INDEPENDENT AUDITORS' REPORT

TO THE PLAN ADMINISTRATOR
VITERA HEALTHCARE SOLUTIONS 401(k) PLAN

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Vitera Healthcare Solutions 401(k) Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan for the year ended December 31, 2013, and State Street Bank and Trust Company, the trustee of the Plan as of December 31, 2012, except for comparing such information with the related information included in the financial statements and supplementary schedules. We have been informed by the Plan administrator that the trustees hold the Plan's investment assets and execute investment transactions. The Plan administrator has obtained certifications from the trustees as of December 31, 2013 and 2012 and for the year ended December 31, 2013, that the information provided to the Plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplementary schedules of assets (held at end of year) as of December 31, 2013 and reportable transactions for the year then ended are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplementary schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

VITERA HEALTHCARE SOLUTIONS 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the Vitera Healthcare Solutions 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution retirement plan covering all employees of Vitera Healthcare Solutions (the Company) except for those employees who are covered under a collective bargaining agreement, leased employees, non-United States residents and any part-time, temporary, seasonal or intern workers. Employees are eligible to participate in the Plan immediately upon employment, as defined by the Plan. Plan entry is effective immediately upon meeting the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Eligible participants are automatically enrolled to defer 3% of their compensation to the Plan as a payroll reduction contribution. After initial enrollment, the participant may choose not to defer or may elect to defer an alternative amount. A participant may contribute, through payroll reductions, from 1% to 90% of their compensation on a pre-tax and/or Roth basis, up to the maximum dollar amount allowed by law. Upon proper notice and approval, participants may contribute up to 100% of their compensation. Participants may also contribute amounts representing distributions from other qualified plans. Catch-up contributions are permitted. Contributions are subject to certain limitations.

The Company can make discretionary matching contributions. Employees must be employed as of the last day of the Plan year to be eligible for the discretionary matching contributions. For the Plan year ended December 31, 2013, the Company matched 50% of the first 6% of the participants' eligible compensation. Company discretionary matching contributions were $1,034,532 for the year ended December 31, 2013 and are included on the 2013 Statement of Net Assets Available for Benefits as Company's contributions receivable.

Each year the Company may, at its discretion, make discretionary nonelective contributions. The Company may designate all or a portion of any discretionary nonelective contributions as Qualified Nonelective Employer Contributions (QNEC) to help the Plan pass one or more annually required nondiscrimination tests. For the Plan year ended December 31, 2013, there were no discretionary nonelective contributions or QNECs made by the Company.

1. DESCRIPTION OF THE PLAN (continued)

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of the Company's contributions, and any earnings thereon, and charged with losses and an allocation of administrative expenses. Any discretionary nonelective contribution is to be allocated to non-highly compensated participants who were active at any time during the Plan year to which the testing relates based on the participant's eligible compensation in proportion to the total eligible compensation paid to all eligible participants. Allocations of the earnings and expenses are based on the participants' account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in all contributions plus actual earnings thereon.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or separation of service, a participant or beneficiary may elect to receive a lump-sum amount or installment payments equal to the value of the participant's vested interest in his or her account. In the case of a severe financial hardship, the Company, in its sole discretion, may direct distribution of all or a portion of the participant's voluntary contributions and Company discretionary matching contributions, subject to certain restrictions. Upon attaining age 59 ½, participants may elect to withdraw funds from the Plan equal to the value of their vested account balances.

Investment Options

Participants may elect to invest in a variety of investment options offered by the Plan.

Notes Receivable from Participants

Participants may borrow from their fund accounts an amount equal to the lesser of $50,000 or 50% of the participant's total vested account balance. The minimum note receivable amount is $1,000. Notes receivable terms range from one to five years or up to 10 years for the purchase of a primary residence. The notes receivable are secured by the vested balance in the participant's account and bear interest at rates commensurate with prevailing interest rates at the time of issuance. Principal and interest are paid ratably through payroll deductions. Interest income of $20,486 for 2013 has been included in other income in the accompanying Statement of Changes in Net Assets Available for Benefits.

