GA TELESIS, LLC PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE A – DESCRIPTION OF PLAN

The following description of GA Telesis, LLC Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General and Eligibility. The Plan is a defined contribution plan covering all full-time employees of GA Telesis, LLC (the "Company" and "Plan Sponsor") who have at least three months of service and are age eighteen or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was amended and restated effective January 1, 2009 (see Note H).

Employee Contributions. Each year, participants may contribute pretax annual compensation, as defined in the Plan, to a maximum as defined by Internal Revenue Code Section 402(g), which placed contribution limits from each participant at $17,500 for 2013 and $17,000 for 2012. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Employer Contributions. The Company may make discretionary matching contributions. For the years ended December 31, 2013 and 2012, the Company matched 50% of participant contributions up to a maximum match of 3% of salary. Contributions are subject to certain additional limitations. The Company may also make an optional profit sharing contribution at its discretion.

Investment Options. Participants direct the investment of their contributions and matching contributions into various investment options offered by the Plan. The Plan offers various mutual funds and insurance investment contracts as investment options for participants.

Participant Accounts. Each participant's account is credited with the participant's contributions, net investment earnings on the account balance and his/her share of the Company's contributions. Investment earnings and losses result from each participant's self-directed account and charged with management or service fees. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service, which is accelerated if the Plan should become top heavy.

Participant Loans. The Plan does not provide for loans to participants.

Payment of Benefits. On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or in annual installments. For termination of service due to other reasons, a participant generally receives the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts. At December 31, 2013 and 2012, forfeited non-vested accounts totaled $73,382 and $58,869, respectively. For the years ended December 31, 2013 and 2012, there were no funds used to reduce employer contributions or pay for plan expenses.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. *Date of Management Review*

   The Plan has evaluated subsequent events through October 10, 2014, the date the financial statements were available to be issued.

2. *Basis of Accounting*

   The accompanying financial statements have been prepared on the accrual basis of accounting, except that benefits are recorded when paid.

   Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value, if any. The Statements of Changes in Net Assets Available for Benefits is prepared using contract value for the fully benefit-responsive investment contract.

3. *Estimates*

   The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America (GAAP) requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

4. *Withdrawals and Exchanges*

   Withdrawals and exchanges between investment fund options by participants are recorded based upon the specific proceeds and cost of the investment at the date of withdrawal or exchange.

5. *Investment Valuation and Income Recognition*

   The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

   Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

6. *Administrative Expenses*

   All expenses of maintaining the Plan are paid by the Company. Individual account administrative fees are paid by the participants.

NOTE C – CASH

The Plan maintains its cash balance in an account that is held by John Hancock Life Insurance Company (U.S.A.), the Plan's investment custodian. This account is funded by forfeitures of participant balances. Under the terms of the Plan, this balance is available solely to reduce the Company's contributions or to pay any administrative expenses that may not be paid by the Company. The cash balance was $73,382 and $58,869 at December 31, 2013 and 2012, respectively.

NOTE D – INVESTMENTS

All of the Plan's investments are held by John Hancock and are participant directed.

The following table presents investments that represent 5% or more of the plan:

Net Assets:	2013	2012
Lifestyle Aggressive	$ 529,905	$ 373,571
Lifestyle Balanced	1,179,157	857,981
Lifestyle Growth	1,436,960	996,626
Money Market Fund	681,127	579,112

NOTE E – FAIR VALUE OF INVESTMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. No Level 1 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 2 Fair Value Measurements

Pooled Separate Accounts: The Pooled Separate Account is divided into investment divisions called "Sub-Accounts". Each Sub-Account invests in shares of an underlying mutual fund. Sub-accounts are measured in terms of "Accumulation Units". The Accumulation Units of a Sub-Account are assigned a unit of value on a daily basis, at the end of each day the New York Stock Exchange ("NYSE") is open for trading, as of the close of the NYSE on that date (called a "Valuation Day"). To determine the current Accumulation Unit Value for a Sub-Account, the prior Valuation Day's Accumulation Unit Value is multiplied the Net Investment Factor. The "Net Investment Factor" for each Sub-Account equals the net asset value (NAV) per share of the underlying Fund held in the Sub-Account at the end of the current Valuation Day, divided by the NAV per share of the underlying Fund held in the Sub-Account at the end of the prior Valuation Day, minus any daily mortality and expense risk and administration charges, if applicable.

