SEVERN TRENT 401(k) SAVINGS PLAN
Notes to Financial Statements

Note 1 - Description of the Plan

The following description of Severn Trent 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all nonunion employees, as defined (no employee covered by a collective bargaining agreement shall be eligible to participate in the Plan unless such agreement specifically provides for participation), of Severn Trent Services, Inc. (the "Company") and all related United States subsidiaries of Severn Trent Services (DEL), Inc. (the "Related Companies"), the parent of the Company. Employees are immediately eligible to enter the Plan upon their date of hire. The Company has implemented automatic enrollment. Effective January 1, 2006, automatic enrollment was implemented for newly eligible employees and rehires. Effective July 1, 2007, automatic enrollment was implemented for all employees who never affirmatively took any action regarding the Plan, regardless of their date of hire. As such, their compensation is automatically reduced by 3%. An employee who previously selected not to participate was not automatically enrolled. Effective as of July 1, 2008, participants automatically have their employee savings contributions increased annually by 1%, up to a maximum of 6%. The auto escalation feature of the Plan was temporarily suspended in 2009 and reinstated in 2010.

The Plan is subject to the provisions of ERISA.

Contributions

Participants may contribute up to 100% of pre-tax annual compensation and may make catch-up contributions, as defined by the Plan. In addition, participants may contribute up to 15% of after-tax compensation, as defined by the Plan. In no event may participant pre-tax and after-tax contributions exceed any statutory limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Company matches 50% of the participant's pre-tax contributions, up to 6% of base compensation. Additional discretionary profit-sharing contributions may be made at the discretion of the Company's board of directors. To be eligible for discretionary profit-sharing contributions, a participant must work 1,000 hours in the given Plan year and be employed on the last day of the Plan year. There were no discretionary contributions made in 2009 or 2008. Participants may change their contribution percentages daily. Participants direct the investment of participant and employer contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

SEVERN TRENT 401(k) SAVINGS PLAN
Notes to Financial Statements

Note 1 - Description of the Plan (continued)

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts, plus actual earnings thereon, is as follows:

<u>Years of Service</u>	<u>Vesting</u>
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years; however, terms may exceed five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions. Interest rates ranged from 4.25% to 9.75% during the year.

Payment of Benefits

On termination of service, a participant or beneficiary shall receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. However, participants who had account balances under a prior plan of any of the Related Companies may elect to receive the portion of their accounts attributable to the prior plan in the form permitted under the prior plan.

If the value of the account of a participant who retired, terminated employment, became disabled, or died, is \$1,000 or less, the Plan administrator may distribute the participant's account without his/her consent.

Forfeitures

Forfeited non-vested accounts are used to reduce future Company contributions. During the year ended December 31, 2009, forfeitures of approximately \$103,000 were used to reduce employer contributions. Forfeited non-vested accounts available to reduce future employer contributions at December 31, 2009 and 2008 were approximately \$44,000 and \$41,800, respectively.

Codification

In June 2009, the Financial Accounting Standards Board ("FASB") issued the *FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles – a replacement of FASB Statement No. 162* ("FASB Codification"), which is effective for reporting periods ending after September 15, 2009. The FASB Codification is the single source of authoritative, nongovernmental U.S. generally accepted accounting principles ("GAAP"), superseding existing FASB, American Institute of Certified Public Accountants ("AICPA"), Emerging Issues Task Force ("EITF") and related accounting literature. The FASB Codification reorganizes the thousands of GAAP pronouncements into roughly 90 accounting topics and displays them using a consistent structure. The adoption of the FASB Codification did not impact the Plan's financial statements.

Fully Benefit-Responsive Investment Contract

As required by the *Defined Contribution Pension Plan* topic of the FASB Codification, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the topic, the statements of net assets available for benefits present the fair value of the investment contract, as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

The Plan invests in the Stable Value Fund A, which is a collective trust fund that invested 100% in Wells Fargo Stable Return Fund G as of December 31, 2009. The Wells Fargo Stable Return Fund G primarily invests in investment contracts, including traditional guaranteed investment contracts (GICs) and security-backed contracts issued by insurance companies and other financial institutions. The estimated fair value of the collective trust fund is net asset value. The use of net asset value as fair value is deemed appropriate, as the collective trust funds do not have finite lives, unfunded commitments relating to these types of investments, or significant restrictions on redemptions.