Forfeitures

Forfeitures are created from participants' non-vested account balances and are used to reduce Plan administrative expenses. Any portion of forfeitures not used to pay Plan administrative expenses will be used to reduce Company contributions. Forfeited non-vested accounts at December 31, 2013 and 2012 totaled $1,743 and $0, respectively. There were no forfeitures used for the year ended December 31, 2013.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a stable value fund. Contract value for this stable value fund is based on invested principal plus accrued interest thereon. The Statements of Net Assets Available for Benefits present the fair value of the stable value fund as well as the adjustment from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits was prepared on a contract value basis.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain administrative expenses are paid by the participants. All other administrative expenses are paid by the Plan or the Company, at the discretion of the Company. During 2013, the Plan paid administrative expenses of $7,694.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on the investments purchased and sold, as well as held, during the year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Subsequent Events

The Company evaluated subsequent events through October 15, 2014, the date these financial statements were available to be issued. There were no material subsequent events, other than in Note 11, which required recognition or additional disclosure in these financial statements.

3. INVESTMENTS

The following table presents the fair value of investments at December 31, 2013 and 2012. The investments and investment activity have been certified as complete and accurate by Fidelity Management Trust Company, the trustee for the year ended December 31, 2013, and State Street Bank and Trust Company, the trustee as of December 31, 2012, and have not been audited by the independent auditors. Individual investments that represent 5% or more of the Plan's net assets are separately identified.

	$ 30,829,610	$ 28,837,497

The Plan's investments (including gains and losses on investments purchased and sold, as well as held during the year) appreciated in value by $3,796,044 during the year ended December 31, 2013.

*This amount represents contract value for this investment.

4. FAIR VALUE MEASUREMENTS

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. It applies to fair value measurements already recognized or permitted by existing standards. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs used in valuation models (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets or liabilities in inactive markets. Level 2 inputs include those other than quoted prices that are observable for the asset or liability. Level 2 inputs are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specified term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Registered investment companies - Valued at quoted market prices.

Stable value fund – Valued based on a discounted cash flow methodology where individual contract cash flows are discounted at the prevailing interpolated yield curve rate as of year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. FAIR VALUE MEASUREMENTS (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Level 1	Level 2	Total
Registered investment companies

5. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

Morley Stable Value Fund

During the year ended December 31, 2013, the Plan was invested in the Morley Stable Value Fund (the stable value fund), a fully benefit-responsive investment contract through Union Bond & Trust Company. The stable value fund primarily invests in a variety of investment contracts and other investment products with similar characteristics.

5. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT (continued)

Morley Stable Value Fund (continued)

The existence of certain conditions can limit the stable value fund's ability to transact at contract value with the issuers of its investment contracts. Examples of such events include, but are not limited to, fund administration amendments or changes, merger or consolidation of investors, group terminations or layoffs, implementation of early retirement programs, termination or partial termination of the Fund, failure to meet certain tax qualifications, participant communication designed to influence participants not to invest in the Fund, transfers to competing options without meeting the equity wash provisions of the Fund, and plan sponsor withdrawals without the appropriate notice to the Fund and/or issuer. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable and no impairment is applicable as of the date of these financial statements.

An issuer can terminate an investment contract upon the event of default by the contract holder, advisor or trustee if the issuer reasonably determines that an event is likely to have a material adverse effect on the issuer's interest with respect to the contract. Examples of such events include, but are not limited to, portfolio management not in accordance with investment guidelines, a breach of material obligations under the wrap agreement, any representation or warranty made by the contract holder becomes untrue in any material way, a replacement of the advisor without consent of the issuer, the Fund is terminated or ceases to qualify as a group trust or Plan ceases to meet tax qualifications, or the wrap contract becomes a prohibited transaction within Section 406 of ERISA.

The interest rate is reset periodically as market conditions change. The following are the average and crediting interest rates for the stable value fund as of December 31, 2013:

Average interest rate	1.26%
Crediting interest rate	1.37%

T. Rowe Price Stable Value Fund

As of December 31, 2012, the Plan was invested in the T. Rowe Price Stable Value Fund (the fund), a fully benefit-responsive investment contract through T. Rowe Price Trust Company. The fund primarily invests in guaranteed investment contracts issued by insurance companies; investment contracts issued by banks; structured or synthetic investment contracts issued by banks, insurance companies, and other issuers, as well as the underlying assets; separate account contracts and other similar instruments intended to maintain a constant net asset value while permitting participant-initiated, benefit-responsive withdrawals for certain events.

