1. PLAN DESCRIPTION AND RELATED INFORMATION

General

The following description of the Floral Supply Syndicate (the "Company") ("Sponsor") 401(K) Shared Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan covering all eligible employees of the Company as defined in the Plan agreement who have completed six months of service and are age eighteen or older. Employees may enroll in the Plan on the first day of the next month following eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan has been amended and restated to comply with applicable laws and regulations.

On February 28, 2012, the Sponsor changed the custodian of assets from Transamerica Life Insurance Company ("Transamerica') to Lincoln Financial Group ("Lincoln").

Plan Administration

The Plan's assets are held by Lincoln as of December 31, 2013 and 2012 and for the year ended December 31, 2013. The Company is the plan sponsor and plan administrator. The plan administrator is responsible for carrying out the duties imposed under ERISA. Certain administrative and Trustee functions are performed by officers or employees of the Company. However, no such officer or employee received compensation from the Plan. While certain administrative expenses are paid by the Plan, other administrative expenses are paid directly by the Company. Expenses incurred by the Company on behalf of the Plan totaled $1,124 for the year ended December 31, 2013. During 2013, $8,009 in expenses was offset against accumulated forfeitures as permitted by the Plan.

Contributions

Each year, Participants may contribute to the Plan elective compensation deferrals and up to 100% of any bonus, not to exceed the maximum contribution permitted by applicable provisions of the Internal Revenue Code ("IRC"). Participants who have attained age fifty by the last day of the plan year are eligible to make catch-up contributions. Roth 401(K) deferrals are not permitted under the Plan. In addition, Participants may contribute amounts rolled over from other qualified plans. Participants may make changes to their deferral for each payroll period. Participants direct the investments of their contributions into various investment options offered by the Plan.

1. PLAN DESCRIPTION AND RELATED INFORMATION (Continued)

Contributions (Continued)

The Company matches 20% of employee contributions, up to the first 7% of the Participant's compensation. Profit sharing contributions may also be made at the discretion of the Company, as determined each year. In order to receive the profit sharing contribution, an employee must be employed on the last day of the Plan year and have completed one year of service, as defined in the Plan agreement. The Company did not make profit sharing contributions during the Plan year ended December 31, 2013. The Company may also make contributions of an amount to be determined each year, as applicable, to satisfy nondiscrimination rules that apply to the Plan.

Participant Accounts

Each Participant's account is increased or decreased with the Participant's contribution or withdrawal and allocations of: (a) the Company's contributions, and (b) Plan earnings or losses, allocations of administrative fees and forfeitures. Allocations are based on Participant earnings or account balances, as defined in the Plan agreement. The benefit to which a Participant is entitled is the vested balance in the Participant's account.

Participant Loans

Participants may borrow from their vested benefits a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, as defined in the Plan agreement. Participants are allowed up to two loans outstanding at the same time. As applicable, married participants are required to obtain spousal consent before loans of more than $5,000 are issued. Loan terms range from one to five years but may be longer if the loan is used to purchase a primary residence. Loans are secured by the balance in the Participant's account and bear interest at rates ranging from 5.25% to 11.5%, which are commensurate with local prevailing rates as determined when the loan is approved. Principal and interest are paid ratably through payroll deductions. In the event a loan is considered in default, the Plan administrator has discretion in methods to be applied for such default as identified in the loan policy.

1. PLAN DESCRIPTION AND RELATED INFORMATION (Continued)

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon, as well as their rollover contributions or catch-up contributions, plus actual earnings thereon. Vesting in the Company's matching contributions and discretionary profit sharing contributions, plus earnings thereon, is based on years of continuous service in accordance with the following schedule:

Years of Service	Vesting Percentage
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

Participants will be fully vested in the Company's matching and discretionary profit sharing contributions at death, upon the attainment of normal retirement age or total disability.

Payment of Benefits

A Participant may withdraw funds from the Plan upon the occurrence of certain events including, but not limited to, retirement, death, disability or termination of employment. The Plan provides for involuntary distributions of vested account balances equal to or less than $1,000. All distributions will be made in lump sum payments. If the value exceeds $5,000, the funds will remain in the Plan until a written request for distribution is submitted by the Participant. Hardship distributions are permitted, under certain circumstances; however, the Participant is suspended from contributing to the Plan for the succeeding six months.

Forfeited Accounts

At December 31, 2013 and 2012, forfeited non-vested accounts totaled $1,316 and $8,737 respectively. Under the Plan agreement, forfeitures of non-vested employer contributions may be used to pay Plan expenses or reduce future employer contributions. During 2013, $8,009 was used to pay Plan expenses.

1. PLAN DESCRIPTION AND RELATED INFORMATION (Continued)

Concentration of Credit Risk

Financial instruments, which potentially subject the Plan to concentrations of credit risk, consist principally of participant notes receivable. Credit risk is limited due to limitations on the maximum number of loans a participant may have outstanding at any one time, as well as the provision that each participant's total outstanding loan balance cannot exceed 50% of his or her vested account balance. The remaining vested account balance serves as collateral.

