LMI EMPLOYEE RETIREMENT / SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

1. DESCRIPTION OF PLAN

The following description of the LMI Employee Retirement / Savings Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Larry Methvin Installation, Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Employees who have attained at least 18 years of age are immediately eligible to participate in the Plan following the completion of three months of service.

Administration

The Plan is administered by the Company.

Contributions

Participants may elect to contribute between 1% and 92% of eligible compensation, not to exceed the limits set forth under the Internal Revenue Code (the IRC). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may also contribute amounts representing rollover distributions from other qualified defined benefit or defined contribution plans.

During 2009, the Company matched 1% of the participant's compensation, up to the first 6% of the amount deferred. The Company may also make discretionary profit sharing contributions as determined annually by the Board of Directors. For the year ended December 31, 2009, the Company made no discretionary profit sharing contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN - (Continued)

Vesting

Participants are immediately vested in their voluntary contributions, and actual earnings thereon. The vesting schedule for Company contributions is as follows:

Years of Service	Percent Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures

The unvested portion of a terminated participant's Company contribution account will be used to reduce future Company contributions or to pay Plan expenses. During the year ended December 31, 2009, $10,660 of forfeitures were used to pay Plan expenses. As of December 31, 2009 and 2008, there were $90 and $7,353, respectively, of unapplied forfeitures.

Participant Loans

Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 to 5 years or within a reasonable period of time that is longer than 5 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and generally bear interest at a rate commensurate with the rates that a bank or other professional lender would charge for making a loan in a similar circumstance. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or an annuity. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Participants may also elect to rollover their fund balance to another tax deferred account or remain in the Plan until they are legally required to begin taking distributions.

1. DESCRIPTION OF PLAN - (Continued)

Payment of Benefits - (Continued)

All vested account balances not exceeding $1,000 will be immediately distributed in a lump-sum payment. With the plan administrator's approval, participants may withdraw all or part of their contributions in the event of financial hardship.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value in accordance with the provisions of accounting guidance issued by the Financial Accounting Standards Board (FASB) on fair value measurements (see Note 3).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Plan Fees and Administrative Expenses

Plan fees and administrative expenses are generally paid by the Plan, unless paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Subsequent Events

In May 2009, the FASB issued new guidance which establishes general standards for accounting for and disclosure of events that occur after the date of the financial statements but before financial statements are available to be issued. More specifically, this new guidance sets forth the period after the date of the financial statements during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition in the financial statements, identifies the circumstances under which an entity should recognize events or transactions occurring after the date of its financial statements and the disclosures that should be made about events or transactions that occur after the date of the financial statements. This new guidance provides largely the same framework for the evaluation of subsequent events which previously existed only in auditing literature. The Company has evaluated subsequent events through the date of the audit report, which is the date the accompanying financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

On January 1, 2008, the Plan adopted the required provisions of accounting guidance issued by the FASB on fair value measurements. The provisions of this guidance defines fair value, establishes a framework for measuring fair value in accordance with accounting principles generally accepted in the United States of America, and expands disclosures about fair value measurements. The guidance is intended to enable the reader of the financial statements to assess the quality and reliability of the inputs used to develop those measurements by establishing a hierarchy, which maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the observable inputs be used when available.

Observable inputs are inputs that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Plan. Unobservable inputs are inputs that reflect the Plan's estimates about the assumptions market participants would use in pricing the asset or liability based on the best information available under the circumstances.

The hierarchy is broken down into three levels based on the reliability of inputs as follows:

- Level 1 – Inputs to the valuation methodology are quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

3. FAIR VALUE MEASUREMENTS - (Continued)

- Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets or inactive markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified contractual term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level for an asset or liability, within the fair value hierarchy, is based on the lowest level of input that is significant to the fair value measurement at December 31, 2009 and 2008. Valuation methods need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following valuation methodologies were used for the Plan's assets to measure fair value at December 31, 2009 and 2008:

Registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year end. The NAV of registered investment companies is based upon the market value of the underlying investments and observable inputs. The NAV of the registered investment companies is classified within level 1 of the valuation hierarchy.

Participant loans: Valued at amortized cost, which approximates fair value and are classified within level 3 of the valuation hierarchy.

Although the methods above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values, the Plan believes its valuation methods are appropriate and consistent with other market participants and that the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. FAIR VALUE MEASUREMENTS - (Continued)

The following fair value hierarchy table presents information about the Plan's investments measured at fair value on a recurring basis as of:

Description	Total	Level 1	Level 2	Level 3
December 31, 2009				
Registered investment companies	$ 2,374,232	$ 2,374,232	$ -	$ -
Participant loans	144,279	-	-	144,279
Total assets at fair value	$ 2,518,511	$ 2,374,232	$ -	$ 144,279

Registered investment companies	$ 2,007,880	$ 2,007,880	$ -	$ -
Participant loans	168,427	-	-	168,427
Total assets at fair value	$ 2,176,307	$ 2,007,880	$ -	$ 168,427

The following table presents a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009:

	Participant Loans
Balance, beginning of year	$ 168,427
Loan interest income	10,977
New loans issued	59,184
Loan repayments and loans deemed distributed	(94,309)
Balance, end of year	$ 144,279

4. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, ING Institutional Plan Services, LLC (ING), on behalf of Reliance Trust Company, the custodian of the Plan, has certified to the completeness and accuracy of the following information which is included in the financial statements and supplemental schedule of assets (held at end of year) as of December 31, 2009 and 2008, and for the year ended December 31, 2009:

	2009	2008
Registered investment companies	$ 2,374,232	$ 2,007,880
Net appreciation in fair value of investments	435,856	n/a
Interest and dividends	45,882	n/a

5. TAX STATUS

The Company adopted a Volume Submitter Plan which received a favorable opinion letter from the Internal Revenue Service (IRS), on March 31, 2008, which stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. The Plan has since been amended and restated most recently to include the provisions of the Economic Growth and Tax Relief Reconciliation Act of 2001. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

As of the audit report date, the Company has determined that a partial plan termination occurred during 2008. A partial plan termination is deemed to occur when an employer initiated action results in a significant decrease in plan participants. The law requires that all affected participants be fully vested in their account balances, including employer contributions, once a partial plan termination has occurred. The Company is currently in process of taking the appropriate steps to ensure the Plan remains in compliance with the applicable ERISA and DOL requirements. The outcomes of this determination, is not expected to have a material impact on the accompanying financial statements. Additionally, late remittances discovered during the 2005 audit, have not yet been corrected. The Plan's management believes that this is not a disqualifying action of the Plan and that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. INVESTMENTS

The following table presents investments that represent 5% or more of the Plan's net assets as of December 31, 2009 and 2008:
