RETIREMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2009

(1) Summary of Significant Accounting Policies

Assets and liabilities and income and expenses are recognized on the accrual basis of accounting. The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

(2) Information Prepared and Certified By Trustee

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustee.

	2009	2008
Investments, at fair value:		
Mutual funds	$ 17,895,914	13,750,496

(3) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note (6) for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year. Benefits are recorded when paid.

(4) Investments

The following table presents investments that represent 5 percent or more of the Plan's net assets:

	December 31,	
	2009	2008

Mutual Funds	$ 2,111,242

(5) Description of Plan

The following description of the Autumn Corporation 401(k) Retirement Savings Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a. General. The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b. Contributions. Participants may make contributions by electing to have their pretax compensation reduced by an amount not to exceed $16,500 per year. Qualifying individuals may contribute an additional $5,500 "catch up" contribution. Participants may also contribute amounts representing distributions from other qualified plans. The employer may make matching contributions equal to a discretionary percentage, (determined by the employer) of the participant's salary reductions.

c. Participant Accounts. Each participant's account is credited with the participant's contribution and an allocation of the employer's contribution and Plan earnings and is charged with an allocation of Plan losses, if any, and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d. Vesting. Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

e. Investment Options. Upon enrollment in the Plan, a participant directs employee and employer contributions in any of the Plan's investment options. Participants may change their investment options on a daily basis.

f. Payment of Benefits. On termination of service, due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of his or her account, or an annuity contract. For termination of service due to other reasons, a participant may receive the value of the vested interest in his account as a lump-sum distribution.

g. Forfeited Accounts. Forfeitures of terminated participants nonvested accounts are used to reduce future employer's matching contributions. At December 31, 2009 and 2008, forfeited nonvested accounts totaled $23,636 and $17,255, respectively.

h. Participant Notes Receivable. The Plan allows loans to participants of up to one-half of their vested balance but not less than $1,000. Loans are repaid within a five-year period or less by payroll deduction and bear interest at a financial institution's secured loan rate as determined by the Plan administrator, currently 4.25 percent. Loans are secured by the balance in the participant's account.

(6) Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit.

Statement of Financial Accounting Standards No. 157, Fair Value Measurements, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 3 Fair Value Measurements

Participant loans are not actively traded and significant other observable inputs are not available. The fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009:

(6) Fair Value Measurements, Continued

	Participant Loans
Balance, beginning of year	$ 868,696
Purchases, sales, issuances, and settlements (net)	34,144
Balance, end of year	$ 902,840

(7) Plan Termination

Although it has not expressed any intent to do so, the employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

(8) Tax Status of Plan

The Plan, last amended December 14, 2006, is a prototype plan document which has received a favorable determination letter dated June 22, 1995 from the Internal Revenue Service. The plan administrator believes that the Plan is qualified and operated in compliance with the applicable requirements of the Internal Revenue Code.

(9) Risks and Uncertainties

The Plan invests in various investment securities as directed by participants. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

(10) Subsequent Events

The need for disclosure of subsequent events has been evaluated through July 23, 2010, the date the financial statements were available to be issued.
