To the Board of Directors and Administrative Committee of
The Original Fish Company 401(k) Plan
Los Alamitos, California

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The Original Fish Company 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by John Hancock Life Insurance Company (USA) ("John Hancock"), the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2013 and 2012, that the information provided to the plan administrator by the custodian is complete and accurate.

THE ORIGINAL FISH COMPANY 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013

Note 1: Description of the Plan

The following description of The Original Fish Company 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan which was adopted by The Original Fish Company (the "Company"), and is subject to the requirements of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code of 1986, as amended. The purpose of the Plan is to provide retirement benefits for substantially all employees who have completed at least one year of service and are age 21 or older. As soon as they are eligible, employees are presented the option of enrolling into the Plan on the first day of the quarter following the date on which the employee met the eligibility requirements unless they elect to opt out of participating.

Contributions

Participants may elect to contribute up to 100 percent of their annual wages up to a maximum deferral limitation, as prescribed by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Employer non-elective contributions to the Plan will be at the discretion of the Board of Directors. For the year ended December 31, 2013, the Board of Directors elected not to make any contributions to the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) Plan earnings, and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is vested at the rate of 20 percent each year, after two years of service and is considered to be 100 percent vested after six years of credited service.

Note 1: Description of the Plan (Continued)

Notes Receivable from Participants

Participants may borrow against their Plan account balance within Plan guidelines. Loan terms are at the discretion of the borrower but generally cannot exceed five years. The loan amount must be a minimum of $1,000 but cannot exceed the lesser of (a) one-half of the participant's non-forfeitable interest under the Plan, or (b) $50,000. Interest is charged on the outstanding balance at rates determined by the plan administrator based on the prevailing interest rates. Principal and interest are paid ratably through payroll deductions. The notes are secured by the vested balance in the participant's account.

Benefit Payments

Upon termination of service due to death, disability, retirement, or for other reasons, a participant will receive a lump-sum distribution equal to the vested portion of his or her account, as defined in the Plan document. Participants may also elect to rollover their account into another tax deferred account or remain in the Plan until they are legally required to begin taking distributions. All vested account balances not exceeding $1,000 will be immediately distributed in a lump-sum payment. Additionally, under certain circumstances of financial hardship or upon attaining the age of 59 ½, the participant is allowed to withdraw certain funds from the Plan.

Forfeitures

Upon termination of a participant, the non-vested portion of the participant's interest is forfeited. Forfeitures of the Company's contributions are used first to reduce administrative expenses of the Plan, and any remaining forfeitures are applied to reduce future employer's contributions. During the year ended December 31, 2013, there were no forfeitures that were used to reduce administrative expenses or employer contributions.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan.

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation (depreciation) in fair values of investments.

Note 2: Summary of Significant Accounting Policies

The following are the significant accounting policies of the Plan:

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value at December 31, 2013 and 2012. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 11 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Capital gains and/or losses are reported the day after the trade date.

Net realized and unrealized appreciation is recorded in the accompanying statement of changes in net assets available for benefits as net realized and unrealized gains on pooled separate accounts.

Brokerage fees are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. Delinquent participant loans are reclassified as distributions based upon terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The process of preparing financial statements in accordance with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and gains, and expenses and losses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Note 3: Concentrations, Risks and Uncertainties

The Plan invests in various investment securities and guaranteed contracts. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Plan held substantially all of its assets with one institution. In the event of the institution's failure, the Plan could be subject to losses in its unallocated contracts at December 31, 2013 and 2012, totaling $57,604 and $56,342, respectively. The Plan is also at risk of loss in any of its pooled separate accounts which could fail to the extent of the dollars invested in the funds.

Note 4: Information Prepared and Certified by John Hancock

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the custodian:

	2013	2012
Investments, at Fair Value:		
Pooled Separate Accounts	$ 871,359	$ 741,246
Guaranteed Investment Contracts	57,604	56,342
Money Market Funds	91,945	90,685
Notes Receivable from Participants	26,363	16,262

Certain information disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2013 and 2012, and net appreciation in fair value of investments and interest income for the year ended December 31, 2013, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by John Hancock.

Note 5: Investments

The following table presents investments that represent 5 percent or more of the Plan's net assets:

	2013	2012
Pooled Separate Accounts:		
JH Lifestyle Balanced	$ 367,876	$ 317,633
JH Lifestyle Conservative	94,356	82,996
JH Lifestyle Growth	256,019	212,740
Money Market Fund	91,945	90,685
Guaranteed Investment Contracts - 10 Year Contract	57,604	56,342

Note 6: Investment Contract with Insurance Company

The Plan has an investment contract with John Hancock. John Hancock maintains the contributions in guaranteed investment contracts. Theses accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contracts are considered non-fully benefit responsive, as such they are reported at fair value on the financial statements. In 2013 and 2012, the crediting interest rates ranged from 0.05% to 4.08% and 0.14% to 4.08%, respectively.

Note 7: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, all participants would become fully vested in their accounts.

Note 8: Tax Status

The Plan is based on the Prototype Volume Submitter Profit Sharing with CODA which received a determination letter from the Internal Revenue Service ("IRS") dated January 31, 2006, stating that the Prototype Plan was designed in accordance with the provisions of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter; however, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. The related trust, therefore, is not subject to tax under present income tax law.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 9: Fidelity Bond

ERISA requires that the Plan be covered by a fidelity bond. The amount of the bond must be equal to the lesser of 10 percent of the funds handled or $500,000. For the year ended December 31, 2013, the Plan met the minimum bonding requirement.