Investment Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of securities will occur in the near term and that such changes could materially affect Participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements were prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"), requires management to make estimates and assumptions that affect certain reported amounts and disclosures in the financial statements. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Units in pooled separated accounts are stated on a net asset value per unit, as determined by Lincoln, which approximates fair value based on quoted market prices of the underlying securities. The Lincoln Group Variable Annuity with Guaranteed Fund complies with the fully benefit responsive requirement, therefore, contract value reporting is required. Contract value is the relevant measure attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the contract. The investment contract held by the Plan is carried in the Statement of Net Assets Available for Benefits at contract value, which approximates the fair value on the investment contract. Interest rates are declared quarterly with the average yield credited to the fund.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

Notes Receivable – Participants

Notes receivable from Participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Payment of Benefits

Benefits are recorded when paid.

3. CERTIFICATION

The following is a summary of the unaudited information included in the Plan's financial statements and supplemental schedule that were prepared and furnished to the Plan administrator by Lincoln for total investments and the aggregate of net appreciation in fair value and interest income. This information was provided by Lincoln as of December 31, 2013 and 2012 and for the year ended December 31, 2013. Currently, Lincoln holds the Plan's investment assets and executes its investment transactions.

The Plan administrator has obtained certifications from the Custodian that the following information is complete and accurate as of December 31, 2013 and 2012 and for the year ended December 31, 2013:

(a) Schedule of Assets (Held at End of Year) - December 31, 2013

(b) Investments, at fair value, at December 31:

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for similar assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for similar assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in active markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarch is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

***Mutual Funds*:** Based on quoted market prices of underlying securities, valued at the net asset value ("NAV") of shares held by the Plan at year-end.

***Stable Value Contract*:** Valued at contract value which approximates fair value, based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

There were no transfers between Level 1 and Level 2 for the year ended December 31, 2013.

NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2013

4. FAIR VALUE MEASUREMENTS (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	Total Fair Value	Quoted Prices in Active Markets for Identical Assets Level 1	Significant Unobservable Inputs Level 3

The Lincoln Group Variable Annuity with Guarantee Fund (investment contract) is backed by the general account of Lincoln. While Lincoln declares rates quarterly, any guarantees are subject to the claims paying ability of the insurance company. Lincoln may declare a full contract discontinuance or partial contract discontinuance. Ratings for Lincoln, from four recognized rating companies, are A+, A1, AA-, A+.

Contract discontinuance may occur by either party subject to the terms as defined in the Annuity Contract between Lincoln and the Company. The balance in the guaranteed account may be paid out in either a lump sum or systematic installments, as defined in the "Contract Specifications Endorsement". Distributions may be subject to market value adjustments.

5. INVESTMENTS (Continued)

Net changes in fair value of investments, including realized gains and losses on investments sold, are as follows for the year ended December 31, 2013:

Earnings on stable value and portfolio	$ 16,122
Net appreciation on investments - mutual funds	379,956
	$ 396,078

6. INVESTMENT CONTRACT WITH INSURANCE COMPANY

During the year ended December 31, 2013, the Plan continued a benefit responsive investment contract with Lincoln on a contract basis. Lincoln maintains the contributions in general accounts. The accounts are credited with earnings on the underlying investments and charged for Participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the contract. Contract value, which approximates fair value, as reported to the Plan by Lincoln, represents contributions made under the contract, plus earnings, less Participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issues or otherwise. The portfolio has an investment rate design in which all deposits are credited with the same interest rate, declared on a quarterly basis and credited annually, and with no set maturity.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that occurrence of any such event, which would limit the Plan's ability to transact at contract value with Participants, is probable. This investment option is not guaranteed by the Federal Deposit Insurance Corporation ("FDIC") or any other government agency.

FLORAL SUPPLY SYNDICATE 401(K) SHARED SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2013

6. INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

Average yields on the contract are as follows at December 31, 2013:

Based on actual earnings	1.98%
Based on interest credited to Participants	2.60%

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, Participants will become 100% vested in their employer contributions.

8. PARTY IN INTEREST TRANSACTIONS

Plan investments were managed by Lincoln as of December 31, 2013 and 2012 and for the year ended December 31, 2013 to provide record keeping, investment allocation and custodial services to the Plan. "Separate Account Fees" are charged by Lincoln through the determination of per unit closing values of units in pooled separate accounts. These transactions qualify as "Party-in-Interest" which are exempt from the prohibited transaction rules. Administrative fees charged during the year ended December 31, 2013 totaled $25,385. Certain Plan investments are shares of pooled separate accounts offered by Lincoln Variable Insurance Products Trust, the Plan record keeper. Lincoln Variable Insurance Products Trust currently is offered only to separate accounts that fund variable annuity and variable life insurance contracts of The Lincoln National Life Insurance Company, its affiliates and third-party insurance companies. Shares in the fund cannot be purchased directly. Therefore, these transactions qualify as party-in-interest transactions and are denoted as such on the accompanying Schedule of Assets (Held at End of Year).

9. TAX STATUS

The Plan has adopted a Prototype Non-Standardized Profit Sharing Plan document pre-approved by the IRS. The IRS reviewed the Plan document and opined in a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

FLORAL SUPPLY SYNDICATE 401(K) SHARED SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2013

9. TAX STATUS (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. Subsequent to year end, the Plan has been contacted by the IRS relating to examination of 2012. Field work by the IRS has not yet commenced.

10. SUBSEQUENT EVENTS

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 13, 2014, the date the financial statements were available to be issued. See Note 9 regarding subsequent event.