The existence of certain conditions can limit the fund's ability to transact at contract value with the issuers of its investment contracts. Examples of such events include, but are not limited to, partial or complete legal termination of the trust or a unit holder, tax disqualification of the trust or a unit holder, and certain trust amendments if the issuers' consent is not obtained. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable and no impairment is applicable as of the date of these financial statements.

5. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT (continued)

T. Rowe Price Stable Value Fund (continued)

An issuer can terminate an investment contract under certain circumstances, which may include breaches by the trust of its obligations, representations, or warranties under the terms of the contract, performance of the contract constitutes a prohibited transaction under ERISA or other applicable law, the trust or trustee suffers an insolvency, or a change in law or accounting standard that makes it impermissible to account for an investment contract on a contract-value basis.

The interest rate is reset periodically as market conditions change. The following are the average and crediting interest rates for the fund as of December 31, 2012:

Average interest rate	2.45%
Crediting interest rate	2.54%

6. TAX STATUS

The Company adopted a Volume Submitter Profit Sharing Plan with a cash or deferral arrangement. The Volume Submitter Plan received a favorable opinion letter on March 31, 2008, which stated that the Plan was designed in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to the year ended December 31, 2010.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, all interests of the participants existing at such time would be distributed to the participants.

8. PARTY-IN-INTEREST

Certain Plan investments at December 31, 2013 are invested in funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan document and, therefore, these transactions are considered party-in-interest transactions.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

10. RECONCILIATION TO THE FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:

	2013	2012
Net assets available for benefits per the financial statements	$ 32,383,270	$ 30,649,344
Deduct: Accumulated deemed distributions	(62,237)	(36,651)
Plus: Adjustment from contract value to fair value for interest in a stable value fund relating to fully benefit-responsive investment contracts	3,572	67,296
Net assets available for benefits per the Form 5500	$ 32,324,605	$ 30,679,989

10. RECONCILIATION TO THE FORM 5500 (continued)

The following is a reconciliation of investment income per the financial statements to the Form 5500 for the year ended December 31, 2013:

Total investment income per the financial statements	$	4,518,172
Plus: Other income		20,486
Less: Prior year adjustment from contract value to fair value for interest in a stable value fund relating to fully benefit-responsive investment contracts		(67,296)
Plus: Current year adjustment from contract value to fair value for interest in a stable value fund relating to fully benefit-responsive investment contracts		3,572
Total investment income per the Form 5500	$	4,474,934

The following is a reconciliation of benefits paid to participants per the financial statements to the Form 5500 for the year ended December 31, 2013:

Benefits paid to participants per the financial statements	$	7,242,961
Less: Deemed distributions offset		(36,651)
Add: Deemed distributions		62,237
Benefits paid to participants per the Form 5500	$	7,268,547

Deemed distributions relate to notes receivable from participants that have not been timely paid during the year, but whose related participant accounts have not yet been distributed.

11. SUBSEQUENT EVENTS

Subsequent to year end, SuccessEHS, Inc. Retirement Plan and Greenway Medical Technologies, Inc. 401(k) Plan merged with the Plan.

INDEPENDENT AUDITORS' REPORT

TO THE PLAN ADMINISTRATOR
VITERA HEALTHCARE SOLUTIONS 401(k) PLAN

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Vitera Healthcare Solutions 401(k) Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan for the year ended December 31, 2013, and State Street Bank and Trust Company, the trustee of the Plan as of December 31, 2012, except for comparing such information with the related information included in the financial statements and supplementary schedules. We have been informed by the Plan administrator that the trustees hold the Plan's investment assets and execute investment transactions. The Plan administrator has obtained certifications from the trustees as of December 31, 2013 and 2012 and for the year ended December 31, 2013, that the information provided to the Plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplementary schedules of assets (held at end of year) as of December 31, 2013 and reportable transactions for the year then ended are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplementary schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

VITERA HEALTHCARE SOLUTIONS 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the Vitera Healthcare Solutions 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution retirement plan covering all employees of Vitera Healthcare Solutions (the Company) except for those employees who are covered under a collective bargaining agreement, leased employees, non-United States residents and any part-time, temporary, seasonal or intern workers. Employees are eligible to participate in the Plan immediately upon employment, as defined by the Plan. Plan entry is effective immediately upon meeting the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Eligible participants are automatically enrolled to defer 3% of their compensation to the Plan as a payroll reduction contribution. After initial enrollment, the participant may choose not to defer or may elect to defer an alternative amount. A participant may contribute, through payroll reductions, from 1% to 90% of their compensation on a pre-tax and/or Roth basis, up to the maximum dollar amount allowed by law. Upon proper notice and approval, participants may contribute up to 100% of their compensation. Participants may also contribute amounts representing distributions from other qualified plans. Catch-up contributions are permitted. Contributions are subject to certain limitations.

