NOTE 1- DESCRIPTION OF PLAN

The following description of the LANDesk Software, Inc. (the Company) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of LANDesk Software, Inc. who have six months of service and are age nineteen or older. The Plan is subject to the Internal Revenue Code, as amended (the "Code"), and the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute up to 25% of their pretax annual compensation, as defined in the Plan agreement. The Company may make discretionary contributions to the Plan as determined by management.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) the Plan's earnings. Allocations are based on participant earnings or account balances as defined in the Plan agreement. The benefit to which a participant is entitled is the participant's vested account balance, as defined below. At the Company's discretion, forfeited balances of terminated participants' non-vested accounts can be treated as a reduction of employer contributions made during a subsequent Plan year. There was $2,218 forfeited during the year ended December 31, 2006 and no amount forfeited during the year ended December 31, 2005.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts, plus actual earnings thereon, is based on the following schedule:

(Continued)

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Vesting (Continued)

Years of Service	Percent Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participant Loans

Participants may borrow from their fund accounts up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years and may be for longer periods if used for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions. The Plan had participant loans outstanding at December 31, 2006 and 2005 of $0 and $57,288, respectively.

Payment of Benefits

Upon termination of service, participants with balances greater than or equal to $5,000 may elect to receive a lump-sum amount equal to the value of their account or leave the value of their account in the Plan. All participants with less than or equal to $5,000 must withdraw their account balances from the Plan. Normal retirement age under the Plan is 65 years. Death benefits are paid to a designated beneficiary of the participant.

Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, the interests of all participants in the Plan shall become fully vested and nonforfeitable as of the termination date.

(Continued)

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Plan Expenses

Pursuant to provisions of the Plan, expenses incurred in the administration of the Plan may, but are not required to, be paid by the employer. If the employer elects not to pay such expenses, these expenses shall be paid by the Plan. The employer paid substantially all of the expenses of the Plan for the years ended December 31, 2006 and 2005, which were $4,314 and $2,992, respectively.

Investment Options

Plan Investments are participant directed and consist of thirty-eight different options, maintained by the trustee on a separate fund basis.

NOTE 2 - ACCOUNTING POLICIES

Basis of Accounting

The financial statements as of and for the years ended December 31, 2006 and 2005 have been prepared using the accrual basis of accounting.

Investment Valuations and Income Recognition

Investments in registered investment companies are valued at fair value as generally determined by quoted market prices.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

(Continued)

NOTE 2 - ACCOUNTING POLICIES (CONTINUED)

Benefits Payable

In accordance with generally accepted accounting principles for employee benefit plans, the Plan classifies benefits owed to participants as a component of net assets available for plan benefits rather than as a liability. These amounts were $0 and $153,914 as of December 31, 2006 and 2005, respectively.

NOTE 3 - INVESTMENTS
