussion of fair value measurements. Investment assets, transactions and income as presented in the financial statements and supplemental schedules were certified by the trustee to be complete and accurate.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's realized and unrealized gains and losses on investments bought and sold, as well as held, during the year.

Contributions from Plan participants and the matching contributions from the Plan sponsor are recorded in the year in which the participant contributions are withheld from amounts paid.

The following presents investments that represent 5% or more of the Plan's net assets:

	2013	2012

Plan Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Payment of Benefits
Benefits are recorded when paid.

NOTE D - RELATED PARTY TRANSACTIONS

The Plan maintains a money market account which is invested with TD Bank. TD Bank is an affiliate of TD Ameritrade Trust Company, the trustee of the Plan, and therefore, these transactions qualify as party-in-interest transactions. The Plan held $74,472 and $53,920 in these investments at December 31, 2013 and 2012, respectively.

NOTE E - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan in whole or in part subject to the provisions of ERISA. In the event of complete or partial Plan termination, the Plan assets shall be distributed in accordance with the terms of the Plan.

NOTE F - TAX STATUS

The Plan was established by the Company by adoption of the Professional Capital Services, LLC Prototype Non-standardized Cash or Deferred Profit Sharing Plan, which has been previously approved by the IRS. The Company has not applied for a favorable determination designation by the Internal Revenue Service; however, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan adopted the provisions of Standards of Financial Accounting Standard ASC Topic 740, *Income Taxes* (ASC 740). ASC 740 prescribes a comprehensive model for recognizing, measuring, presenting and disclosing in the financial statements tax positions taken or expected to be taken on a tax return, including positions that the Plan took since issuance of ASC 740. The adoption of ASC 740 resulted in no changes to the Plan's beginning balances and net assets available for benefits.

With a few exceptions, the Plan is subject to income tax examinations by the U.S. federal, state, or local tax authorities for three years.

NOTE G - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, which such changes could materially affect participants' account balances, and the amounts reported in the statement of net assets available for benefits.

NOTE H - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE H - FAIR VALUE MEASUREMENTS (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds
These funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are generally open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Exchange Traded Funds
These funds are valued at the closing price, as of the valuation date, on the principal exchange or market on which the exchange traded fund is traded.

The following table set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2013, there were no significant transfers into or out of Levels 1, 2 or 3.

NOTE I - PLAN AMENDMENT

Effective August 1, 2013, the Plan's loan policy was amended to permit two outstanding loans at a time and to permit loan refinancing.

Effective December 31, 2013, the Plan was amended as follows:

To the extent permitted by Code section 402.A(c)(4), a Participant's Elective Deferral Account, Non-Elective Contribution Account, Matching Contribution Account, Qualified Non-Elective Contribution Account, Qualified Matching Contribution Account, and/or Rollover Contribution Account may, at the Participant's election, be converted to a Roth Conversion Account. Any such conversion into a Roth Conversion Account made pursuant to this section is intended to comply with Code section 402.A(c)(4) and any legislation and Internal Revenue Service and/or Treasury Department guidance pertinent thereto, and shall be administered, interpreted, and construed in a manner consistent with Code section 402.A(c)(4) and any legislation and Internal Revenue Service and/or Treasury Department guidance pertinent thereto. Should any such conversions be found not to comply with the provisions of Code section 402.A(c)(4), this section shall be modified and given effect (retroactively, if necessary), in the sole discretion of the Committee, in such manner as the Committee determines to be necessary or appropriate to comply with Code section 402.A(c)(4). For purposes of this section, "Roth Conversion Account" means an account established to hold any amount under the Plan that is converted from a Participant's Elective Deferral Account, Non-Elective Contribution Account, Marching Contribution Account, Qualified Non-Elective Contribution Account, Qualified Matching Contribution Account, and/or Rollover Contribution Account to a Roth "Account" in accordance with Code section 402.A(c)(4) and any legislation and Internal Revenue Service and/or Treasury Department guidance pertinent thereto.

NOTE J - SUBSEQUENT EVENTS

Statement of Financial Accounting Standard ASC Topic 855, *Subsequent Events* (ASC 855) establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued.

The Plan has evaluated subsequent events through September 8, 2014, the date the financial statements were available to be issued.