The Company can make discretionary matching contributions. Employees must be employed as of the last day of the Plan year to be eligible for the discretionary matching contributions. For the Plan year ended December 31, 2013, the Company matched 50% of the first 6% of the participants' eligible compensation. Company discretionary matching contributions were $1,034,532 for the year ended December 31, 2013 and are included on the 2013 Statement of Net Assets Available for Benefits as Company's contributions receivable.

Each year the Company may, at its discretion, make discretionary nonelective contributions. The Company may designate all or a portion of any discretionary nonelective contributions as Qualified Nonelective Employer Contributions (QNEC) to help the Plan pass one or more annually required nondiscrimination tests. For the Plan year ended December 31, 2013, there were no discretionary nonelective contributions or QNECs made by the Company.

1. DESCRIPTION OF THE PLAN (continued)

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of the Company's contributions, and any earnings thereon, and charged with losses and an allocation of administrative expenses. Any discretionary nonelective contribution is to be allocated to non-highly compensated participants who were active at any time during the Plan year to which the testing relates based on the participant's eligible compensation in proportion to the total eligible compensation paid to all eligible participants. Allocations of the earnings and expenses are based on the participants' account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in all contributions plus actual earnings thereon.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or separation of service, a participant or beneficiary may elect to receive a lump-sum amount or installment payments equal to the value of the participant's vested interest in his or her account. In the case of a severe financial hardship, the Company, in its sole discretion, may direct distribution of all or a portion of the participant's voluntary contributions and Company discretionary matching contributions, subject to certain restrictions. Upon attaining age 59 ½, participants may elect to withdraw funds from the Plan equal to the value of their vested account balances.

Investment Options

Participants may elect to invest in a variety of investment options offered by the Plan.

Notes Receivable from Participants

Participants may borrow from their fund accounts an amount equal to the lesser of $50,000 or 50% of the participant's total vested account balance. The minimum note receivable amount is $1,000. Notes receivable terms range from one to five years or up to 10 years for the purchase of a primary residence. The notes receivable are secured by the vested balance in the participant's account and bear interest at rates commensurate with prevailing interest rates at the time of issuance. Principal and interest are paid ratably through payroll deductions. Interest income of $20,486 for 2013 has been included in other income in the accompanying Statement of Changes in Net Assets Available for Benefits.

Forfeitures

Forfeitures are created from participants' non-vested account balances and are used to reduce Plan administrative expenses. Any portion of forfeitures not used to pay Plan administrative expenses will be used to reduce Company contributions. Forfeited non-vested accounts at December 31, 2013 and 2012 totaled $1,743 and $0, respectively. There were no forfeitures used for the year ended December 31, 2013.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a stable value fund. Contract value for this stable value fund is based on invested principal plus accrued interest thereon. The Statements of Net Assets Available for Benefits present the fair value of the stable value fund as well as the adjustment from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits was prepared on a contract value basis.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain administrative expenses are paid by the participants. All other administrative expenses are paid by the Plan or the Company, at the discretion of the Company. During 2013, the Plan paid administrative expenses of $7,694.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on the investments purchased and sold, as well as held, during the year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Subsequent Events

The Company evaluated subsequent events through October 15, 2014, the date these financial statements were available to be issued. There were no material subsequent events, other than in Note 11, which required recognition or additional disclosure in these financial statements.

3. INVESTMENTS

The following table presents the fair value of investments at December 31, 2013 and 2012. The investments and investment activity have been certified as complete and accurate by Fidelity Management Trust Company, the trustee for the year ended December 31, 2013, and State Street Bank and Trust Company, the trustee as of December 31, 2012, and have not been audited by the independent auditors. Individual investments that represent 5% or more of the Plan's net assets are separately identified.

The Plan's investments (including gains and losses on investments purchased and sold, as well as held during the year) appreciated in value by $3,796,044 during the year ended December 31, 2013.

*This amount represents contract value for this investment.

