SHEFSKY & FROELICH LTD. PROFIT SHARING 401(K) PLAN & TRUST
NOTES TO THE FINANCIAL STATEMENTS
As of December 31, 2009 and 2008

NOTE 1 - DESCRIPTION OF PLAN

The SHEFSKY & FROELICH LTD. PROFIT SHARING 401(K) PLAN & TRUST (the "Plan") is a defined contribution, combination profit sharing and 401(K) plan established in 1971. The Plan's principal purpose is to allow participants to defer receiving some of their compensation until their retirement and, in the event of death, provide for their dependents and beneficiaries. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The following description of the Plan is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

Participant Contributions

The Plan provides for employee-directed contributions to be made by the employer at the direction of the employee in any whole percentage of the employee's compensation between 1 and 100 percent, or any whole dollar amount. Such amounts are deducted from the employee's direct compensation, and are excluded from the employee's reportable wages for the year. As of January 1, 2006, the plan was amended to allow the participants to choose to defer direct compensation into a Roth 401(k) account. Such contributions are included in the employee's reportable wages for the year. The aggregate annual amount of each individual employee-directed contribution for 2009 was limited to \$16,500 (\$22,000 for participants age 50 and over).

Employer Contributions

SHEFSKY & FROELICH LTD. (the "Firm") may make a discretionary profit-sharing contribution to the trust in such amount, if any, as determined by the board of directors. Employer contributions are allocated to each participant employed as of the last day of each plan year based on the participant's eligible compensation (as defined in the plan documents).

Eligibility

Employees of the Firm are eligible to enter the Plan as of the first day of January, April, July or October following the date on which they attain age 21 and complete at least 90 days of service. Employees become eligible for participation in the employer's profit sharing contribution upon the completion of two consecutive years of service. A year of service is defined as at least 800 hours of work.

Vesting

Employees are immediately and wholly vested in compensation deferrals and employer contributions.

Investments

Participants may invest in funds offered by the plan administrator or other self-directed investments, such as stocks, bonds, and mutual funds, as permitted by law. Investment income and fair value appreciation or depreciation for assets invested in the investment funds are allocated to the Plan and accounts of participants and terminated participants (who have undistributed account balances) in proportion to the balances in such accounts as of the end of the plan year or other designated allocation day (after accounting for distribution payments made during the period).

See auditor's disclaimer of opinion

SHEFSKY & FROELICH LTD. PROFIT SHARING 401(K) PLAN & TRUST
NOTES TO THE FINANCIAL STATEMENTS
As of December 31, 2009 and 2008

NOTE 1 - DESCRIPTION OF PLAN, continued

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and, (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participants vested account.

Participant Loans

Participants who are currently employed by the Firm may borrow from their accounts up to the lesser of one-half of their account balance or \$50,000, reduced by the highest loan balance outstanding during the preceding 12 months.

Payment of Benefits

A participant's account shall be distributed, upon election, directly to the participant, or to another qualified plan or Individual Retirement Account (IRA) via trustee-to-trustee direct transfer, or in the event of his or her death, to the participant's beneficiary. Benefits are payable by distribution in a lump sum, partial payments or installment payments. Payments related to death or disability may also be paid in a joint and survivor annuity.

Termination of Plan

Although it has no present intention to do so, the Firm may terminate the Plan at any time. In the event of termination, the balance of the accounts will be paid to the participant's and/or their beneficiaries in the same manner as they would otherwise have been distributed had the Plan been continued. This will require the trustee to maintain the trust funds until its account balances have been distributed. Until that time, the Plan provisions applicable to conditions and circumstances existing after termination will continue in full force and effect.

Administrative Expenses

Certain administration, record-keeping fees, auditing, management and legal services are provided to the Plan by the Firm without charge. The expenses directly attributable to self-directed investments are charged directly to the participants' individual accounts. Administrative fees paid by participants for the year ended December 31, 2009 and 2008 totaled \$20,862 and \$25,089, respectively.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accounts of the Plan are maintained and the accompanying financial statements have been prepared on the accrual basis of accounting.

See auditor's disclaimer of opinion

SHEFSKY & FROELICH LTD. PROFIT SHARING 401(K) PLAN & TRUST
NOTES TO THE FINANCIAL STATEMENTS
As of December 31, 2009 and 2008

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES,continued

Investment Valuation and Income Recognition

Investments are carried at fair value, as determined by quoted prices in an active market except for (i) investments in land and nonreadily marketable securities aggregating \$115,491 and \$114,885 at December 31, 2009 and 2008, respectively, which are valued at cost or estimated fair value and (ii) investments in limited partnerships aggregating \$69,217 and \$31,610 at December 31, 2009 and 2008, respectively, which are valued at the amount of the respective partnership capital account balances or estimated fair value.

The difference between the aggregate fair value of investments as of the end of the year and their carrying values (fair values at the beginning of the year or cost for acquisitions during the year) is reflected as net appreciation or depreciation in the fair value of investments in the statement of changes in net assets available for benefits. Net gains or losses on disposition of investments, when applicable, representing the difference between the proceeds and the carrying value of investments, are also included in net appreciation or depreciation in the statement of changes in net assets available for benefits.

Participant loans are valued at their outstanding balances which approximate fair value. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through September 27, 2010, the date the financial statements were available to be issued.

NOTE 3 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets of liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

See auditor's disclaimer of opinion

SHEFSKY & FROELICH LTD. PROFIT SHARING 401(K) PLAN & TRUST
NOTES TO THE FINANCIAL STATEMENTS
As of December 31, 2009 and 2008

NOTE 3 - FAIR VALUE MEASUREMENTS, continued

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include, quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009 and 2008.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Common stocks, fixed income securities and limited partnerships.

Valued at the closing price reported on the active market on which the individuals securities are traded. Level 2 fixed income securities are valued based on yields currently available on comparable securities of issuers with similar credit ratings. Level 3 limited partnerships, which are not actively traded, are valued based on the capital position reported on the most recent K-1.

Mutual funds

Valued at the new asset value (NAV) of shares held by the plan at the end of the year.

Cash equivalents

Cash equivalents includes money market funds (level 2) and certificates of deposit (level 3). Money market funds are public investment vehicles valued at \$1 for the NAV. Certificates of deposit are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Participant loans

Valued at amortized cost, which appromimates fair value

Non-readily marketable securities

Valued at cost, which approximates fair value.

Real Estate

Valued at estimated appraised value.

Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