Note 10: Party-in-Interest

The investments in pooled separate accounts and guaranteed investment contracts are managed by John Hancock which is the custodian, as defined by the Plan, and; therefore, these investments qualify as party-in interest transactions. Administrative fees are also paid to the custodian and the third party administrator, which are considered to be party-in-interest transactions. Notes receivable from participants represent loans to employees, and therefore, also qualify as party-in-interest transactions.

Note 11: Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *"Fair Value Measurements and Disclosures"*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 11: Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Money Market Funds: Valued at their historical cost plus any accrued interest, which approximates fair value.

Pooled Separate Accounts: The value of pooled separate accounts is determined by fair market value for each fund and is based upon quoted market prices of the underlying assets, adjusted for any contractual provisions (i.e. administrative maintenance charges). The unit value of the separate account is calculated by dividing the total value of the assets of the separate account by the number of units in the separate account.

Guaranteed Investment Contracts: Value is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets, measured on a recurring basis, at fair value as of December 31, 2013:

	Level 1	Level 2	Level 3	Total

Small Capitalization Growth

These funds seek capital appreciation by investing, under normal market conditions, at least 80% of their net assets (plus any borrowings for investment purposes) in stocks of companies with a market capitalization, and the time of initial purchase, equal to or less than the largest stock in the Standard & Poor's (S&P) Small Cap 600® Index.

Note 12: Net Asset Value per Share (NAV) (Continued)

Mid Capitalization Growth

These funds seek long-term growth of capital and invest primarily in common stocks and other equity securities. These funds invest at least 80% of their net assets in securities of mid-sized companies.

Large Capitalization Growth

These investments seek capital growth and current income. The fund invests primarily in common stocks and seeks to invest in companies that appear to offer superior opportunities for growth of capital and have favorable income-paying history.

Mid Capitalization Value

These investments seek long-term capital growth. These funds invest in common stock of small and midsize companies outside the United States.

Large Capitalization Value

These investments seek capital appreciation and current income. These funds normally invest their assets in equity securities that have prospects for income payments to continue or increase. Equity securities include common stocks, preferred stocks, securities convertible into stocks, and depositary receipts for those securities. They focus on the stocks of companies they believe are undervalued compared to their perceived worth (value companies). Investments may include companies of any size, while they focus on companies with large capitalizations and may include foreign securities.

Large Capitalization Blend

Depending on the proximity to its target date, these funds will seek to achieve the following objectives to varying degrees: growth, income, and conservation of capital. These funds will increasingly emphasize income and conservation of capital by investing a greater portion of their assets in bond, equity income and balanced funds as they approach and pass their target dates, this way, these funds seek to balance total return and stability over time.

Bond

These funds seek total return by principally investing in investment grade securities that offer attractive income or capital appreciation opportunities. Investment selection focuses on measuring relative value on a return-to-risk basis. These funds typically keep duration neutral to that of the benchmark, with a predominant emphasis on issue selection.

Note 12: Net Asset Value per Share (NAV) (Continued)

Government

These investments seek a high level of current income consistent with preservation of capital. Maintaining a stable share price is a secondary goal. The funds invest at least 80% of assets in obligations issued or guaranteed by the U.S. government and its agencies, authorities or instrumentalities. Its effective duration is no more than 3 years. The funds may invest in higher-risk securities, including U.S. dollar-denominated foreign government securities and asset-backed securities. They may also invest up to 10% of assets in foreign governmental high yield securities rates as low as B and their unrated equivalents.

The custodian invests in funds that are intended for long-term investment purposes only and does not knowingly accept shareholders who engage in market timing or other types of excessive short-term trading. The funds or its agents may reject or cancel a purchase order, suspend or terminate the exchange privilege or terminate the ability of an investor to invest if the funds or its agents determine that a proposed transaction involves market timing or disruptive trading that is likely to be detrimental to the fund.

Note 13: Excess Contributions Payable

ERISA requires the Plan to satisfy certain nondiscrimination provisions. For the years ended December 31, 2013 and 2012, the Plan is required to return some contributions in order to satisfy these provisions. At December 31, 2013 and 2012, the contributions payable are $8,174 and $4,863, respectively.

Note 14: Differences on Form 5500

The financial statements have been prepared on the accrual basis as required by generally accepted accounting principles. However, for the years ended December 31, 2013 and 2012, the Form 5500 to be filed with the Internal Revenue Service has been prepared on the cash basis.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2013	2012
Net Assets Available for Benefits per the Financial Statements	$ 1,039,097	$ 899,672
Add: Excess Contribution Payable	8,174	4,863
Net Assets Available for Benefits per the Form 5500	$ 1,047,271	$ 904,535

Note 14: Differences on Form 5500 (Continued)

The following is a reconciliation of contributions per the financial statements to the Form 5500 for 2013:

Employee Contributions per the Financial Statements	$ 41,382
Add: Current Year Excess Contributions Payable	8,174
Employee Contributions per the Form 5500	$ 49,556

The following is a reconciliation of deductions from net assets per the financial statements to the Form 5500 for 2013:

Total Deductions from Net Assets per the Financial Statements	$ 10,903
Add: Prior Year Excess Contributions Payable	4,863
Total Expenses per the Form 5500	$ 15,766

Note 15: Subsequent Events

The Plan has evaluated subsequent events through October 14, 2014, the date the financial statements were available to be issued.

Effective May 15, 2014, the Plan changed custodians.
