1. DESCRIPTION OF PLAN

The following description of the Conifer Realty, LLC Retirement Savings Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering substantially all employees of Conifer Realty, LLC (Company) who are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration - The Plan is administered by the Company. All assets of the Plan are held and managed by Fidelity Management Trust Company.

Contributions - Each year, participants may contribute up to the maximum percentage allowable of pretax annual compensation, as defined in the Plan. Participants may also make rollover contributions from other qualified retirement plans. Participants who have attained the age of 50 before the end of the plan year are eligible to make catch-up contributions. After one year of service, the Company will make matching contributions equal to 75% of the participant's contribution. Matching contributions are only made on the first 4% of the participant's compensation. Additional discretionary contributions to participants who have completed one year of service may also be made by the Company. Contributions are subject to certain limitations.

Participant Investment Options - Participants direct the investment of all contributions into various investment options offered by the Plan.

Participant Accounts - Each participant's account is allocated with the participant's contributions, the Company's contribution, Plan earnings, and administrative expenses. Plan earnings and administrative expenses are allocated based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately 100% vested in their contributions plus actual earnings thereon. Company contributions plus earnings thereon become 20% vested upon completion of two years of service and continue to vest at the rate of 20% for each successive year of service until 100% vested after six years of service. Participants are considered to have completed one year of service for vesting purposes at the anniversary date of their first day of employment with the Company.

Forfeitures - Participants who terminate their employment prior to becoming 100% vested will forfeit the nonvested portion in their account. At December 31, 2009 and 2008, forfeited nonvested accounts totaled $21,445 and $10,161, respectively. These accounts can be used to reduce the Company's matching contribution and to pay administrative expenses of the Plan. In 2009 and 2008, forfeitures were not used to reduce the Company's matching contribution. In 2009 and 2008, administrative expenses were paid totaling $13,875 and $21,050, respectively, from the forfeited nonvested accounts.

Administrative Expenses - Certain administrative expenses of the Plan may be paid for by the Company. For the years ended December 31, 2009 and 2008, the Company did not pay any administrative expenses of the Plan.

Participant Loans - Participants may borrow from their account a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by a percentage of the vested account balance equal to the amount borrowed divided by the vested account balance and bear interest at a rate comparable to similar types of loans. Principal and interest are paid ratably through periodic payroll deductions.

1. DESCRIPTION OF PLAN, Continued

Payment of Benefits - Upon retirement, death, disability, hardship or termination of employment, a participant may elect to receive benefits either in a lump-sum, installment payments or partial withdrawals.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Valuation of Investments - The Plan's investments are stated at fair value.

Shares of registered investment companies (mutual funds) are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end.

Participant loans are valued at estimated fair value, which consists of the outstanding principal balance.

In the absence of readily determinable fair values, the fair value of the common collective trust funds is estimated by Plan management with the assistance of Fidelity Management Trust Company, the pricing administrator of the funds.

The common collective trust is valued based on the quoted market prices of the underlying investments in the investment contracts and then adjusted by the issuers to contract value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals. The trust maintains a net asset contract value of $1.00.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

In accordance with Financial Accounting Standards Board Audit Standards Codification 946-205 and 946-210 (FASB ASC 946-205 and 946-210), the statements of net assets available for benefits presents investment contracts at fair value, as well as an additional line item showing an adjustment of fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is presented on a contract value basis and was not affected by FASB ASC 946-205 and 946-210.

Payment of Benefits - Benefits are recorded when paid.

3. INFORMATION CERTIFIED BY TRUSTEE

In accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator has obtained certification from Fidelity Management Trust Company (Fidelity) that the investments and the related investment activity appearing in the statements of net assets available for benefits, appearing in the statements of changes in net assets available for benefits, and appearing in the schedule of assets held for investment purposes are complete and accurate.

During 2008, the Plan's investments, including gains and losses on investments bought and sold, as well as held during the year, depreciated in value by $1,287,205.

5. FAIR VALUE MEASUREMENT

During 2008, the Plan adopted the Financial Accounting Standards Board Accounting Standards Codification, Fair Value Measurements (FASB ASC 820-10). FASB ASC 820-10 defines fair value, establishes a framework for measuring fair value and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820-10, are used to measure fair value. There was no material effect on the 2008 financial statements as a result of adopting this new standard.

5. FAIR VALUE MEASUREMENT, Continued

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has ability to access.

- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment companies (mutual funds) are valued at quoted market price, which represents the net asset value of shares held by the Plan at year end.

The common collective trust is valued based on quoted market prices of the underlying investments.

Participant loans are valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 3,366,983	$ 0	$ 0	$ 3,366,983
Common collective trust	0	527,241	0	527,241
Participant loans	0	0	75,275	75,275
Total assets	$ 3,366,983	$ 527,241	$ 75,275	$ 3,969,499

6. INVESTMENT CONTRACTS WITHIN COMMON COLLECTIVE TRUST

The Plan's common collective trust investment holds various investment contracts. These investment contracts are fully benefit-responsive and contract value is the relevant measurement attribute for the net assets available for benefits.

The common collective trust is credited with contributions and actual earnings on the underlying investments, and charged for participant withdrawals and administrative expenses. The investment contract issuers are contractually obligated to repay the principal and a specified interest rate. There are no reserves against contract value for credit risk of the investment contract issuers or otherwise.

6. INVESTMENT CONTRACTS WITHIN COMMON COLLECTIVE TRUST, Continued

Certain events that are deemed to be caused by the actions of the Plan sponsor limit the Plan's ability to transact at contract value with the common collective trust. Such events include the following:

- The Plan's failure to qualify under Section 401(a) or 401(k) of the Internal Revenue Code
- The establishment of a defined contribution plan that competes with the Plan for employee contributions
- Any substantive modification of the common collective trust or the administration of the common collective trust that is not consented to by the wrap issuer
- Any changes in law, regulation or administrative ruling applicable to the Plan that could have a material adverse effect on the common collective trust's cash flow
- Any communication given to unit holders by the Plan Sponsor, any other plan fiduciary or FMTC that is designed to induce or influence unit holders not to invest in the common collective trust or to transfer assets out of the common collective trust
- Any transfer of assets from the common collective trust directly to a competing investment option

The Plan administrator believes the occurrence of any such event, which would limit the Plan's ability to transact at contract value with the Plan participants, is not probable.

The average yield earned by the common collective trust based on actual earnings was 2.70% and 3.42% at December 31, 2009 and 2008, respectively. The average yield earned by the common collective trust based on the actual interest rate credited to participants was 1.35% and 2.83% at December 31, 2009 and 2008, respectively.

7. RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity Investment Management Company (Fidelity), who is the trustee as defined by the Plan. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the Company contribution portion of their account.

9. TAX STATUS

The Internal Revenue Service has determined and informed the Company, by a letter dated October 9, 2003, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

10. RISKS AND UNCERTAINTIES

The Plan provides various investment options. Investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect the account balances of participants and the amounts reported in the statement of net assets available for benefits.

11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