4. FAIR VALUE MEASUREMENTS

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. It applies to fair value measurements already recognized or permitted by existing standards. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs used in valuation models (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets or liabilities in inactive markets. Level 2 inputs include those other than quoted prices that are observable for the asset or liability. Level 2 inputs are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specified term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Registered investment companies - Valued at quoted market prices.

Stable value fund – Valued based on a discounted cash flow methodology where individual contract cash flows are discounted at the prevailing interpolated yield curve rate as of year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. FAIR VALUE MEASUREMENTS (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Level 1	Level 2	Total

5. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

Morley Stable Value Fund

During the year ended December 31, 2013, the Plan was invested in the Morley Stable Value Fund (the stable value fund), a fully benefit-responsive investment contract through Union Bond & Trust Company. The stable value fund primarily invests in a variety of investment contracts and other investment products with similar characteristics.

5. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT (continued)

Morley Stable Value Fund (continued)

The existence of certain conditions can limit the stable value fund's ability to transact at contract value with the issuers of its investment contracts. Examples of such events include, but are not limited to, fund administration amendments or changes, merger or consolidation of investors, group terminations or layoffs, implementation of early retirement programs, termination or partial termination of the Fund, failure to meet certain tax qualifications, participant communication designed to influence participants not to invest in the Fund, transfers to competing options without meeting the equity wash provisions of the Fund, and plan sponsor withdrawals without the appropriate notice to the Fund and/or issuer. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable and no impairment is applicable as of the date of these financial statements.

An issuer can terminate an investment contract upon the event of default by the contract holder, advisor or trustee if the issuer reasonably determines that an event is likely to have a material adverse effect on the issuer's interest with respect to the contract. Examples of such events include, but are not limited to, portfolio management not in accordance with investment guidelines, a breach of material obligations under the wrap agreement, any representation or warranty made by the contract holder becomes untrue in any material way, a replacement of the advisor without consent of the issuer, the Fund is terminated or ceases to qualify as a group trust or Plan ceases to meet tax qualifications, or the wrap contract becomes a prohibited transaction within Section 406 of ERISA.

The interest rate is reset periodically as market conditions change. The following are the average and crediting interest rates for the stable value fund as of December 31, 2013:

Average interest rate	1.26%
Crediting interest rate	1.37%

T. Rowe Price Stable Value Fund

As of December 31, 2012, the Plan was invested in the T. Rowe Price Stable Value Fund (the fund), a fully benefit-responsive investment contract through T. Rowe Price Trust Company. The fund primarily invests in guaranteed investment contracts issued by insurance companies; investment contracts issued by banks; structured or synthetic investment contracts issued by banks, insurance companies, and other issuers, as well as the underlying assets; separate account contracts and other similar instruments intended to maintain a constant net asset value while permitting participant-initiated, benefit-responsive withdrawals for certain events.

The existence of certain conditions can limit the fund's ability to transact at contract value with the issuers of its investment contracts. Examples of such events include, but are not limited to, partial or complete legal termination of the trust or a unit holder, tax disqualification of the trust or a unit holder, and certain trust amendments if the issuers' consent is not obtained. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable and no impairment is applicable as of the date of these financial statements.

5. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT (continued)

T. Rowe Price Stable Value Fund (continued)

An issuer can terminate an investment contract under certain circumstances, which may include breaches by the trust of its obligations, representations, or warranties under the terms of the contract, performance of the contract constitutes a prohibited transaction under ERISA or other applicable law, the trust or trustee suffers an insolvency, or a change in law or accounting standard that makes it impermissible to account for an investment contract on a contract-value basis.

The interest rate is reset periodically as market conditions change. The following are the average and crediting interest rates for the fund as of December 31, 2012:

Average interest rate	2.45%
Crediting interest rate	2.54%

6. TAX STATUS

The Company adopted a Volume Submitter Profit Sharing Plan with a cash or deferral arrangement. The Volume Submitter Plan received a favorable opinion letter on March 31, 2008, which stated that the Plan was designed in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to the year ended December 31, 2010.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, all interests of the participants existing at such time would be distributed to the participants.