NOTE E – FAIR VALUE OF INVESTMENTS (continued)

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company is not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined using an income approach based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

For those assets with fair value measured using Level 3 inputs, the Plan Sponsor determines the fair value measurement policies and procedures in consultation with John Hancock. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

		Fair Value Measurements at the End of the Reporting Period Using:	
	Fair Value	Significant Other Observable Units (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2013			
Mutual funds:

Balanced funds	1,191,167	1,191,167	-

Guaranteed investment contract with insurance company	93,742	-	93,742
Total Investments at Fair Value	$ 4,462,915	$ 4,369,173	$ 93,742

NOTE E – FAIR VALUE OF INVESTMENTS (continued)

The following tables reconcile the beginning and ending balances of fair value measurements using significant unobservable inputs (Level 3) of the guaranteed investment contract with John Hancock, USA for the years ended December 31, 2013 and 2012:

December 31, 2013

Beginning balance	$	93,742
Net losses included in changes in net assets available for benefits		(145)
Purchases and settlements:		
Purchases		9,348
Settlements		(723)
Ending Balance	$	102,222

December 31, 2012

Beginning balance	$	77,146
Net losses included in changes in net assets available for benefits		(32)
Purchases and settlements:		
Purchases		17,540
Settlements		(912)
Ending Balance	$	93,742

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2013 and 2012, there were no significant transfers into or out of Level 3.

NOTE F – PARTY-IN-INTEREST TRANSACTIONS

John Hancock provides certain investment management and administrative services to the Plan. John Hancock is also the Plan's custodian and, therefore, these transactions qualify as party-in-interest transactions.

The Pension Company is the Plan's third party administrator and received fees for recordkeeping and other administrative functions directly from the Plan Sponsor.

NOTE G – PLAN TERMINATION

Although it has not expressed any interest to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their entire account balances.

NOTE H – TAX STATUS

The Plan obtained its latest determination letter as of March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended and restated (see Note A) since receiving the determination letter. The Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Sponsor has analyzed the tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Sponsor believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE I – RISKS AND UNCERTAINTIES

Investments

The Plan invests in various investments. These investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statements of net assets available for benefits.

NOTE J – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into a variable group annuity contract with John Hancock Life Insurance Company (U.S.A.) ("John Hancock"). John Hancock maintains the contributions in a variable annuity contract which invests in pooled separate accounts consisting of numerous mutual fund options with a range of investment objectives and common collective trust funds. The common collective trust funds generally invest in affiliated and unaffiliated mutual funds, John Hancock separate accounts and unaffiliated collective trust funds.

NOTE J – INVESTMENT CONTRACT WITH INSURANCE COMPANY (continued)

Increases or decreases in value are based upon the underlying mutual funds and investments in which the assets are invested. Gain or loss is determined by the fluctuation in the market value incurred by each of the variable return contract funds holding investments. All gains and/or losses reported to the Plan by John Hancock are unrealized. A determination of realized gain or loss can only be made at the moment all of the funds are liquidated. The variable annuity contract does not own shares – it owns units. John Hancock is the owner of the shares. The account is credited with earning on the underlying investments and charged for Plan withdrawals and administrative expenses. The contract is included in the financial statements at contract value, (which represents contributions made under the contract, plus earnings (appreciation), less withdrawals, and administrative expenses) because it is fully benefit responsive. For example, participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $5,998,739 and $4,369,173.

NOTE K – GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into a fully benefit-responsive guaranteed investment contract with John Hancock. John Hancock maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value, if any, in arriving at net assets available for benefits. Contract value, as reported to the Plan by John Hancock, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $102,222 and $93,742, respectively.