Participant-initiated requests for withdrawals from the Stable Value Fund A are processed on a daily basis. Participants may not transfer monies out of the fund to a competing fund directly or indirectly before 90 days after being withdrawn. If the Plan sponsor requests to redeem all units in the fund held by the Plan, such distribution will be made in a lump sum no later than 12 months from receipt of such request. If all entities that invest in the fund request to redeem all units in the fund (final distribution), absent conditions that warrant a 12-month delay in payment, distributions will begin 30 days after receipt of notice in equal monthly installments for each of the 24 months that follow.

In October 2009, the Plan sponsor notified the custodian that the Plan requested to redeem all units in the fund held by the Plan. The distribution will occur in October 2010.

Fully Benefit-Responsive Investment Contract (continued)

The yield earned by the Stable Value Fund A at December 31, 2009 and 2008 was 3.4% and 5.29%, respectively. The yield earned by the Stable Value Fund A with an adjustment to reflect the actual interest rate credited to participants in the fund at December 31, 2009 and 2008 was 3.32% and 4.10%, respectively.

Fair Value of Financial Instruments

As required by the *Fair Value Measurements and Disclosure* topic of the FASB Codification, fair value is to be determined based on the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market, in an orderly transaction between market participants. Such is a market-based measurement, not an entity-specific measurement. This topic establishes a three-level valuation hierarchy based upon observable and unobservable inputs. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Plan's market assumptions. The fair value hierarchy consists of three levels of inputs that may be used to measure fair value, as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Level 2 – Inputs other than quoted prices included in Level 1 that are observable either directly or indirectly; quoted prices for similar assets or liabilities in active close up markets; quoted prices for identical or similar assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data, for substantially the full term of the assets or liabilities.

Level 3 – Significant inputs to the valuation model that are unobservable, typically based on a Plan's own assumptions, as there is little, if any, related market activity.

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The methods of valuation described herein may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Accounting for Uncertainty in Income Taxes

The *Income Taxes* topic of the FASB Codification clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements and is effective for fiscal years beginning after December 15, 2008. The Plan adopted the provisions of the topic and the adoption did not impact the amounts reported in the Plan's financial statements.

Subsequent Events

As required by the *Subsequent Events* topic of the FASB Codification, Severn Trent Services, Inc. evaluated subsequent events through July 30, 2010, which is the date the financial statements were available to be issued.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of registered investment companies are valued at the net asset value of shares held by the Plan at year-end. Participant loans are valued at cost, which approximates fair value. The Prudential Stable Value Fund (the "Fund") is a collective trust fund, which is valued at fair value with an adjustment to contract value, as described above.

Purchases and sales of securities are recorded on a trade-date basis with gains and losses reflected in net appreciation (depreciation) in fair value of investments. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses

Substantially all expenses, with the exception of participant loan fees, incurred in connection with the administration of the Plan, are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Note 3 - Investment Certification

Substantially all assets of the Plan are held by Prudential Trust Company, the trustee. Wells Fargo Bank Minnesota, N.A. is the trustee for the Prudential Stable Value Fund. Prudential Trust Company and Wells Fargo Bank Minnesota, N.A. have certified the completeness and accuracy of all investments and related activity in the accompanying financial statements and supplemental schedule.

Note 6 - Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated January 12, 2009, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the tax determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 7 - Party-in-Interest Transactions

Certain investments are shares of registered investment companies and a collective trust fund managed by Prudential Trust Company and Wells Fargo Bank Minnesota, N.A. Prudential Trust Company and Wells Fargo Bank Minnesota, N.A. are the Plan's trustees and, therefore, these transactions qualify as party-in-interest.

Note 8 - Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market risk and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits. Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2009 may not necessarily be indicative of amounts that could be realized in a current market exchange.

Note 9 - Mutual Fund Fees

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940, are annual fees deducted to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.

Note 10 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.