8. PARTY-IN-INTEREST

Certain Plan investments at December 31, 2013 are invested in funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan document and, therefore, these transactions are considered party-in-interest transactions.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

10. RECONCILIATION TO THE FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:

	2013	2012
Net assets available for benefits per the financial statements	$ 32,383,270	$ 30,649,344
Deduct: Accumulated deemed distributions	(62,237)	(36,651)
Plus: Adjustment from contract value to fair value for interest in a stable value fund relating to fully benefit-responsive investment contracts	3,572	67,296
Net assets available for benefits per the Form 5500	$ 32,324,605	$ 30,679,989

10. RECONCILIATION TO THE FORM 5500 (continued)

The following is a reconciliation of investment income per the financial statements to the Form 5500 for the year ended December 31, 2013:

Total investment income per the financial statements	$	4,518,172
Plus: Other income		20,486
Less: Prior year adjustment from contract value to fair value for interest in a stable value fund relating to fully benefit-responsive investment contracts		(67,296)
Plus: Current year adjustment from contract value to fair value for interest in a stable value fund relating to fully benefit-responsive investment contracts		3,572
Total investment income per the Form 5500	$	4,474,934

The following is a reconciliation of benefits paid to participants per the financial statements to the Form 5500 for the year ended December 31, 2013:

Benefits paid to participants per the financial statements	$	7,242,961
Less: Deemed distributions offset		(36,651)
Add: Deemed distributions		62,237
Benefits paid to participants per the Form 5500	$	7,268,547

Deemed distributions relate to notes receivable from participants that have not been timely paid during the year, but whose related participant accounts have not yet been distributed.

11. SUBSEQUENT EVENTS

Subsequent to year end, SuccessEHS, Inc. Retirement Plan and Greenway Medical Technologies, Inc. 401(k) Plan merged with the Plan.

INDEPENDENT AUDITORS' REPORT

TO THE PLAN ADMINISTRATOR
VITERA HEALTHCARE SOLUTIONS 401(k) PLAN

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Vitera Healthcare Solutions 401(k) Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan for the year ended December 31, 2013, and State Street Bank and Trust Company, the trustee of the Plan as of December 31, 2012, except for comparing such information with the related information included in the financial statements and supplementary schedules. We have been informed by the Plan administrator that the trustees hold the Plan's investment assets and execute investment transactions. The Plan administrator has obtained certifications from the trustees as of December 31, 2013 and 2012 and for the year ended December 31, 2013, that the information provided to the Plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplementary schedules of assets (held at end of year) as of December 31, 2013 and reportable transactions for the year then ended are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplementary schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

VITERA HEALTHCARE SOLUTIONS 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the Vitera Healthcare Solutions 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution retirement plan covering all employees of Vitera Healthcare Solutions (the Company) except for those employees who are covered under a collective bargaining agreement, leased employees, non-United States residents and any part-time, temporary, seasonal or intern workers. Employees are eligible to participate in the Plan immediately upon employment, as defined by the Plan. Plan entry is effective immediately upon meeting the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Eligible participants are automatically enrolled to defer 3% of their compensation to the Plan as a payroll reduction contribution. After initial enrollment, the participant may choose not to defer or may elect to defer an alternative amount. A participant may contribute, through payroll reductions, from 1% to 90% of their compensation on a pre-tax and/or Roth basis, up to the maximum dollar amount allowed by law. Upon proper notice and approval, participants may contribute up to 100% of their compensation. Participants may also contribute amounts representing distributions from other qualified plans. Catch-up contributions are permitted. Contributions are subject to certain limitations.

The Company can make discretionary matching contributions. Employees must be employed as of the last day of the Plan year to be eligible for the discretionary matching contributions. For the Plan year ended December 31, 2013, the Company matched 50% of the first 6% of the participants' eligible compensation. Company discretionary matching contributions were $1,034,532 for the year ended December 31, 2013 and are included on the 2013 Statement of Net Assets Available for Benefits as Company's contributions receivable.

Each year the Company may, at its discretion, make discretionary nonelective contributions. The Company may designate all or a portion of any discretionary nonelective contributions as Qualified Nonelective Employer Contributions (QNEC) to help the Plan pass one or more annually required nondiscrimination tests. For the Plan year ended December 31, 2013, there were no discretionary nonelective contributions or QNECs made by the Company.

