AIRCO PROFIT SHARING RETIREMENT PLAN
Notes to Financial Statements
December 31, 2013 and 2012

1. Summary of Significant Accounting Policies and Description of Plan

(a) Plan Description

The following description of the AirCo Profit Sharing Retirement Plan (the Plan) is provided for general information purposes only. The Plan sponsor is Energy Specialties, Inc.. Participants should refer to the Plan Agreement for more complete information.

The Plan was adopted effective January 1, 1995, and amended September 30, 2008, and is a defined contribution plan covering all employees of Energy Specialties, Inc., AirCo, Ltd. and Central AIRCO Commercial Services, Inc. (collectively referred to as the Company) who have completed one year of service and are 21 years of age or older. The Plan's entry dates are January 1 and July 1. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Plan Administration

Under the Plan instrument, the Trustee is responsible for the custody of all trust assets and the record keeping for Plan members and trust financial matters. All Trustee fees are paid by the Plan.

See also note 6.

(c) Priority Upon Termination of Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time, and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

(d) Contributions

Each year, participants may contribute a percentage of compensation as defined in the Plan, subject to certain maximum dollar amounts, which are indexed for inflation. Participants direct the investment of their contributions into various investment options offered by the Plan. Any participant who is employed during the Plan year will be eligible to receive a profit sharing contribution, which is determined by the Company. The participant is not taxed on the deferred compensation contributions until they are paid out of the Plan. Participants direct the Company contributions allocable and vested to them in the same manner as they are allowed to invest their own contributions.

1. Summary of Significant Accounting Policies and Description of Plan (Continued)

(e) Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) forfeitures and, (c) Plan earnings. Participant accounts are reduced by (a) Plan expenses paid by the Plan, (b) applicable forfeitures and, (c) withdrawals. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

(f) Forfeitures

Forfeitures may not be used to reduce the Company's contributions for the Plan year. The value of forfeited, non-vested accounts was zero at December 31, 2013 and December 31, 2012.

(g) Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution to the participants' accounts plus actual earnings thereon is based on years of credited service. A participant is 100% vested after six years of credited service. A participant will be fully vested in all appropriate accounts under the Plan (including those accounts attributable to the Company's contributions) upon reaching the Plan's normal retirement age (age 65), disability or death.

(h) Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested account balance. For termination of service due to other reasons, a participant with an account balance of $5,000 or less could be required to automatically have benefits distributed in a lump-sum payment.

A participant may receive a hardship distribution if the distribution is (1) on account of medical expenses incurred by the participant, his spouse or dependents, (2) to purchase a principal residence of the participant, (3) for the payment of tuition, related educational fees and room and board for the next twelve months of post secondary education for the participant, his spouse or dependents, or (4) needed to prevent eviction of the participant from his principal residence or foreclosure upon the mortgage of the participant's principal residence. Participants must have first obtained all other distributions and all non-taxable loans currently available under the Plan.

(j) Accounting Policies

The books and records of the Plan are maintained on the accrual basis of accounting, which generally provides for revenues to be recognized when earned; expenses are recognized when incurred. Investments are carried at market value. Quoted prices are used to value investments, when available. Forfeited non-vested accounts are recognized when actually realized. Employer contributions are recognized when declared for a particular tax year.

See also note 7.

(k) Use of Estimates

The process of preparing financial statements requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenue and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

(l) Concentration of Credit Risk

Concentration of credit risk consists of cash and investments. Cash balances are minimal, and investments are reasonably diversified among issuers.

(Continued)

1. Summary of Significant Accounting Policies and Description of Plan (Continued)

(m) Fair Value of Assets and Liabilities

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Following is a fair value hierarchy which requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of inputs that may be used to measure fair value are:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The Plan's investments are stated at fair value. Shares of registered investment companies (mutual funds) are valued at quoted market prices utilizing Level 1 inputs, which represent the net asset value of shares held by the Plan at year-end.

See also note 3.

See also note 7 which discusses the Group Annuity Contract.

2. Investments

The following presents investments at December 31 that represent 5% or more of the Plan's net assets available for Plan benefits:

	2013	2012
AUL Fixed Account-Group Annuity Contract	$ 494,427	$ 186,610
OneAmerica Asset Director Portfolio	139,387	110,392

Fidelity VIP Growth Portfolio	71,312	53,321

State Street Equity 500 Index Fund - 2012 only	-	72,687
	$ 1,041,695	$ 864,056

The Plan Trustee has not provided investment cost information as of December 31, 2013 and 2012.

2. Investments (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. The investments are subject to market or credit risks customarily associated with equity investments.

3. Fair Value of Financial Instruments

The carrying amounts of the Plan's investments and receivables approximate their fair value. The fair value measurements for the investments in registered investment companies (mutual funds) are based on Level 1 inputs. The fair value measurement for the Group Annuity Contract is based on Level 2 inputs.

4. Tax Status

The Plan elected to adopt the prototype plan of the Trustee. The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

See also note 10.

5. Information Certified by the Trustee

The Plan administrator elected the method of compliance permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the auditors not to perform any auditing procedures with respect to the following information certified as complete and accurate by American United Life Insurance Company, the custodians and parties-in-interest as defined by ERISA, except for comparing such information certified by the Trustee to information included in the Plan's financial statements.

The information consists of the following:

As of December 31:	2013	2012
Contributions receivable from participants	$ 915	$ -
Investment in registered investment companies - mutual funds	858,703	882,069
Group annuity contract - fixed account	494,427	186,610
Net assets as certified by the Trustee	$ 1,354,045	$ 1,068,679

For the year ended December 31, 2013:	
Interest income – fixed account	$ 12,888
Dividends, realized gains and unrealized appreciation of investments in separate accounts	$ 195,514

(Continued)

6. Administrative Expenses

The Company bears all salary related expenses of personnel administering the Plan and certain other actuarial/accounting expenses related to the operation and financial reporting of the Plan.

7. Information Related to Group Annuity Contract

The Plan is partially funded with a Group Annuity Contract (the Contract) issued by American United Life Insurance Company (AUL).

The Contract offers a fixed interest investment option (the Fixed Option) through AUL's general account and a number of variable investment options through an AUL separate account. Thus, participants can select the option(s) that reflect their individual investment style and risk tolerance. Under the Contract, it is possible to make transfers between the various options and to redirect the investment of future contributions as specified by the Plan document and Contract provisions.

Funds allocated to the Fixed Option are placed in the AUL general account where they are invested in accordance with AUL's general account investment policy. The objective of that investment policy is to maximize long-term, risk-adjusted returns. AUL's general account assets are predominately fixed-income investments (bonds, mortgages, and private placements). The average maturity for these assets is nearly 10 years, and the average duration is between 5 and 6 years.

Following are some features and characteristics of the Fixed Option:

1. Interest rates are established and declared for new contributions that will be received in a calendar quarter. The rate is based on the return AUL expects on new investments made by it and held within the AUL general account. It will always equal or exceed the contractually guaranteed rate.

2. All contributions received during the quarter will earn that declared interest rate until the end of the calendar year following the current year. Each quarter's contributions and the corresponding interest rate are tracked together administratively in a separate quarterly interest rate pocket (Quarterly Pocket).

At the end of the calendar year following the current year, the Quarterly Pockets established in the current year are converted to an annual interest rate pocket.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
