NOTE 1 – DESCRIPTION OF PLAN

The following description of the Intercredit Bank, N.A. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(A) GENERAL

The Plan was established on November 1, 1992, and was established by Intercredit Bank, N.A. (the "Bank") under the provisions of Section 401(a) of the Internal Revenue Code (the "Code"), as amended, which includes qualified cash or deferred arrangements as described in Section 401(k) of the Code, for the benefit of eligible employees of the Bank. Eligible employees of the Bank are those who have attained age 18 and have completed three months of eligible service, as defined. Eligible employees are allowed to make elective deferrals on the first day of the month following completion of eligibility requirements. The plan is subject to and conforms with the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(B) CONTRIBUTIONS

Eligible employees can contribute up to the maximum percentage allowable, subject to certain limitations under the Code. Participants may also decide to make Roth elective deferrals. Participants may contribute any combination of pre-tax elective deferrals and Roth elective deferrals from 1% to 85% of eligible earnings. The Bank matched 100% of the first 3% of a participant's eligible compensation through December 31, 2013. The Company matched approximately 129,000 for the year ended December 31, 2013. The total maximum allowable contribution per participant to the Plan directly from the participant was 17,500 and 17,000 for 2013 and 2012, respectively, not including the catch-up contributions allowed for participants over the age of 50, which were 5,500

In order to satisfy the nondiscrimination rules of Section 401(k) of the Code, contributions are limited to the extent necessary to reduce the actual deferral percentage of the highly compensated group, as defined by the Code.

(C) VESTING

Participants are immediately vested in all participant and employer matching contributions plus actual earnings thereon.

(D) PAYMENTS OF BENEFITS

Benefits are payable to you after you leave the Bank for any reason (retirement termination, disability of death). Participants or their beneficiaries may elect to receive a lump-sum distribution, installment distribution, or annuities, as defined in the Plan document.

NOTE 1 – DESCRIPTION OF PLAN (CONTINUED)

(E) PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's compensation deferral contribution, the Bank's matching contributions, and an allocation of the investment earnings, based upon each participant's election, and charged with an allocation of administrative expenses not paid by the Bank. The benefit to which a participant is entitled upon withdrawal from the Plan, as defined above, is the vested benefit in the participant's account.

(F) INVESTMENT OPTIONS

Upon enrollment in the Plan, a participant may direct employee contributions as well as employer matching contributions and any related earnings in the investment options offered by the Plan. Participants may change their investment elections at any time. Great West Retirement Services ("Great West") was the appointed custodian of the Plan's assets from January 1, 2012 through September 3, 2013. State Street Bank and Trust Company ("State Street") is the appointed trustee of the plan's assets at December 31, 2013.

(G) NOTES RECEIVABLE FROM PARTICIPANTS

Loans will be allowed in accordance with the Plan Agreement. Under Great West, participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The minimum was reduced to $500 under the current custodian, State Street. The loans interest rates will be the rate in effect in the month your loan is effective. The interest rate is prime rate as published in the Wall Street Journal on the 14th day of each month, plus two percentage points. Principal and interest is repaid through payroll deductions over a period of no more than five years unless the loan is used to purchase a primary residence.

(H) FORFEITED ACCOUNTS

At December 31, 2013, forfeited non-vest accounts totaled $243. These accounts may be used to reduce future employer contributions.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

(A) BASIS OF ACCOUNTING

The financial statements of the Plan are prepared on the accrual basis of accounting for defined contribution plans in accordance with accounting principles generally accepted in the United States of America.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(A) BASIS OF ACCOUNTING (CONTINUED)

Accounting guidance requires investment contracts held by a defined-contribution plan to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by accounting guidance, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

(B) INVESTMENT VALUATION AND INCOME RECOGNITION

Assets of the Plan are reflected in the accompanying statements at fair value. Common/collective trusts are valued based on the quoted prices of the underlying assets held in the fund. The Plan uses the Net Asset Value (“NAV”) to determine the fair value of its investment in pooled separate accounts in accordance with guidance with such investments. Mutual funds are valued at the net asset value of shares held by the Plan. Common stocks are valued at quoted market prices.

Purchases and sales of securities are recorded on a trade date basis. Dividends and interest income are recorded by the custodian in the period earned. Net realized and unrealized appreciation or depreciation and the realized gain or loss on the sale of investments during the year. Acquisition costs are included in the cost of investments purchased and sales are recorded net of selling expenses. Investments are self-directed by the individual Plan participants.

(C) NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2013 and 2012, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

(D) USE OF ESTIMATES

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results may differ from those estimates.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(E) RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

(F) PAYMENT OF BENEFITS

Benefits are recorded when paid.

(G) PLAN ADMINISTRATION EXPENSES

The Plan agreement allows for the Bank to absorb a significant amount of the Plan's administrative expenses. During the year ended December 31, 2013 approximately $9,000 in administrative expenses were incurred by the Plan.

(H) MANAGEMENT REVIEW OF SUBSEQUENT EVENTS

Management has evaluated subsequent events through September 26, 2014, the date when the financial statements were available to be issued.

NOTE 3 – FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted process in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for similar assets, and Level 3 inputs consist of unobservable inputs and have the lowest priority.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. During 2013, Level 1 inputs were available and therefore used. During 2012 and 2013, the Plan used level 2 inputs when available and Level 3 inputs when Level 1 or 2 inputs were not available.

NOTE 3 – FAIR VALUE MEASUREMENTS (CONTINUED)

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The Plan's investments are described in Note 4. The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value:

Level 2 Fair Value Measurements

The pooled separate accounts, with the exception of the U.S. Property Separate account, invest mainly in fixed securities, mutual funds, stocks and commercial paper, which have observable Level 2 pricing inputs, including quoted prices for similar assets in active markets.

Level 3 Fair Value Measurements

The guaranteed interest accounts are not actively traded. The guaranteed interest accounts have an estimated fair value based on the amount plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity (liquidation value).

NOTE 5 – GUARANTEED INTEREST ACCOUNTS

The Plan entered into a guaranteed interest account with Great West Life & Annuity Insurance Company. The guaranteed interest account is credited with earnings on the underlying investments and charged for plan withdrawals and administrative expenses charged by Great West Life & Annuity Insurance Company. The guaranteed interest account is included in the financial statements at fair value (which represents contributions made under the contract plus earnings, less withdrawals and expenses) as it is not fully benefit responsive. There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rates approximated 1.26% and 1.45% for 2013 and 2012, respectively. The crediting interest rate is based on an agreed upon formula with the issuer, but cannot be less than 0%.

NOTE 6 – STABLE VALUE FUND

The fund is fully benefit-responsive and in accordance with accounting guidance for investment contracts, it is recorded at fair value on the Statement of Net Assets Available for Benefits. The average yield by the fund was 0.61% for the year ended December 31, 2013.

NOTE 7 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Bank has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their account balance, including employer contributions.

NOTE 8 – TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Bank by a letter dated March 31, 2008 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

NOTE 9 – INFORMATION CERTIFIED BY THE PLAN TRUSTEE

At December 31, 2013, the Plan's assets are held by the custodian, State Street and Great West. The custodian has certified that the following information is complete and accurate as of and for the year ended:

Notes receivable from participants	$ 82,997	$ 110,885
Total investment income, net	$ 278,718	$ 243,760

NOTE 10 – RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by State Street. State Street is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 11 – FIDELITY BONDING

The Bank maintains a fidelity bond of $218,000 for Plan fiduciaries and individuals who handle the funds of the Plan, pursuant to the requirements of ERISA.
