ENVIRONMENTAL MATERIALS, LLC 401(K) PLAN

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Environmental Materials, LLC 401(k) Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established October 31, 2004 and restated effective December 22, 2009. The Plan is available to employees age 21 years or older who have completed one year of service and work a minimum of 1,000 hours per year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Environmental Materials, LLC (the "Company") administers the Plan. Fidelity Management Trust Company serves as trustee, manages Plan investments, maintains the Plan's records, serves as the custodian, and offers Plan participants a variety of investment options through various mutual funds and a money market fund. Individual accounts are invested in the various investment options at the direction of the participants.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Contributions

Participants may make before-tax contributions up to 100% of their annual compensation (90% effective December 22, 2009), not to exceed the annual contribution limits established by the Internal Revenue Service. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions. The Company contributes 100% of the first 3% of an employee's eligible compensation and 50% of the next 2% of an employee's eligible compensation as matching employer contributions on an annual basis. An employee is not required to be employed the last day of the year to be eligible to receive the employer matching contribution. The Company contributed \$207,258 for the year ended December 31, 2009.

Participants' Accounts

Each participant's account is adjusted by the participant's contributions, an allocation of the Company's contributions, Plan earnings and losses, and administrative expenses. Allocations are based upon Plan earnings and losses and account balances, as defined in the Plan document. The benefit to which a participant is entitled is the participant's entire account balance because all employees are 100% vested at all times.

ENVIRONMENTAL MATERIALS, LLC 401(K) PLAN

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participant Loans

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum amount equal to the lesser of 50% of their vested account balances or \$50,000. The loans are secured by the balances in the participants' accounts and bear interest at 5%, which is fixed at loan inception and is commensurate with local prevailing rates as determined quarterly by the Plan administrator. The loans mature at dates ranging through November 14, 2017. Principal and interest is paid ratably through payroll deductions. Loans are to be repaid on a quarterly basis over a five-year period, with the exception of loans for a principal residence which are to be repaid over a period not to exceed ten years.

Payments of Benefits

Upon death, disability, retirement, or termination of service, a participant, upon election, may receive a lump-sum payment in the amount equal to the participant's vested account balance within a reasonable period of time after termination of employment. Participants may not make withdrawals from their accounts prior to retirement at age 59 1/2, except in the event of disability, death, termination of employment, or notice of hardship, without being subject to certain restrictions and penalties. Account balances of terminated participants between \$1,000 and \$5,000 will be automatically rolled over into a designated Individual Retirement Account for the participants' benefit. Account balances of terminated participants that are less than \$1,000 may be immediately distributed upon a distribution event. Benefits are recorded when paid.

Valuation of Investments and Income Recognition

The assets of the Plan are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between participants at the measurement date. See Note 3 for a discussion of fair value measurements.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits, and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

ENVIRONMENTAL MATERIALS, LLC 401(K) PLAN

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Risk and Uncertainties

The Plan provides for various investments, which in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by Fidelity Management Trust Company are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of comparable U.S. companies.

Note 2 - Investments

Fidelity Management Trust Company has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of December 31, 2009 and 2008 and the income earned on the investments for the year ended December 31, 2009, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the trustee except for comparing the information contained therein to information included in the financial statements and the supplemental schedule.

Investments greater than 5% of net assets available for benefits were the following:

	December 31,	
	2009	2008
Fidelity Retire Money Market	\$ 315,529	\$ 168,748
Fidelity Freedom 2025	\$ 215,795	\$ 148,172
Fidelity Freedom 2030	\$ 188,020	\$ 62,778
Fidelity Diversified International	\$ 153,157	\$ 82,057

* Indicates investments not greater than 5% of net assets available for benefits.

ENVIRONMENTAL MATERIALS, LLC 401(K) PLAN

Notes to Financial Statements

Note 3 - Fair Value Accounting

Fair value accounting establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets.

The following assets are measured at fair value on a recurring basis:

As of December 31, 2009:

Description	Level 1	Level 2	Level 3	Total
Money market funds	\$ 315,529	\$ -	\$ -	\$ 315,529
Mutual funds	1,671,475	-	-	1,671,475

ENVIRONMENTAL MATERIALS, LLC 401(K) PLAN

Notes to Financial Statements

Note 3 - Fair Value Accounting(continued)

The valuation technique used to measure fair value of the mutual funds and money market fund was determined based on the value of the underlying assets and securities, the majority of which have observable Level 1 pricing inputs, including publicly quoted prices and quoted prices for similar assets in active or non-active markets.

The valuation technique used to measure fair value of the participant loans was based on historical cost, which approximated fair value.

There were no changes to the valuation techniques used during the period.

Level 3 Changes

The following is a reconciliation of the beginning and ending balances for assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) during the year ended December 31, 2009:

	<u>Participant Loans</u>
Beginning balance	\$ 40,598
Purchases, issuances and settlements, net	<u>34,631</u>
Ending balance	<u>\$ 75,229</u>

Note 4 - Income Taxes

The Plan did not obtain a Plan specific determination letter as it operates with the trustee's determination letter, which was issued on the basic Plan document. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code, and, therefore, no provision for income taxes has been included in these financial statements.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the case of Plan termination, a single lump-sum payment will be made to all participants until the trustee has distributed all assets.

ENVIRONMENTAL MATERIALS, LLC 401(K) PLAN

Notes to Financial Statements

Note 7 - Related Party Transactions

Plan investments include mutual funds and a money market fund managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee, as defined by the Plan, and, therefore, these transactions qualify as party-in-interest, which are exempt from prohibited transaction rules.

Note 8 - Reconciliation to Form 5500

Contributions and receivables for financial reporting purposes differ from amounts shown on the Plan's Form 5500 for the years ended December 31, 2009 and 2008 due to the accrual of employer contributions paid to the Plan subsequent to year-end. As of December 31, 2009 and 2008, the amount of the difference in net assets available for benefits and in contributions receivable was \$207,258 and \$265,734, respectively.

Note 9 - Subsequent Events

The Company has evaluated all events subsequent to the balance sheet date of December 31, 2009 through August 17, 2010, the date the accompanying financial statements and supplemental schedule were available to be issued, and determined there were no subsequent events requiring additional disclosure.