1. DESCRIPTION OF THE PLAN (continued)

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of the Company's contributions, and any earnings thereon, and charged with losses and an allocation of administrative expenses. Any discretionary nonelective contribution is to be allocated to non-highly compensated participants who were active at any time during the Plan year to which the testing relates based on the participant's eligible compensation in proportion to the total eligible compensation paid to all eligible participants. Allocations of the earnings and expenses are based on the participants' account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in all contributions plus actual earnings thereon.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or separation of service, a participant or beneficiary may elect to receive a lump-sum amount or installment payments equal to the value of the participant's vested interest in his or her account. In the case of a severe financial hardship, the Company, in its sole discretion, may direct distribution of all or a portion of the participant's voluntary contributions and Company discretionary matching contributions, subject to certain restrictions. Upon attaining age 59 ½, participants may elect to withdraw funds from the Plan equal to the value of their vested account balances.

Investment Options

Participants may elect to invest in a variety of investment options offered by the Plan.

Notes Receivable from Participants

Participants may borrow from their fund accounts an amount equal to the lesser of $50,000 or 50% of the participant's total vested account balance. The minimum note receivable amount is $1,000. Notes receivable terms range from one to five years or up to 10 years for the purchase of a primary residence. The notes receivable are secured by the vested balance in the participant's account and bear interest at rates commensurate with prevailing interest rates at the time of issuance. Principal and interest are paid ratably through payroll deductions. Interest income of $20,486 for 2013 has been included in other income in the accompanying Statement of Changes in Net Assets Available for Benefits.

Forfeitures

Forfeitures are created from participants' non-vested account balances and are used to reduce Plan administrative expenses. Any portion of forfeitures not used to pay Plan administrative expenses will be used to reduce Company contributions. Forfeited non-vested accounts at December 31, 2013 and 2012 totaled $1,743 and $0, respectively. There were no forfeitures used for the year ended December 31, 2013.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a stable value fund. Contract value for this stable value fund is based on invested principal plus accrued interest thereon. The Statements of Net Assets Available for Benefits present the fair value of the stable value fund as well as the adjustment from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits was prepared on a contract value basis.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain administrative expenses are paid by the participants. All other administrative expenses are paid by the Plan or the Company, at the discretion of the Company. During 2013, the Plan paid administrative expenses of $7,694.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on the investments purchased and sold, as well as held, during the year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Subsequent Events

The Company evaluated subsequent events through October 15, 2014, the date these financial statements were available to be issued. There were no material subsequent events, other than in Note 11, which required recognition or additional disclosure in these financial statements.

3. INVESTMENTS

The following table presents the fair value of investments at December 31, 2013 and 2012. The investments and investment activity have been certified as complete and accurate by Fidelity Management Trust Company, the trustee for the year ended December 31, 2013, and State Street Bank and Trust Company, the trustee as of December 31, 2012, and have not been audited by the independent auditors. Individual investments that represent 5% or more of the Plan's net assets are separately identified.

The Plan's investments (including gains and losses on investments purchased and sold, as well as held during the year) appreciated in value by $3,796,044 during the year ended December 31, 2013.

*This amount represents contract value for this investment.

4. FAIR VALUE MEASUREMENTS

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. It applies to fair value measurements already recognized or permitted by existing standards. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs used in valuation models (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets or liabilities in inactive markets. Level 2 inputs include those other than quoted prices that are observable for the asset or liability. Level 2 inputs are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specified term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Registered investment companies - Valued at quoted market prices.

Stable value fund – Valued based on a discounted cash flow methodology where individual contract cash flows are discounted at the prevailing interpolated yield curve rate as of year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. FAIR VALUE MEASUREMENTS (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Level 1	Level 2	Total
Registered investment companies

5. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

Morley Stable Value Fund

During the year ended December 31, 2013, the Plan was invested in the Morley Stable Value Fund (the stable value fund), a fully benefit-responsive investment contract through Union Bond & Trust Company. The stable value fund primarily invests in a variety of investment contracts and other investment products with similar characteristics.

5. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT (continued)

Morley Stable Value Fund (continued)

The existence of certain conditions can limit the stable value fund's ability to transact at contract value with the issuers of its investment contracts. Examples of such events include, but are not limited to, fund administration amendments or changes, merger or consolidation of investors, group terminations or layoffs, implementation of early retirement programs, termination or partial termination of the Fund, failure to meet certain tax qualifications, participant communication designed to influence participants not to invest in the Fund, transfers to competing options without meeting the equity wash provisions of the Fund, and plan sponsor withdrawals without the appropriate notice to the Fund and/or issuer. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable and no impairment is applicable as of the date of these financial statements.

