LANDMARK 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

For the Plan Year Ended December 31, 2013

A. Description of Plan:

The following description of the Landmark ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan was adopted January 1, 2006, as further restated April 30, 2010.

1. *General* - The Plan is a defined contribution plan. Employees of the Company are eligible to participate in the Plan after 1 hour of service and an attained age of 21. Employees enter the Plan at the beginning of the month after meeting the eligibility requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. *Contributions* - Each year, participants may contribute up to the allowable limit of compensation as defined in the Plan. Participants may also contribute amounts representing rollover distributions from other qualified defined benefit or contribution plans. The Company match is discretionary and will be determined at year-end for the subsequent year. During 2013 the Company did not make a matching contribution.

3. *Participant Accounts* - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. *Vesting* - Participants are immediately vested in their elective contributions. Vesting in the Company's matching contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

5. *Investment Options* - Upon enrollment in the Plan, a participant may direct employee contributions in any of the investment options available through the Hartford Life Insurance Company. The Plan intends to meet the requirements ERISA section 404(c) by providing sufficient information to participants to make informed investment choices.

6. *Payment of Benefits* - On termination of service, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. The distribution will occur as soon as administratively practicable following the participant’s separation from service. At December 31, 2013, $246,176 is allocated to terminated persons, but has not been paid. Benefits are recorded when paid.

A. Description of Plan – (Continued):

7. *Forfeitures* - Forfeited accounts will be used to reduce the administrative expenses of the plan and then to reduce employer matching contributions.

8. *Administrative Expenses* - The employer will pay all reasonable Plan administrative expenses.

9. *Notes Receivable from Participants* - The Plan does not provide for notes receivable from Participants.

10. *Insurance Contracts* – The Plan has purchased group annuity contracts with Hartford Life Insurance Company. The fees and commissions paid to this company totaled $6,969 during the year ended December 31, 2013.

B. Summary of Accounting Policies:

Date of Management's Review – Subsequent events were evaluated through October 14, 2014, which is the date the financial statements were available to be issued.

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value as certified by Hartford Life Insurance Company. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to group annuity contracts because contract value is the amount participants would receive if they would initiate permitted transactions under the terms of the plan. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded when declared. Dividends and capital gains paid by registered investment companies are reinvested. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Statement of Net Assets Available for benefits presents the fair value of the investment contracts as well as the adjustment of the group annuity investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on the contract basis.

Payment of Benefits - Benefits are recorded when paid.

C. Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to amend or discontinue the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

D. Tax Status:

The Plan is a prototype standardized profit sharing plan with CODA that obtained its latest determination letter on August 30, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been recorded. The plan administrator believes the plan is no longer subject to income tax examinations for years prior to 2010.

E. Information Provided by Investment Manager:

Hartford Life Insurance Company provided the Plan with periodic statements which report all transactions and assets held at the end of the period. The Plan administrator has obtained certification from Hartford Life Insurance Company that the information in such statements is complete and accurate. The certification applies to all investment assets, investment transactions, investment income and the supplementary schedules.

G. Investments:

The following presents investments that represent 5% or more of the Plan's net assets:

During 2013, the Plan's investments, including gains and losses on investments bought and sold, as well as held during the year, appreciated in value by $204,650.

H. Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

I. Fair Value Measurements:

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

ASC 820 (formerly SFAS No. 157), *Fair Value Measurements*, was adopted for the plan year ended December 31, 2008 and comparative fair value measurements for the prior plan year are not included. ASC 820, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consists of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 3 inputs were available to the Plan.

Level 1 Fair Value Measurements

The fair value of pooled separate accounts are based on quoted net asset values of the shares held by the Plan at year-end and are reported at fair value in the accompanying statements of net assets available for benefits.

Level 2 Fair Value Measurements

The fair value of pooled separate accounts directly investing in fixed maturity securities are based on the pricing data provided by outside valuation service providers who in turn generally use the mean bid and ask prices but may also use alternative observable pricing inputs for certain securities.

I. Fair Value Measurements – (Continued):

J. Party-in-Interest Transactions:

The Company provides certain accounting and administrative services to the Plan for which no fees are charged. These transactions are exempt party-in-interest transactions.

The Plan auditors are considered parties-in-interest. All audit fees are paid by the Plan sponsors.

K. Reconciliation of Financial Statements to Schedule H of Form 5500:

Net assets available for benefits per Schedule H of the Form 5500	$ 1,690,428	$ 1,193,688

L. Investment Contract with Insurance Company:

The Plan entered into a benefit-responsive investment contract with Hartford Life Insurance Company (HLIC). HLIC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the plan by Union. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note B, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $176,776 and $144,989, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on quarterly basis for resetting.

Certain events limit the Plan's ability to transact at the contract value with Union. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investments options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example , divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. The declared interest rates for the years ended December 31, 2013 and 2012 were 2.00% and 2.00%, respectively.
