1. DESCRIPTION OF PLAN

The following description of the Community Bank Holdings of Texas, Inc. ("Company") Retirement Savings Plan ("Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of the Company who have completed 6 months of service and are age 19 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Employee Contributions

Pursuant to Section 401(k) of the Internal Revenue Code (the "IRC"), participants may contribute up to the lesser of 100% of their compensation or $16,500 for 2009. All participants' accounts are fully vested at all times.

Employer Matching Contributions

Each year the Company shall contribute, on behalf of the participant, 100% of the participant's deferral contribution for the current Plan year, up to 5%. The participant shall only be entitled to receive the employer matching contribution if the participant earns at least 1,000 hours of service during the Plan year.

Employer Discretionary Contributions

Each year, the Company's Board of Directors may elect to contribute to the Plan discretionary contributions and qualified non-elective contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of the Plan's earnings.

(continued)

1. DESCRIPTION OF PLAN (Continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of service. For the employer matching contribution, employer discretionary contributions and qualified non-elective contributions, participants are 100% vested after six years of service.

Participant Loans

Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or partial withdrawals of at least $1,000.

Forfeitures

A forfeiture is the non-vested portion of a terminated participant's account balance. The forfeited amount remains in the Plan and is used to pay administrative expenses under the Plan and to reduce any subsequent employer contributions.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officers or employees receive compensation from the Plan. Certain administrative expenses are paid directly by the Company, such as recordkeeping, trustee, legal and accounting fees.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

(continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at quoted market prices, if available. Investment income is recorded as earned on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

3. INVESTMENTS

All Plan investment assets are held by Fidelity Management Trust Company, the Trustee of the Plan.

During 2009, the Plan's investments (including investments bought, sold, and held during the year) depreciated in value by $138,342.

The following is a reconciliation of the investments per the financials to the Form 5500 as of March 31, 2009:

Investments as of March 31, 2009, per the financial statements	$ 2,963,580
Changes from March 31, 2009 to April 9, 2009	120,837
Investments as of April, 9, 2009, per the Form 5500	$ 3,084,417

4. FAIR VALUE MEASUREMENTS

FASB ASC 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

(continued)

4. **FAIR VALUE MEASUREMENTS** (Continued)

Level 2 - Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2009 and December 31, 2008.

Mutual funds –
Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Money Market –
Valued at the net asset value (NAV) of shares held by the plan at year-end.

Participant loans –
Valued at amortized cost, which approximates fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(continued)

4. FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of March 31, 2009 and December 31, 2008.

8. ASSET INFORMATION CERTIFIED BY TRUSTEE

As of and for the period ended March 31, 2009, the investment and related activity from which the statement of net assets available for plan benefits, the statement of changes in net assets available for plan benefits, and the supplemental schedule were derived, has been certified by Fidelity Management Trust Company, the Trustee of the Plan, as being complete and accurate as required by 29 CFR 2520, 103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The Plan Administrator instructed the Plan's auditors to not perform any additional audit procedures on information that was certified by the Trustee.

9. TAX STATUS

The Plan obtained its latest opinion letter on October 9, 2003, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

10. RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company, the trustee of the Plan. These transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan as direct compensation for the investment management services amounted to $7,470 for the period ended March 31, 2009.

11. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

12. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

13. SUBSEQUENT EVENTS

On April 9, 2009, the Plan's assets were transferred from Fidelity Management Trust Company to a multi-employer plan for which Pentegra Retirement Services serves as the trustee.