An issuer can terminate an investment contract upon the event of default by the contract holder, advisor or trustee if the issuer reasonably determines that an event is likely to have a material adverse effect on the issuer's interest with respect to the contract. Examples of such events include, but are not limited to, portfolio management not in accordance with investment guidelines, a breach of material obligations under the wrap agreement, any representation or warranty made by the contract holder becomes untrue in any material way, a replacement of the advisor without consent of the issuer, the Fund is terminated or ceases to qualify as a group trust or Plan ceases to meet tax qualifications, or the wrap contract becomes a prohibited transaction within Section 406 of ERISA.

The interest rate is reset periodically as market conditions change. The following are the average and crediting interest rates for the stable value fund as of December 31, 2013:

Average interest rate	1.26%
Crediting interest rate	1.37%

T. Rowe Price Stable Value Fund

As of December 31, 2012, the Plan was invested in the T. Rowe Price Stable Value Fund (the fund), a fully benefit-responsive investment contract through T. Rowe Price Trust Company. The fund primarily invests in guaranteed investment contracts issued by insurance companies; investment contracts issued by banks; structured or synthetic investment contracts issued by banks, insurance companies, and other issuers, as well as the underlying assets; separate account contracts and other similar instruments intended to maintain a constant net asset value while permitting participant-initiated, benefit-responsive withdrawals for certain events.

The existence of certain conditions can limit the fund's ability to transact at contract value with the issuers of its investment contracts. Examples of such events include, but are not limited to, partial or complete legal termination of the trust or a unit holder, tax disqualification of the trust or a unit holder, and certain trust amendments if the issuers' consent is not obtained. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable and no impairment is applicable as of the date of these financial statements.

5. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT (continued)

T. Rowe Price Stable Value Fund (continued)

An issuer can terminate an investment contract under certain circumstances, which may include breaches by the trust of its obligations, representations, or warranties under the terms of the contract, performance of the contract constitutes a prohibited transaction under ERISA or other applicable law, the trust or trustee suffers an insolvency, or a change in law or accounting standard that makes it impermissible to account for an investment contract on a contract-value basis.

The interest rate is reset periodically as market conditions change. The following are the average and crediting interest rates for the fund as of December 31, 2012:

Average interest rate	2.45%
Crediting interest rate	2.54%

6. TAX STATUS

The Company adopted a Volume Submitter Profit Sharing Plan with a cash or deferral arrangement. The Volume Submitter Plan received a favorable opinion letter on March 31, 2008, which stated that the Plan was designed in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to the year ended December 31, 2010.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, all interests of the participants existing at such time would be distributed to the participants.

8. PARTY-IN-INTEREST

Certain Plan investments at December 31, 2013 are invested in funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan document and, therefore, these transactions are considered party-in-interest transactions.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

10. RECONCILIATION TO THE FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:

	2013	2012
Net assets available for benefits per the financial statements	$ 32,383,270	$ 30,649,344
Deduct: Accumulated deemed distributions	(62,237)	(36,651)
Plus: Adjustment from contract value to fair value for interest in a stable value fund relating to fully benefit-responsive investment contracts	3,572	67,296
Net assets available for benefits per the Form 5500	$ 32,324,605	$ 30,679,989

10. RECONCILIATION TO THE FORM 5500 (continued)

The following is a reconciliation of investment income per the financial statements to the Form 5500 for the year ended December 31, 2013:

Total investment income per the financial statements	$	4,518,172
Plus: Other income		20,486
Less: Prior year adjustment from contract value to fair value for interest in a stable value fund relating to fully benefit-responsive investment contracts		(67,296)
Plus: Current year adjustment from contract value to fair value for interest in a stable value fund relating to fully benefit-responsive investment contracts		3,572
Total investment income per the Form 5500	$	4,474,934

The following is a reconciliation of benefits paid to participants per the financial statements to the Form 5500 for the year ended December 31, 2013:

Benefits paid to participants per the financial statements	$	7,242,961
Less: Deemed distributions offset		(36,651)
Add: Deemed distributions		62,237
Benefits paid to participants per the Form 5500	$	7,268,547

Deemed distributions relate to notes receivable from participants that have not been timely paid during the year, but whose related participant accounts have not yet been distributed.

11. SUBSEQUENT EVENTS

Subsequent to year end, SuccessEHS, Inc. Retirement Plan and Greenway Medical Technologies, Inc. 401(k) Plan merged with the Plan.
